Department Regulatory Agenda; Semiannual Summary**AGENCY:** Office of the Secretary, DOT.**ACTION:** Semiannual regulatory agenda.

SUMMARY: The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the Agenda is to provide the public with information about the Department of Transportation's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity. The public is also invited to submit comments on any aspect of this Agenda.

FOR FURTHER INFORMATION CONTACT:**General**

You should direct all comments and inquiries on the Agenda in general to Brett Jortland, Acting Assistant General Counsel for Regulation and Enforcement, Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590; (202) 366–4723.

Specific

You should direct all comments and inquiries on particular items in the Agenda to the individual listed for the regulation or the general rulemaking contact person for the operating administration in appendix B. Individuals who use a telecommunications device for the deaf (TDD) may call (202) 755–7687.

SUPPLEMENTARY INFORMATION:**Background**

Improvement of our regulations is a prime goal of the Department of Transportation (Department or DOT). Our regulations should be clear, simple, timely, fair, reasonable, and necessary. They should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed. To view additional information about the Department's regulatory activities online, go to <http://www.dot.gov/regulations>. Among other things, this Web site provides a report, updated monthly, on the status of the DOT significant rulemakings listed in the semiannual regulatory agenda.

To help the Department achieve these goals, and in accordance with Executive Order (E.O.) 12866, "Regulatory Planning and Review," (58 FR 51735; Oct. 4, 1993) and the Department's Regulatory Policies and Procedures (44 FR 11034; Feb. 26, 1979), the Department prepares a semiannual regulatory agenda. It summarizes all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last Agenda.

The Agendas are based on reports submitted by the offices initiating the rulemaking and are reviewed by OST.

The Internet is the basic means for disseminating the Unified Agenda. The complete Unified Agenda is available online at www.reginfo.gov, in a format that offers users a greatly enhanced ability to obtain information from the Agenda database.

Because publication in the **Federal Register** is mandated for the regulatory flexibility agendas required by the Regulatory Flexibility Act (5 U.S.C. 602), DOT's printed Agenda entries include only:

1. The agency's Agenda preamble;
2. Rules that are in the agency's regulatory flexibility agenda, in accordance with the Regulatory

Flexibility Act, because they are likely to have a significant economic impact on a substantial number of small entities; and

3. Any rules that the agency has identified for periodic review under section 610 of the Regulatory Flexibility Act.

Printing of these entries is limited to fields that contain information required by the Regulatory Flexibility Act's Agenda requirements. These elements are: Sequence Number; Title; Section 610 Review, if applicable; Legal Authority; Abstract; Timetable; Regulatory Flexibility Analysis Required; Agency Contact; and Regulation Identifier Number (RIN). Additional information (for detailed list, see section heading "Explanation of Information on the Agenda") on these entries is available in the Unified Agenda published on the Internet.

Significant/Priority Rulemakings

The Agenda covers all rules and regulations of the Department. We have classified rules as a DOT agency priority in the Agenda if they are, essentially, very beneficial, controversial, or of substantial public interest under our Regulatory Policies and Procedures. All DOT agency priority rulemaking documents are subject to review by the Secretary of Transportation. If the Office of Management and Budget (OMB) decided a rule is subject to its review under Executive Order 12866, we have classified it as significant in the Agenda.

Explanation of Information on the Agenda

An Office of Management and Budget memorandum, dated August 25, 2014, requires the format for this Agenda.

First, the Agenda is divided by initiating offices. Then, the Agenda is divided into five categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, (4) long-term actions, and (5) completed actions. For each entry, the Agenda provides the following information: (1) Its "significance"; (2) a short, descriptive title; (3) its legal basis; (4) the related regulatory citation in the Code of Federal Regulations; (5) any legal deadline and, if so, for what action (e.g., NPRM, final rule); (6) an abstract; (7) a timetable, including the earliest expected date for a decision on whether to take the action; (8) whether the rulemaking will affect small entities and/or levels of Government and, if so, which categories; (9) whether a Regulatory Flexibility Act (RFA) analysis is required (for rules that would have a significant economic impact on a substantial number of small entities); (10) a listing of any analyses an office

