SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. NARA will summarize and include submitted comments in our request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collection:

Title: National Historical Publications and Records Commission (NHPRC) Grant Program, Budget Form, and Instructions.

OMB number: 3095-0013.

Agency form number: NA Form 17001.

Type of review: Reinstatement of a previously cleared information collection.

Affected public: Nonprofit organizations and institutions, state and local government agencies, and Federally-acknowledged or state-recognized Native American tribes or groups, who apply for and receive NHPRC grants for support of historical documentary editions, archival preservation and planning projects, and other records projects.

Estimated number of respondents: 144 per year submit applications; approximately 45 grantees need to submit revised budgets.

Estimated time per response: 10 hours per application; 5 hours per revised budget.

Frequency of response: On occasion for the application; as needed for revised budget. Currently, the NHPRC considers grant applications 2 times per year. Respondents usually submit no more than one application per year, and, for those who need to submit revised budgets, only one revised budget per year.

Estimated total annual burden hours: 1,665 hours.

Abstract: The NHPRC posts grant announcements to their Web site and to [grants.gov](http://www.grants.gov) (www.grants.gov), where the information will be specific to the grant opportunity named. The basic information collection remains the same. The NA Form 17001 is used by the NHPRC staff, reviewers, and the Commission to determine if the applicant and proposed project are eligible for an NHPRC grant, and whether the proposed project is methodologically sound and suitable for support.

Dated: December 18, 2014.

Leslie Johnston,

Acting Executive for Information Services/ CIO.

NUCLEAR REGULATORY COMMISSION

[NRC-2014-0182]

Agency Information Collection Activities: Submission for the Office of Management and Budget Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to Office of Management and Budget (OMB) for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 28, 2014.

1. *Type of submission, new, revision, or extension:* Extension.
2. *The title of the information collection:* 10 CFR part 54,

“Requirements for Renewal of Operating Licenses for Nuclear Power Plants.”

3. *Current OMB approval number:* 3150–0155.

4. *The form number if applicable:* N/A.

5. *How often the collection is required:* There is a one-time application for any licensee wishing to renew the operating license for its nuclear power plant. There is a one-time requirement for each licensee with a renewed operating license to submit a letter documenting the completion of inspection and testing activities. All holders of renewed licenses must perform yearly record keeping.

6. *Who will be required or asked to report:* Commercial nuclear power plant licensees who wish to renew their operating licenses and holders of renewed licenses.

7. *An estimate of the number of annual responses:* 6.

8. *The estimated number of annual respondents:* 58 (52 recordkeepers + 6 responses (2 license renewal applications expected on average + 4 letters documenting the completion of inspection and testing activities expected on average)).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 220,340 hours (168,340 hours of reporting + 52,000 hours of recordkeeping).

10. *Abstract:* Part 54 of Title 10 of the Code of Federal Regulations (10 CFR), establishes license renewal requirements for commercial nuclear power plants and describes the information that licensees must submit to the NRC when applying for a license renewal. The application must contain information on how the licensee will manage the detrimental effects of age-related degradation on certain plant systems, structures, and components so as to continue the plant's safe operation during the renewal term. The NRC needs this information to determine whether the licensee's actions will be effective in assuring the plants' continued safe operation during the period of extended operation.

Holders of renewed licenses must retain in an auditable and retrievable form, for the term of the renewed operating license, all information and documentation required to document compliance with 10 CFR part 54. The NRC needs access to this information for continuing effective regulatory oversight.

The public may examine and have copied for a fee publicly available documents, including the final supporting statement, at the NRC's Public Document Room, Room O–1F21,

One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by January 23, 2015. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Vlad Dorjets, Desk Officer, Office of Information and Regulatory Affairs (3150–0155), NEOB–10202, Office of Management and Budget, Washington, DC 20503

Comments can also be emailed to Vladik_Dorjets@omb.eop.gov or submitted by telephone at 202–395–7315.

The NRC Clearance Officer is Tremaine Donnell, 301–415–6258.

Dated at Rockville, Maryland, this 18th day of December 2014.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.

NUCLEAR REGULATORY COMMISSION

[NRC–2014–0215]

Agency Information Collection Activities: Submission for the Office of Management and Budget Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to the Office of Management and Budget (OMB) for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment

period on this information collection on October 6, 2014.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* Title 10 of the Code of Federal Regulations (10 CFR) Part 73, “Physical Protection of Plants and Materials.”

3. *Current OMB approval number:* 3150–0002.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required:* On occasion, with the exception of the initial submittal of revised Cyber Security Plans, Security Plans, Safeguards Contingency Plans, and Security Training and Qualification Plans. Required reports are submitted and evaluated as events occur.

6. *Who will be required or asked to report:* Nuclear power reactor licensees, licensed under 10 CFR part 50 or 52 who possess, use, import, export, transport, or deliver to a carrier for transport, special nuclear material; actively decommissioning reactor licensees, Category I fuel facilities; Category II and III facilities; nonpower reactors (research and test reactors); 262 other nuclear materials licensees; and 200 state and Tribal contacts.

7. *An estimate of the number of annual responses:* 154,748.

8. *The estimated number of annual respondents:* 581.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 543,443 (21,255 hours reporting + 486,746 hours recordkeeping + 35,442 hours third party disclosure).

10. *Abstract:* The NRC regulations in 10 CFR part 73 prescribe requirements to establish and maintain a physical protection system and security organization with capabilities for protection of (1) Special nuclear material (SNM) at fixed sites, (2) SNM in transit, and (3) plants in which SNM is used. The objective is to ensure that activities involving special nuclear material are consistent with interests of common defense and security and that these activities do not constitute an unreasonable risk to public health and safety. The information in the reports and records submitted by licensees is used by the NRC staff to ensure that the health and safety of the public and the environment are protected, and licensee possession and use of special nuclear material is in compliance with license and regulatory requirements.
