SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements. Once an authorized program has EPA's approval to accept electronic documents under certain programs, CROMERR 3.1000(a)(4) requires that the program keep EPA apprised of any changes to laws, policies, or the electronic document receiving systems that have the potential to affect the program's compliance with CROMERR 3.2000.

On June 24, 2014, the Minnesota Pollution Control Agency (MPCA) submitted an amended application titled "Minnesota Pollution Control Agency Regulatory Services Portal" for revisions/modifications of its EPA-approved electronic reporting program under its EPA-authorized programs under title 40 CFR to allow new electronic reporting. EPA reviewed MPCA's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program

revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Minnesota's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR parts 51, 60-61, 63, 65, 68, 70-72, 74-75, 79-80, 82, 86, 89-92, 94, 122, 262, 264-266, 268, 270, 280, and 403, is being published in the **Federal Register**:

- Part 52—Approval and Promulgation of Implementation Plans;
- Part 60—Standards of Performance for New Stationary Sources;
- Part 61—National Emission Standard for Hazardous Air Pollutants;
- Part 63—National Emission Standards for Hazardous Air Pollutants for Source Categories;

ENVIRONMENTAL PROTECTION AGENCY

[FRL 9920-69-Region 6]

Final National Pollutant Discharge Elimination System (NPDES) General Permit for Municipal Separate Storm Sewer Systems in the Middle Rio Grande Watershed in New Mexico (NMR04A000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final NPDES general permit issuance.

SUMMARY: The Environmental Protection Agency (EPA) Region 6 Water Quality Protection Division, today announces issuance of the National Pollutant Discharge Elimination System (NPDES) general permit for storm water discharges from municipal separate storm sewer systems (MS4s) located in the Middle Rio Grande Watershed in the State of New Mexico. The permit offers discharge authorization to regulated MS4s within the boundaries of the Bureau of the Census-designated 2000 and 2010 Albuquerque Urbanized Areas and any other MS4s in the watershed designated by the Director as needing a MS4 permit. This permit is intended to replace both the individual NPDES Permit NMS000101 issued on January 31, 2012, and the expired general permits NMR040000 and NMR04000I for dischargers in this watershed area.

EPA Region 6 proposed the draft permit in the **Federal Register** on May 1, 2013. EPA Region 6 has considered all comments received and has made changes to the proposed permit. A copy of the EPA Region 6's response to comments, a final fact sheet, and the final permit may be obtained from the EPA Region 6 internet site: <http://epa.gov/region6/water/npdes/sw/ms4/index.htm>

FOR FURTHER INFORMATION CONTACT: Ms. Evelyn Rosborough, Region 6, U.S. Environmental Protection Agency, 1445 Ross Avenue, Dallas, Texas 75202-2733. Telephone: (214) 665-7515.

DATES: This permit is effective on, and is deemed issued for the purpose of judicial review, December 22, 2014 and expires December 19, 2019. Under section 509(b) of the CWA, judicial review of this general permit can be held by filing a petition for review in the United States Court of Appeals within 120 days after the permit is considered issued for judicial review. Under section 509(b)(2) of the CWA, the requirements in this permit may not be challenged later in civil or criminal proceedings to enforce these

requirements. In addition, this permit may not be challenged in other agency proceedings.

SUPPLEMENTARY INFORMATION: Highlights of changes from the proposed permit include the following. All changes are discussed in the response to comments documents.

- If seeking alternative sub-measurable goals for TMDL controls, the permit requires permittees to submit a preliminary proposal with the Notice of Intent (NOI).

- Added a polychlorinated biphenyl (PCB) strategy requirement in Bernalillo County drainage areas.

- Incorporated requirements resulting from the Endangered Species Act (ESA) consultation in Part I.C.3 of the permit.

- Revised schedules in Activity Tables 1.a through 10.

- Clarified and revised the language related to post construction runoff and stormwater quality design standards.

- Added an option, Ground Water Replenishment Project, to provide an opportunity to replenish regional ground water supplies when infeasible to implement storm water quality design standards.

- Clarified seasonal monitoring periods and sampling methodology.

- Included information for electronic submittal of NOI and revised Annual Report deadline.

- Other minor changes and clarifications.

Other Legal Requirements

A. State and Tribal Certification

Under section 401(a)(1) of the CWA, EPA may not issue a NPDES permit until the State or Tribal authority in which the discharge will occur grants or waives certification to ensure compliance with appropriate requirements of the CWA and State law. The New Mexico Environment Department issued the 401 certification on September 13, 2013. The Pueblo of Sandia issued the 401 certification on July 1, 2013. The Pueblo of Isleta issued the 401 certification on October 29, 2014.

B. Other Regulatory Requirements

The Endangered Species Act (ESA) of 1973 requires Federal Agencies such as EPA to ensure, in consultation with the U.S. Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS) (also known collectively as the "Services"), that any actions authorized, funded, or carried out by the Agency (e.g., EPA issued NPDES permits authorizing discharges to waters of the United States) are not likely to jeopardize the continued

existence of any Federally-listed endangered or threatened species or adversely modify or destroy critical habitat of such species (see 16 U.S.C. 1536(a)(2), 50 CFR 402 and 40 CFR 122.49(c)). The scope of today's permit action is consistent with U.S. FWS Biological Opinion dated August 21, 2014.

Dated: December 11, 2014.

William K. Honker,

Water Quality Protection Division, EPA Region 6.
