DEPARTMENT OF LABOR

Employment and Training Administration

Labor Certification Process for the Temporary Employment of Aliens in Agriculture in the United States: 2015 Adverse Effect Wage Rates

AGENCY: Employment and Training Administration, Department of Labor.

ACTION: Notice.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (Department) is issuing this notice to announce the 2015 Adverse Effect Wage Rates (AEWRs) for the employment of temporary or seasonal nonimmigrant foreign workers (H-2A workers) to perform agricultural labor or services.

AEWRs are the minimum wage rates the Department has determined must be offered and paid by employers to H-2A workers and workers in corresponding employment for a particular occupation and area so that the wages of similarly

employed U.S. workers will not be adversely affected. 20 CFR 655.100(b). In this notice, the Department announces the annual update of the AEWRs.

DATES: *Effective Date:* This notice is effective *December 19, 2014.*

FOR FURTHER INFORMATION CONTACT: William W. Thompson, Acting Administrator, Office of Foreign Labor Certification, U.S. Department of Labor, Room C-4312, 200 Constitution Avenue NW., Washington, DC 20210. Telephone: 202-693-3010 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: The U.S. Citizenship and Immigration Services of the Department of Homeland Security will not approve an employer's petition for the admission of H-2A nonimmigrant temporary agricultural workers in the U.S. unless the petitioner has received from the Department an H-2A labor certification. The labor certification provides that: (1) There are not sufficient U.S. workers who are able, willing, and qualified and who will be available at the time and place needed to perform the labor or services involved in the petition; and (2) the employment of the foreign worker(s) in such labor or services will not adversely affect the wages and working conditions of workers in the U.S. similarly employed. 8 U.S.C. 1101(a)(15)(H)(ii)(a), 1184(c)(1), and 1188(a); 8 CFR 214.2(h)(5).

Adverse Effect Wage Rates for 2015

The Department's H-2A regulations at 20 CFR 655.120(l) provide that employers must pay their H-2A workers and workers in corresponding employment at least the highest of: (i) The AEWR; (ii) the prevailing hourly wage rate; (iii) the prevailing piece rate; (iv) the agreed-upon collective bargaining wage rate, if applicable; or (v) the Federal or State minimum wage rate, in effect at the time the work is performed.

Except as otherwise provided in 20 CFR part 655, subpart B, the region-wide AEWR for all agricultural employment (except those occupations deemed inappropriate under the special procedure provisions of 20 CFR 655.102) for which temporary H-2A certification is being sought is equal to the annual weighted average hourly wage rate for field and livestock workers (combined) in the State or region as published annually by the United States Department of Agriculture (USDA). 20 CFR 655.120(c) requires that the Administrator of the Office of Foreign Labor Certification publish the USDA field and livestock worker (combined) wage data as AEWRs in a **Federal**

Register notice. Accordingly, the 2015 AEWRs to be paid for agricultural work performed by H-2A and U.S. workers on or after the effective date of this notice are set forth in the table below:

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of SGS North America, Inc. (SGS), as an NRTL. SGS's expansion covers the addition of four test standards to its scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The Agency processes applications by an NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL that details its scope of recognition. These pages are available from the Agency's Web site at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

SGS submitted an application, dated May 28, 2014 (OSHA-2006-0040-0014, Exhibit 14-3—SGS Request for Expansion), to expand its recognition to include four¹ additional test standards. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing SGS's expansion application in the **Federal Register** on

¹ In its application, SGS initially requested expansion for 5 standards. However, documentation for the fifth standard, UL 859, was submitted late and the review of SGS's capabilities for that standard will be handled separately.
