If the regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted; ED will only accept comments during the comment period in this mailbox when the regulations.gov site is not available. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Mailstop L-OM-2-2E319, Room 2E105, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Kashka Kubzdela 202-502-7411.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Quick Response Information System (QRIS) 2015-2018 System Clearance.

OMB Control Number: 1850-0733.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local or Tribal Government.

Total Estimated Number of Annual Responses: 104,004.

Total Estimated Number of Annual Burden Hours: 31,704.

Abstract: The National Center for Education Statistics (NCES) Quick Response Information System (QRIS) consists of the Fast Response Survey System (FRSS) and the Postsecondary Education Quick Information System (PEQIS). The QRIS currently conducts surveys under OMB generic clearance 1850-0733, which expires in May 2015. This submission requests approval to continue the current clearance conditions through 2018. FRSS primarily conducts surveys of the elementary/secondary sector (districts, schools) and public libraries. PEQIS conducts surveys of the postsecondary education sector. FRSS and PEQIS surveys are cleared under the QRIS generic clearance. The QRIS clearance is subject to the regular clearance process at OMB with a 60-day notice and a 30-day notice as part of the 120-day review period. Each individual FRSS or PEQIS survey is then subject to clearance process with an abbreviated clearance package, justifying the particular content of the survey, describing the sample design, the timeline for the survey activities, and the questionnaire. The review period for each individual survey is 45 days, including a 30-day **Federal Register** notice period. OMB will provide comments as soon after the end of the 30-day notice period as possible. This generic clearance request is for surveys of surveys of state education agencies, school districts, schools, postsecondary institutions, and libraries.

Dated: December 12, 2014.

Stephanie Valentine,

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

DEPARTMENT OF ENERGY

Plains & Eastern Clean Line Transmission Project Draft Environmental Impact Statement

AGENCY: Department of Energy.

ACTION: Notice of availability and public hearings.

SUMMARY: The U.S. Department of Energy (DOE) announces the availability

of the *Draft Environmental Impact Statement for the Plains & Eastern Clean Line Transmission Project* (DOE/EIS-0486; Draft EIS) for a 90-day public comment period. DOE also announces 15 public hearings to receive comments on the Draft EIS. In addition, DOE invites comments on the National Historic Preservation Act Section 106 process and any potential adverse impacts to historic properties from the proposed Project. Major facilities associated with the proposed Project include converter stations in Oklahoma and Tennessee; an approximately 720-mile high voltage direct current (HVDC) transmission line; an alternating current (AC) collection system; and access roads. This Draft EIS evaluates the potential environmental impacts of the proposed Project and alternatives to it.

DATES: DOE invites comments on this Draft EIS and on the National Historic Preservation Act Section 106 process and any potential adverse impacts to historic properties from the proposed Project and alternatives during a 90-day period, which ends on March 17, 2015. Comments submitted after the close of the comment period will be considered to the extent practicable. The Department will hold 15 public hearings at the locations, dates, and start times listed in **SUPPLEMENTARY INFORMATION** below.

ADDRESSES: Written comments on the Draft EIS may be provided on the EIS Web site at <http://www.plainsandeasterneis.com> (preferred) or addressed to: Plains & Eastern EIS, 216 16th Street, Suite 1500, Denver, Colorado 80202; via email to comments@PlainsandEasternEIS.com; or by facsimile to (303) 295-2818. Please mark envelopes and email subject lines as *Plains & Eastern Draft EIS Comments*. **FOR FURTHER INFORMATION CONTACT:** For information on the Plains & Eastern EIS or the Section 106 process, contact Jane Summerson, Ph.D., DOE NEPA Document Manager on behalf of the Office of Electricity Delivery and Energy Reliability, U.S. Department of Energy, NNSA, PO Box 391 Building 401, Kirtland Air Force Base East, Albuquerque, NM 87185; email at Jane.Summerson01@nnsa.doe.gov; or phone (505) 845-4091.

