**SUPPLEMENTARY INFORMATION:**

## Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCMAS is responsible for defining the criteria appropriate to Codex Methods of Analysis and Sampling; serving as a coordinating body for Codex with other international groups working in methods of analysis and sampling and quality assurance systems for laboratories; specifying the basis of final recommendations submitted to it by other bodies; considering, amending, and endorsing, methods of analysis and sampling proposed by Codex (Commodity) Committees, except that methods of analysis and sampling for residues of pesticides or veterinary drugs in food, the assessment of microbiological quality and safety in food, and the assessment of specifications for food additives do not fall within the terms of reference of this Committee. The Committee is charged with elaborating sampling plans and procedures; considering specific sampling and analysis problems submitted to it by the Commission or any of its Committees; defining procedures, protocols, guidelines, or related texts for the assessment of food laboratory proficiency; and developing quality assurance systems for laboratories.

The Committee is hosted by Hungary.

## Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 36th Session of CCMAS will be discussed during the public meeting:

- Methods of Analysis and Sampling in Codex Standards at different steps
- Proposed Draft Principles for the Use of Sampling and Testing in International Food Trade-Explanatory notes and practical examples
- Discussion paper on development of procedures/guidelines for determining equivalency to type I methods
- Discussion paper on criteria approach for methods which use a sum of components
- Review and update of methods in Codex Stan 234–1999 (Recommended Methods of Analysis and Sampling)
- Follow-up methods of analysis and sampling plans

## • Other Business and Future Work

Each issue listed will be fully described in documents distributed, or to be distributed, by the Secretariat prior to the Committee meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).

## Public Meeting

At the February 5, 2015 public meeting, draft U.S. positions on the agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 36th Session of CCMAS, Gregory Noonan (see **ADDRESSES**). Written comments should state that they relate to activities of the 36th Session of CCMAS.

## Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at <http://www.fsis.usda.gov/wps/portal/fsis/topics/regulations/federal-register/federal-register-notices>.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade and farm groups, consumer interest groups, allied health professionals, and other individuals who have asked to be included. The update is available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at [http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/us-codex-alimentarius/committees-and-task-forces/mailling-list/CT\\_Index](http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/us-codex-alimentarius/committees-and-task-forces/mailling-list/CT_Index).

Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the option to password protect their account.
