Covered Activity impacts to existing land cover types were used as a surrogate to identify maximum potential impacts to species and the potential take of each Covered Species. The proposed HCP conservation strategy prescribes conditions for implementing each Covered Activity that avoid or minimize potential take of the Covered Species, and identifies mitigation for species impacts that cannot be avoided.

National Environmental Policy Act Compliance

Our proposed permit issuance decision triggers compliance with NEPA, which requires that environmental information be available to public officials and citizens before Federal decisions are made and before Federal actions are taken. We formally initiated an environmental review of the draft EIS through publication of a notice of intent (NOI) to prepare a draft EIS in the **Federal Register** on Friday, December 23, 2011 (76 FR 80385). That notice also announced a public scoping period, during which we invited interested parties to provide written comments expressing their issues or concerns related to the proposal. A public scoping meeting was held in Bakersfield, California, on January 23, 2012. We prepared a draft EIS and published a notice of availability (NOA) in the **Federal Register** on Wednesday, May 28, 2014 (79 FR 30638). We received one comment letter on the draft EIS. A response to the comment received has been included in the final EIS and revisions to the final EIS. The analysis provided in the final EIS is intended to accomplish the following: Inform the public of the Service's proposed permit action and alternatives and the environmental impacts of the alternatives, and address public comments received on the draft EIS.

Public Comments

The Service invites the public to review the permit application, final EIS, and final HCP during the public comment period (see **DATES**). You may submit any comments and materials by one of the methods listed in **ADDRESSES**. Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Next Steps

We will evaluate the application, associated documents, and comments submitted to determine whether the application meets the requirements of section 10(a) of the Act. The Service will then prepare a Record of Decision. A permit decision will be made no sooner than 30 days after the publication of the final EIS notice in the **Federal Register** and completion of the Record of Decision.

Notice of Realty Action: Proposed Non-Competitive Lease of Public Land in Sierra County, NM

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM), Las Cruces District Office, proposes to lease two parcels of public land totaling 4.12 acres in Sierra County, New Mexico, for agricultural purposes (pecan orchard). The subject parcels were inadvertently developed by the adjacent landowner into a pecan orchard without authorization. The area has a long history of agricultural use and the proposed lease would provide the BLM with a reasonable option to resolve the continued unauthorized use of the affected public lands. The BLM proposes to lease the lands for not less than the fair market value to Winder Farm. The BLM White Sands Resource Management Plan, dated October 1986, does not exclude the subject parcel from the authorized officer's discretion to consider lease proposals in the subject area.

DATES: Written comments may be submitted to the address below. The BLM must receive your comments on or before January 22, 2015.

ADDRESSES: Send written comments concerning the proposed lease to the District Manager, BLM, Las Cruces District Office, 1800 Marquess Street, Las Cruces, NM 88005.

SUPPLEMENTARY INFORMATION: The BLM has determined that the two parcels of land described below are suitable for consideration as an agricultural lease under Section 302 of the Federal Land Policy Management Act of 1976 (43 U.S.C. 1732), (FLPMA) and the implementing regulations at 43 CFR 2920.

BEGINNING at the northerly corner of PARCEL B. Said point of beginning hereinafter referred as "Corner No. 1 of Parcel B" for this description. From said point of beginning of Parcel B the center one quarter (1/4) section corner bears N. 2°21'17" E., a distance of 364.11 feet.

The area described (Parcels A and B) in aggregate is 4.12 acres.

The applicable regulation at 43 CFR 2920.5-4(b) provides that, "land use authorizations may be offered on a negotiated, non-competitive basis, when, in the judgment of the authorized officer equities, such as prior use of the lands, exist, no competitive interest exists or where competitive bidding would represent unfair competitive and economic disadvantage to the originator of the unique land use concept." Based on past use of the subject parcels for the establishment of pecan trees owned by Winder Farm, it is the authorized officer's decision to offer the proposed agricultural lease to Winder Farm on a non-competitive basis because competitive bidding would represent an unfair competitive and economic disadvantage to Winder Farm. As noted above, Winder Farms' use of the parcels constituted an inadvertent trespass that they discovered and subsequently reported to the BLM. Winder Farms has since worked with the BLM to resolve the trespass. Subsequent to the BLM's receipt of an application for leasing by Winder Farm that complies with all applicable requirements set forth at 43 CFR 2920.5, processing of the proposed lease will take place in accordance with 43 CFR 2920.6, and other applicable regulations. Information and documentation regarding processing of the lease application is available as described in ADDRESSES, above, and reference should be made to National Environmental Policy Act (NEPA) analysis, to be conducted under DOI-BLM-NM-L000-2014-0168-EA. No final decision on the lease will be made until all required analyses are completed. If authorized, the lease would be subject to provisions of FLPMA and all applicable regulations of the Secretary of the Interior, including,

but not limited to, 43 CFR part 2920, and to valid existing rights.

Public comments regarding the proposed lease may be submitted in writing—see ADDRESSES above—on or before January 22, 2015. Comments received in electronic form, such as email or fax, will not be considered. Any adverse comments regarding the proposed lease will be reviewed by the BLM State Director or another authorized official of the Department of the Interior, who may sustain, vacate, or modify this realty action in whole or in part. In the absence of timely filed objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
