and all other emissions, the SIP will achieve its overall purpose, in this case providing for maintenance of the 1997 annual PM$_{2.5}$ NAAQS. EPA’s process for determining adequacy of a MVEB consists of three basic steps: (1) Providing public notification of a SIP submission; (2) providing the public the opportunity to comment on the MVEB during a public comment period; and, (3) EPA taking action on the MVEB.

EPA has reviewed the MVEBs and found them consistent with the maintenance plan and that the budgets meet the criteria for adequacy and approval. Therefore, EPA is proposing to approve as well as find adequate the 2017 and 2025 PM$_{2.5}$ and NO$_X$ MVEBs for Berks County for transportation conformity purposes. Additional information pertaining to the review of the MVEBs can be found in the TSD dated April 29, 2014, available on line at www.regulations.gov, Docket ID No. EPA–R03–OAR–2014–0147. Any comments relating to EPA’s proposal to approve as well as find adequate the 2017 and 2025 PM$_{2.5}$ and NO$_X$ MVEBs for Berks County for transportation conformity purposes, as submitted by Pennsylvania, should be submitted in response to this notice of proposed rulemaking.

VI. Proposed Actions

EPA is proposing to approve the request submitted by Pennsylvania to redesignate the Reading Area from nonattainment to attainment for the 1997 annual PM$_{2.5}$ NAAQS. EPA has evaluated the Commonwealth’s redesignation request and determined that it meets the redesignation criteria set forth in section 107(d)(3)(E) of the CAA. The monitoring data demonstrates that the Reading Area has attained the 1997 annual PM$_{2.5}$ NAAQS, and, for the reasons discussed previously, that it will continue to attain the NAAQS. EPA is also proposing to approve the maintenance plan for the Reading Area as a revision to the Pennsylvania SIP because it meets the requirements of section 175A of the CAA as described previously in this proposed rulemaking notice. In addition, EPA is proposing to approve the 2007 base year emissions inventory as meeting the requirements of section 172(a)(3) of the CAA. Furthermore, EPA is proposing to approve as well as find adequate the 2017 and 2025 PM$_{2.5}$ and NO$_X$ MVEBs submitted by Pennsylvania for Berks County for transportation purposes. Final approval of the redesignation request would change the designation of Reading from nonattainment to attainment for the 1997 PM$_{2.5}$ annual NAAQS. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

VII. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28335, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule proposing to approve Pennsylvania’s redesignation request, maintenance plan, 2007 base year emissions inventory, and MVEBs for transportation conformity purposes for the Reading Area for the 1997 annual PM$_{2.5}$ NAAQS, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.