will prepare or has prepared for the action (with minor exceptions, DOT requires an economic analysis for all its rulemakings); (11) an agency contact office or official who can provide further information; (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the Agenda and facilitate tracing further action on the issue; (13) whether the action is subject to the Unfunded Mandates Reform Act; (14) whether the action is subject to the Energy Act; and (15) whether the action is major under the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act. If there is information that does not fit in the other categories, it will be included under a separate heading entitled "Additional Information." One such example of this is the letters "SB," "IC," and "SLT." These refer to information used as part of our required reports on Retrospective Review of DOT rulemakings. A "Y" or an "N," for yes and no, respectively, follow the letters to indicate whether or not a particular rulemaking would have effects on: Small businesses (SB); information collections (IC); or State, local, or tribal (SLT) governments.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, we only include the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations; we do not list individual regulations.

In the "Timetable" column, we use abbreviations to indicate the particular documents being considered. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, and NPRM for Notice of Proposed Rulemaking. Listing a future date in this column does not mean we have made a decision to issue a document; it is the earliest date on which we expect to make a decision on whether to issue it. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this Agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (•) preceding an entry indicates that the entry appears in the Agenda for the first time.

Request for Comments

General

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the Agenda easier to use. We would like you, the public, to make suggestions or comments on how the Agenda could be further improved.

Reviews

We also seek your suggestions on which of our existing regulations you believe need to be reviewed to determine whether they should be revised or revoked. We particularly draw your attention to the Department's review plan in appendix D. In response to Executive Order 13563 "Retrospective Review and Analysis of Existing Rules," we have prepared a retrospective review plan providing more detail on the process we use to conduct reviews of existing rules, including changes in response to Executive Order 13563. We provided the public opportunities to comment at www.regulations.gov and Idea Scale on both our process and any existing DOT rules the public thought needed review. The plan and the results of our review can be found at <http://www.dot.gov/regulations> and <http://www.dot.gov/mission/open/open-government>.

Regulatory Flexibility Act

The Department is especially interested in obtaining information on requirements that have a "significant economic impact on a substantial number of small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please submit them to us, along with your explanation of why they should be reviewed.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that we have targeted for review under section 610 of the Act. The phrase (sec. 610 Review) appears at the end of the title for these reviews. Please see appendix D for the Department's section 610 review plans.

Consultation With State, Local, and Tribal Governments

Executive Orders 13132 and 13175 require us to develop an accountable process to ensure "meaningful and timely input" by State, local, and tribal officials in the development of regulatory policies that have federalism or tribal implications. These policies are

defined in the Executive Orders to include regulations that have "substantial direct effects" on States or Indian tribes, on the relationship between the Federal Government and them, or on the distribution of power and responsibilities between the Federal Government and various levels of Government or Indian tribes. Therefore, we encourage State and local Governments or Indian tribes to provide us with information about how the Department's rulemakings impact them.

Purpose

The Department is publishing this regulatory Agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity and should result in more effective public participation. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the Agenda. Regulatory action, in addition to the items listed, is not precluded.

Dated: September 23, 2014.

Anthony R. Foxx,
Secretary of Transportation.

Appendix C—Public Rulemaking Dockets

All comments via the Internet are submitted through the Federal Docket Management System (FDMS) at the following address: <http://www.regulations.gov>. The FDMS allows the public to search, view, download, and comment on all Federal agency rulemaking documents in one central online system. The above referenced Internet address also allows the public to sign up to receive notification when certain documents are placed in the dockets.

The public also may review regulatory dockets at, or deliver comments on proposed rulemakings to, the Dockets Office at 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, 1-800-647-5527. Working Hours: 9:00 a.m. to 5:00 p.m.

Appendix D—Review Plans for Section 610 and Other Requirements

Part I—The Plan

General

The Department of Transportation has long recognized the importance of regularly reviewing its existing regulations to determine whether they

need to be revised or revoked. Our 1979 Regulatory Policies and Procedures require such reviews. We also have responsibilities under Executive Order 12866, “Regulatory Planning and Review,” and section 610 of the Regulatory Flexibility Act to conduct such reviews. This includes the use of plain language techniques in new rules and considering its use in existing rules when we have the opportunity and resources to permit its use. We are committed to continuing our reviews of existing rules and, if needed, will initiate rulemaking actions based on these reviews.

In accordance with Executive Order 13563, “Improving Regulation and Regulatory Review,” issued by the President on January 18, 2011, the Department has added other elements to its review plan. The Department has decided to improve its plan by adding special oversight processes within the Department; encouraging effective and timely reviews, including providing additional guidance on particular problems that warrant review; and expanding opportunities for public participation. These new actions are in addition to the other steps described in this appendix.

Section 610 Review Plan

Section 610 requires that we conduct reviews of rules that: (1) Have been published within the last 10 years, and (2) have a “significant economic impact on a substantial number of small entities” (SEIOSNOSE). It also requires that we publish in the **Federal Register** each year a list of any such rules that we will review during the next year. The Office of the Secretary and each of the Department’s Operating Administrations have a 10-year review plan. These reviews comply with section 610 of the Regulatory Flexibility Act.

Changes to the Review Plan

Some reviews may be conducted earlier than scheduled. For example, to the extent resources permit, the plain language reviews will be conducted more quickly. Other events, such as accidents, may result in the need to conduct earlier reviews of some rules. Other factors may also result in the need to make changes; for example, we may make changes in response to public comment on this plan or in response to a presidentially mandated review. If there is any change to the review plan, we will note the change in the following Agenda. For any section 610 review, we will provide the required notice prior to the review.

Part II—The Review Process

The Analysis

Generally, the agencies have divided their rules into 10 different groups and plan to analyze one group each year. For purposes of these reviews, a year will coincide with the fall-to-fall schedule for publication of the Agenda. Thus, Year 1 (2008) begins in the fall of 2008 and ends in the fall of 2009; Year 2 (2009) begins in the fall of 2009 and ends in the fall of 2010, and so on. We request public comment on the timing of the reviews. For example, is there a reason for scheduling an analysis and review for a particular rule earlier than we have? Any comments concerning the plan or particular analyses should be submitted to the regulatory contacts listed in appendix B, General Rulemaking Contact Persons.

Section 610 Review

The agency will analyze each of the rules in a given year’s group to determine whether any rule has a SEIOSNOSE and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. The level of analysis will, of course, depend on the nature of the rule and its applicability. Publication of agencies’ section 610 analyses listed each fall in this Agenda provides the public with notice and an opportunity to comment consistent with the requirements of the Regulatory Flexibility Act. We request that public comments be submitted to us early in the analysis year concerning the small entity impact of the rules to help us in making our determinations.

In each fall Agenda, the agency will publish the results of the analyses it has completed during the previous year. For rules that had a negative finding on SEIOSNOSE, we will give a short explanation (e.g., “these rules only establish petition processes that have no cost impact” or “these rules do not apply to any small entities”). For parts, subparts, or other discrete sections of rules that do have a SEIOSNOSE, we will announce that we will be conducting a formal section 610 review during the following 12 months. At this stage, we will add an entry to the Agenda in the prerulemaking section describing the review in more detail. We also will seek public comment on how best to lessen the impact of these rules and provide a name or docket to which public comments can be submitted. In some cases, the section 610 review may be part of another unrelated review of the rule. In such a case, we plan to clearly indicate which parts of the review are being conducted under section 610.

Other Reviews

The agency will also examine the specified rules to determine whether any other reasons exist for revising or revoking the rule or for rewriting the rule in plain language. In each fall Agenda, the agency will also publish information on the results of the examinations completed during the previous year.

Part III—List of Pending Section 610 Reviews

The Agenda identifies the pending DOT section 610 Reviews by inserting “(Section 610 Review),” after the title for the specific entry. For further information on the pending reviews, see the Agenda entries at www.reginfo.gov. For example, to obtain a list of all entries that are in section 610 Reviews

under the Regulatory Flexibility Act, a user would select the desired responses on the search screen (by selecting “advanced search”) and, in effect, generate the desired “index” of reviews.

Federal-Aid Highway Program

The Federal Highway Administration (FHWA) has adopted regulations in title 23 of the CFR, chapter I, related to the Federal-Aid Highway Program. These regulations implement and carry out the provisions of Federal law relating to the administration of Federal aid for highways. The primary law authorizing Federal aid for highways is chapter I of title 23 of the U.S.C. 145 of title 23 expressly provides for a federally assisted State program. For this reason, the regulations adopted by the FHWA in title 23 of the CFR primarily relate to the requirements that States must meet to receive Federal funds for the construction and other work related to highways. Because the regulations in title 23 primarily relate to States, which are not defined as small entities under the Regulatory Flexibility Act, the FHWA believes that its regulations in title 23 do not have a significant economic impact on a substantial number of small entities. The FHWA solicits public comment on this preliminary conclusion.

Year 6 (fall 2013) List of Rules Analyzed and a Summary of Results

23 CFR part 645—Utilities

- Section 610: No SEIOSNOSE. No small entities are affected
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 CFR part 646—Railroads

- Section 610: No SEIOSNOSE. No small entities are affected
- General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

23 FR part 650—Bridges, structures, and hydraulics

- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 652—Pedestrian and bicycle accommodations and projects
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 655—Traffic operations
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 656—Carpool and vanpool projects
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 657—Certification of size and weight enforcement
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 658—Truck size and weight, route designations—length, width and weight limitations
- Section 610: No SEIOSNOSE. No

- small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 660—Special programs (Direct Federal)
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 661—Indian Reservation Road Bridge Program
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 668—Emergency Relief program
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 669—Enforcement of heavy vehicle use tax
- Section 610: No SEIOSNOSE. No small entities are affected
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.

- 49 CFR part 390—Federal Motor Carrier Safety Regulations, General

Year 4 (Fall 2011) List of Rules Analyzed and a Summary of Results

- 49 CFR part 399—Employee Safety and Health Standards
 - Section 610: The agency conducted a Section 610 review of these parts and found no SEIOSNOSE. While these parts affect a substantial number of small entities, the current requirements are prudent business practices and do *not* impose a significant economic impact.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FMCSA’s plain language review of these rules indicates no need for substantial revision.

Year 4 (Fall 2011) List of Rules With Ongoing Analysis

- 49 CFR part 390—Definition of Commercial Motor Vehicle (CMV)—Requirements for Operators of Small Passenger-Carrying CMVs.
 - This rule was moved up from Year 4 as a result of the Department’s Retrospective Regulatory Review.*

Year 5 (Fall 2012) List of Rules Analyzed and a Summary of Results

- 49 CFR part 387—Minimum Levels of Financial Responsibility for Motor Carriers
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE. While part 387 affects a substantial number of small entities, the currently required minimum levels of financial responsibility do *not* impose a significant economic impact because the industry standard imposed by lenders requires an even higher level of coverage.
 - General: On July 6, 2012, the President signed Moving Ahead for Progress in the 21st Century Act (MAP–21) into law. Section 32104 of MAP–21 directed the Secretary to issue a report on the appropriateness of: (1) the current minimum financial responsibility requirements for the transportation of passengers and property; and (2) the current bond and insurance requirements for freight forwarders and brokers, including for brokers for motor carriers of passengers. FMCSA issued this report in April 2014. Section 32104 also directed the Secretary to determine the appropriateness of these

requirements every 4 years and to issue similar reports to Congress. In its April 2014 report, FMCSA concluded that the current financial responsibility minimums are inadequate to cover the costs of some crashes. FMCSA is drafting an Advance Notice of Proposed Rulemaking an to considering increasing the current levels of minimum financial responsibility.

Year 6 (Fall 2013) List of Rules Analyzed and a Summary of Results

- 49 CFR part 216—Special Notice and Emergency Order Procedures: Railroad Track, Locomotive and Equipment
- Section 610: There is no SEIOSNOSE.
 - General: Since the rule deals with the special notices for repairs of railroad freight car, locomotive, passenger equipment, and track class, and prescribes for the issuance and review of emergency orders for removing dangerously substandard track from service, it will provide safety and security for railroad employees and the public. FRA's plain language review of this rule indicates no need for substantial revision.
- 49 CFR part 228—Hours of Service of Railroad Employees
- Section 610: There is no SEIOSNOSE.
 - General: Since the rule prescribes reporting and recordkeeping requirements regarding the hours of

service of certain railroad employees, railroad contractors and subcontractors; establishes requirements for electronic recordkeeping systems for the creation and maintenance of required hours of service records; establishes standards and procedures concerning the construction or reconstruction of sleeping quarters; establishes minimum safety and health standards for camp cars provided by a railroad as sleeping quarters; and prescribes substantive hours of service requirements for train employees engaged in commuter or intercity rail passenger transportation, it promotes the safety of railroad operations and employees. FRA's plain language review of this rule indicates no need for substantial revision.

49 CFR part 229—Railroad Locomotive Safety Standards

- Section 610: There is a SEIOSNOSE. These are minimum Federal standards for railroad locomotive safety. The FRA will

conduct a formal review to identify whether opportunities may exist to reduce the burden on small railroads without compromising safety standards.

- General: Since the rule prescribes minimum Federal safety standards for all locomotives except those propelled by steam power, these regulations are necessary to achieve better and effective compliance of railroad locomotive safety standards and to minimize the number of casualties. FRA's plain language review of this rule indicates that there is no need for substantial revision.

Year 6 (Fall 2013): List of Rules Analyzed and Summary of Results

49 CFR part 622—Environmental Impact and Related Procedures

- Section 610: The agency has determined that the rule does not have a significant effect on a substantial number of small entities. FTA and FHWA recently revised the rule and evaluated the likely effects of the final rule on small entities and requested public comment during the rulemaking process. FTA and FHWA determined that the rule does not have a significant economic impact on entities of any size. FTA and FHWA expect the revisions to the rule will expedite environmental review. Thus, FTA and FHWA

determined that the rule will not have a significant economic impact on a substantial number of small entities. FTA and FHWA received no comment on this issue in the rulemaking process.

- General: FTA revised part 622 via a final rule in January 2013, in order to implement recent MAP–21 requirements (see 79 FR 2107). Part 622 cross-references 23 CFR part 771. FTA and FHWA joint procedures at 23 CFR part 771 describe how FTA and FHWA comply with NEPA and the Council on Environmental Quality (CEQ) regulations implementing NEPA. Sections 1316 and 1317 of MAP–21 require the Secretary of Transportation to promulgate

regulations designating two types of actions as categorical exclusions in 23 CFR part 771: (1) Any project (as defined in 23 U.S.C. 101(a)) within an existing operational right-of-way; and (2) any project that receives less than \$5,000,000 of Federal funds or with a total estimated cost of not more than \$30,000,000 and Federal funds comprising less than 15 percent of the total estimated project cost, respectively.

Year 6 (fall 2013) List of Rules Analyzed and a Summary of Results

49 CFR part 174—Carriage by Rail

- Section 610: There is no SEIOSNOSE. On August 27–28, 2013 (78 FR 42998) PHMSA and FRA held a public meeting to address the transportation of hazardous materials by rail. This meeting was part of PHMSA and FRA's comprehensive review of operational factors that affect the safety of the transportation of hazardous materials by rail and sought input from stakeholders and interested parties. Specifically, this meeting sought comment from the regulated community including small entities on revision to part 174. PHMSA and FRA have evaluated the comments from this meeting. The comments to this public meeting noted that some small entities may be affected, but the economic impact on small entities will not be significant. As a result, the agency determined that the rules do not have a significant economic impact on a substantial number of small entities. A

response to the public comments, including those of small entities, and proposals for corresponding revisions to part 174 will be included in a future rulemaking.

- General: The requirements in this rule are necessary to protect rail transportation workers and the general public from the dangers associated with hazardous materials incidents in rail transportation. PHMSA's plain language review of this rule indicates no need for substantial revision however any revisions to part 174 as part of a future rulemaking will take into account plain language principles and where appropriate clarify unclear language.

49 CFR part 177—Carriage by Public Highway

- Section 610: There is no SEIOSNOSE. This rule prescribes minimum safety standards for the transportation of hazardous materials for highway transportation. Some small entities may be affected, but the economic impact on small entities will not be significant.

General: The requirements in this rule

are necessary to protect highway transportation workers and the general public from the dangers associated with hazardous materials incidents in highway transportation. PHMSA's plain language review of this rule indicates no need for substantial revision.

49 CFR part 191—Transportation of Natural and Other Gas by Pipeline; Annual Reports, Incident Reports, and Safety-Related Condition Reports

- Section 610: There is no SEIOSNOSE. Based on regulated entities, PHMSA found that the majority of operators are not small businesses. Therefore, though some small entities may be affected, the economic impact on small entities will not be significant.
- General: No changes are needed. These regulations are cost effective and impose the least burden. PHMSA's plain language review of this rule indicates no need for substantial revision.

49 CFR part 192—Transportation of Natural and Other Gas by Pipeline: Minimum Federal Safety Standards

- Section 610: There is no SEIOSNOSE. Based on regulated entities, PHMSA found that the majority of operators are not small businesses. Therefore, though some small entities may be affected, the economic impact on small entities will not be significant.
 - General: No changes are needed.
- These regulations are cost effective and impose the least burden. PHMSA's plain language review of this rule indicates no need for substantial revision.

365. +Airline Pricing Transparency and Other Consumer Protection Issues

Legal Authority: 49 U.S.C. 41712; 49 U.S.C. 40101; 49 U.S.C. 41702

Abstract: This rulemaking action would enhance protections for air travelers and to improve the air travel environment, including clarification and codification of the Department’s interpretation of the statutory definition of ticket agent.” This action would also require airlines and ticket agents to disclose at all points of sale the fees for certain basic ancillary services associated with the air transportation consumers are buying or considering

buying. This action would also enhance additional airline passenger protections, such as: Expanding the pool of reporting” carriers; requiring enhanced reporting by mainline carriers for their domestic code-share partner operations; requiring large travel agents to adopt minimum customer service standards; codifying the statutory requirements that carriers and ticket agents disclose any code-share arrangements on their Web sites; and prohibiting unfair and deceptive practices such as undisclosed biasing and post-purchase price increases. This action would require ticket agents to disclose the carriers whose tickets they sell in order to avoid having consumers mistakenly believe they are searching all possible flight options for a particular city-pair market when in fact there may be other options available. Additionally, this action

would correct drafting errors and make minor changes to the Department’s second Enhancing Airline Passenger Protections rule to conform to guidance issued by the Department’s Office of Aviation Enforcement and Proceedings (Enforcement Office) regarding its interpretation of the rule.

Legal Authority: 49 U.S.C. 44701(a)(5); Pub. L. 111-216, sec 206

Abstract: This rulemaking would amend the regulations for air carrier training programs under part 121. The action is necessary to ensure that air carriers establish or modify training programs that address mentoring, leadership, and professional development of flight crewmembers in part 121 operations. The amendments are intended to respond to the mandate in Public Law 111-216.

Legal Authority: 49 U.S.C. 106(g); 49 U.S.C. 40113; 49 U.S.C. 44701; Pub. L. 111-216

Abstract: This rulemaking would amend evaluation qualifications for simulators to ensure the simulators are

technically capable of performing new flight training tasks as identified in the Airline Safety and Federal Aviation Administration Extension Act of 2010 (Pub. L. 111-216) and that are included in a separate rulemaking (2120-AJ00). By ensuring the simulators provide an accurate and realistic simulation, this rulemaking would allow for training on the following tasks: (1) Full/aerodynamic stall, and (2) upset recognition and recovery, as identified in Public Law 111-216. Furthermore, this rulemaking would improve the minimum FSTD evaluation requirements for gusting crosswinds (takeoff/landing), engine and airframe icing, and bounced landing recovery methods in response to NTSB and Aviation Rulemaking Committee recommendations. The intended effect is to ensure an adequate level of simulator fidelity.

Legal Authority: 49 U.S.C. 31502; 49 U.S.C. 13301; 49 U.S.C. 31136

Abstract: FMCSA proposes to adopt regulations governing the lease and interchange of passenger-carrying commercial motor vehicles (CMVs) to: (1) Identify the motor carrier operating a passenger-carrying CMV and responsible for compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and all other applicable Federal regulations; (2) ensure that a lessor surrenders control of the CMV for the full term of the lease or temporary exchange of CMVs and drivers; and (3) require motor carriers subject to a prohibition on operating in interstate commerce to notify the FMCSA in writing before leasing or otherwise transferring control of their vehicles to other carriers. This action is necessary to ensure that unsafe passenger carriers cannot evade FMCSA oversight and enforcement by operating under the authority of another carrier that exercises no actual control over those operations. This action will enable the FMCSA, the National Transportation Safety Board (NTSB), and our Federal and State partners to identify motor carriers transporting passengers in interstate commerce, and correctly assign responsibility to these entities for regulatory violations during inspections, compliance investigations, and crash studies. It also provides the general public with the means to identify the responsible motor carrier at the time of transportation. While detailed lease and interchange regulations for cargo-

carrying vehicles have been in effect since 1950, these proposed rules for passenger-carrying CMVs are focused entirely on operational safety.

374. +Inspection, Repair, and Maintenance; Driver-Vehicle Inspection Report (RRR)

Legal Authority: 49 U.S.C. 31502(b)

Abstract: This rulemaking would rescind the requirement that commercial motor vehicle (CMV) drivers operating in interstate commerce submit, and motor carriers retain, driver-vehicle inspection reports when the driver has neither found nor been made aware of any vehicle defects or deficiencies. Specifically, this rulemaking would remove a significant information collection burden without adversely impacting safety. This rulemaking responds in part to the President's January 2012 Regulatory Review and Reform initiative.

Abstract: This rulemaking would add minimum requirements for the size of different train crew staffs depending on the type of operation. The minimum crew staffing requirements would reflect for the safety risks posed to railroad employees, the general public, and the environment and would account for differences in costs. This rulemaking would also establish minimum requirements for the roles and responsibilities of the second train crew member on a moving train, and promote safe and effective teamwork. Additionally, this rulemaking would permit a railroad to submit information to FRA and seek approval if it wants to continue an existing operation with a one-person train crew or start up an operation with less than two crew members.

Abstract: This rulemaking would: (1) Establish minimum training standards for each class or craft of safety-related employee and equivalent railroad contractor and subcontractor employee by requiring railroads, contractors, and subcontractors to qualify and document the proficiency of such employees on

their knowledge and ability to comply with Federal railroad safety laws and regulations, and railroad rules, and procedures intended to implement those laws and regulations, etc.; (2) require submission of the training and qualification programs for FRA approval; and (3) establish a minimum training curriculum, and ongoing training criteria, testing, and skills evaluation measures.

380. +Pipeline Safety: Amendments to Parts 192 and 195 To Require Valve Installation and Minimum Rupture Detection Standards

Legal Authority: 49 U.S.C. 60101 et seq.

Abstract: This rulemaking action would propose mandatory installation of automatic shutoff valves, remote controlled valves, or equivalent technology, and establish performance-based meaningful metrics for rupture detection for gas and liquid transmission pipelines. The overall intent is that rupture detection metrics will be integrated with ASV and RCV placement, with the objective of

improving overall incident response. Rupture response metrics would focus on mitigating large, unsafe, uncontrolled release events that have a greater potential consequence. The areas proposed to be covered include high consequence areas (HCA) for hazardous liquids and HCA, Class 3 and 4 for natural gas (including could affect areas).

381. +Hazardous Materials: Transportation of Lithium Batteries

Legal Authority: 49 U.S.C. 5101 et seq.

Abstract: This rulemaking amended the Hazardous Materials Regulations to comprehensively address the safe transportation of lithium cells and batteries. The rulemaking strengthened the regulatory framework by imposing more effective safeguards, including design testing to address risks related to internal short circuits, and enhanced packaging, hazard communication, and operational measures for various types and sizes of lithium batteries in specific transportation contexts. The rulemaking responded to several recommendations issued by the National Transportation Safety Board.

382. +Cargo Preference

Legal Authority: 49 CFR 1.66; 46 app U.S.C. 1101; 46 app U.S.C. 1241; 46 U.S.C. 2302 (e)(1); Pub. L. 91-469

Abstract: This rulemaking would revise and clarify the cargo preference regulations that have not been revised substantially since 1971. The rulemaking would also implement statutory changes, including section 3511, Public Law 110 to 417, of The National Defense Authorization Act for FY 2009, which provides enforcement authority.