For general information regarding the DOE NEPA process, contact Carol Borgstrom, Director, Office of NEPA Policy and Compliance (GC-54), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585; or phone at (202) 586-4600; voicemail at (800) 472-2756; or email at askNEPA@hq.doe.gov. Additional information regarding DOE's

NEPA activities is available on the DOE NEPA Web site at <http://energy.gov/nepa>.

SUPPLEMENTARY INFORMATION: In June 2010, DOE, acting through the Southwestern Power Administration and the Western Area Power Administration, both power marketing administrations within DOE, issued *Request for Proposals (RFP) for new or upgraded transmission line projects under Section 1222 of the Energy Policy Act of 2005* (75 FR 32940; June 10, 2010). In response to the RFP, Clean Line Energy Partners LLC of Houston, Texas, the parent company of Plains and Eastern Clean Line LLC and Plains and Eastern Clean Line Oklahoma LLC (collectively referred to as Clean Line or the Applicant) submitted a proposal to DOE in July 2010 for the Plains & Eastern Clean Line Project. In August 2011, Clean Line modified the proposal.

The Applicant Proposed Project would include an overhead \pm 600-kilovolt (kV) HVDC electric transmission system and associated facilities with the capacity to deliver approximately 3,500 megawatts primarily from renewable energy generation facilities in the Oklahoma and Texas Panhandle regions to load-serving entities in the Mid-South and Southeast United States via an interconnection with the Tennessee Valley Authority (TVA) in Tennessee. Major facilities associated with the Applicant Proposed Project consist of converter stations in Oklahoma and Tennessee; an approximately 720-mile HVDC transmission line; an AC collection system; and access roads. Pursuant to NEPA, DOE has identified and analyzed potential environmental impacts for several alternatives in addition to the Applicant Proposed Project, including alternative routes for the HVDC transmission line and adding

a converter station in Arkansas (to deliver power to the Arkansas electrical grid).

DOE has prepared this Draft EIS in consultation with the following cooperating agencies: the Bureau of Indian Affairs, Natural Resources Conservation Service, TVA, U.S. Army Corps of Engineers, U.S. Environmental Protection Agency Regions 4 and 6, and the U.S. Fish and Wildlife Service. In the Draft EIS, DOE analyzes the potential environmental impacts of the Applicant Proposed Project, the range of reasonable alternatives, and a No Action Alternative. The potential environmental impacts resulting from connected actions (wind energy generation and substation and transmission upgrades related to the Project) are also analyzed in the Draft EIS.

DOE's purpose and need for agency action is to implement Section 1222 of the Energy Policy Act of 2005. To that end, DOE needs to decide whether and under what conditions it would participate in the Applicant Proposed Project. DOE has not identified a preference for whether to participate with Clean Line in the Project in some manner as prescribed by Section 1222. DOE will identify its preference for whether to participate with Clean Line in the Applicant Proposed Project and its preferred alternatives for each of the Project elements (including route alternatives) in the Final EIS after evaluating public comments and agency input received on the Draft EIS.

Public hearings. All public hearings will follow the same format. An open house will be held from 5:00 p.m.–5:45 p.m., during which DOE and its contractors will be available to answer questions in an informal setting. Clean Line personnel also will be available to answer technical questions regarding

the Project. The open house will be followed by a presentation at 5:45 p.m. by Dr. Summerson, DOE NEPA Document Manager, who will describe the Draft EIS, the NEPA and Section 106 processes, and the methods that can be used to submit comments. The formal public comment portion of the meeting will begin at 6:15 p.m. During this time, interested parties may present oral comments to DOE. A court reporter will transcribe the comments presented at each hearing. Individuals wishing to speak at a hearing should register when they arrive. DOE will initially allot three minutes to each commenter to ensure that as many people as possible have the opportunity to speak. More time may be provided, as circumstances permit. Written comments may be submitted at the hearing or by the other methods described in **ADDRESSES** above. It is DOE's practice to make comments, including names and addresses of respondents, available for public review. Before including your address, phone number, email address, or other personal identifying information with your comments, be advised that your entire comment, including your personal identifying information, may be made publicly available at any time. Although you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety. DOE will give equal consideration to oral and written comments in preparing the Final EIS. The locations, dates, and starting times of the public hearings are listed in the table below:
