

Parties are strongly encouraged to work with and within stakeholder sectors (including industry, civil society, and government sectors, as the EITI process defines) to jointly consider and submit nominations that, overall, reflect the diversity and breadth of their sector. Nominees are strongly encouraged to include supporting letters from constituents, trade associations, alliances, and/or other organizations that indicate the support by a meaningful constituency for the nominee.

Individuals who are Federally registered lobbyists are ineligible to serve on all FACA and non-FACA boards, committees, or councils in an individual capacity. The term "individual capacity" refers to individuals who are appointed to exercise their own individual best judgment on behalf of the government, such as when they are designated Special Government Employees, rather than being appointed to represent a particular interest.

The Committee will meet quarterly or at the request of the Designated Federal Officer. Non-Federal members of the Committee will serve without compensation. However, we may pay the travel and per diem expenses of Committee members, if appropriate, under the Federal Travel Regulations.

To learn more about USEITI please visit the official Web site at www.doi.gov/eiti.

Dated: December 17, 2014.

Paul A. Mussenden,

Deputy Assistant Secretary—Natural Resources Revenue Management.

Public Review of the Draft Part 2 (Revision), Digital Orthoimagery, of the Federal Geographic Data Committee (FGDC) Geographic Information Framework Data Standard

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice; request for comment

SUMMARY: The Federal Geographic Data Committee (FGDC) is conducting a public review of the draft Part 2 (revision), Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard.

The primary purpose of Part 2, Digital Orthoimagery, of the FGDC Geographic

Information Framework Data Content Standard is to support exchange of orthoimagery data. Part 2 seeks to establish a common baseline for the semantic content of orthoimagery databases for public agencies and private enterprises. It also seeks to decrease the costs and simplify the exchange of orthoimagery data among local, Tribal, State, and Federal users and producers. That, in turn, discourages duplicative data collection. Benefits of adopting Part 2 also include the long-term improvement of geospatial orthoimagery data within the community.

The draft Part 2 (revision), Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard, may be downloaded from <https://www.fgdc.gov/standards/projects/FGDC-standards-projects/framework-data-standard/DraftRevisionPart2>. Comments shall be submitted using the content template at <http://www.fgdc.gov/standards/process/standards-directives/template.doc>. Instructions for completing the comment template are found in FGDC Standards Directive #2d, Standards Working Group Review Guidelines: Review Comment Template, <http://www.fgdc.gov/standards/process/standards-directives/directive-2d-standards-working-group-review-guidelines-review-comment-template>.

Comments that concern specific issues/changes/additions may result in changes in the draft Part 2 (revision), Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard. Reviewers may obtain information about how comments were addressed upon request. After FGDC endorsement of Part 2 (revision), Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard and a summary analysis of the changes will be made available to the public on the FGDC Web site, www.fgdc.gov.

DATES: Comments on the draft Part 2 (revision), Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard, shall be submitted to Ms. Julie Binder Maitra, FGDC Standards Coordinator, jmaitra@fgdc.gov by March 24, 2015.

FOR FURTHER INFORMATION CONTACT: Ms. Julie Binder Maitra, U.S. Geological Survey, Federal Geographic Data Committee, jmaitra@fgdc.gov, 703-648-4627

SUPPLEMENTARY INFORMATION: Part 2, Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard specifies data content and logical structure for the description and interchange of framework digital orthoimagery. To a certain extent, it also

provides guidelines for the acquisition and processing of imagery for generation of digital orthoimagery and specifies the documentation of those acquisition and processing steps. The primary focus of Part 2 is on images sensed in the visible to near infrared portion of the electromagnetic spectrum; however, images captured from other portions of the electromagnetic spectrum are not precluded.

It is the intent of Part 2, Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard to set a common baseline that will ensure the widest utility of digital orthoimagery for the user and producer communities through enhanced data sharing and the reduction of redundant data production. Part 2 stresses complete and accurate reporting of information relating to quality control and standards employed in testing orthoimagery data.

Part 2, Digital Orthoimagery, of the FGDC Geographic Information Framework Data Standard applies to orthoimagery data produced or disseminated by or for the Federal government. According to Office of Management and the Budget (OMB) Circular A-16 (Revised) on Coordination of Geographic Information Related Spatial Data Activities, Federal agencies collecting or producing geospatial data, either directly or indirectly (for example, through grants, partnerships, or contracts with other entities), shall ensure, prior to obligating funds for such activities, that data will be collected in a manner that meets all relevant standards adopted through the Federal Geographic Data Committee (FGDC) process.

Work on the FGDC Geographic Information Framework Data Standard began under the Geospatial One-Stop e-Government initiative. The FGDC subsequently endorsed the Geographic Information Framework Data Standard, Parts 1-7, in 1998. Part 2 needed to be revised due to technological changes, such as the transition from film to digital cameras. The main changes included adding new terms, clarification of definitions, and typo fixes.

The FGDC coordinates the development of the National Spatial Data Infrastructure (NSDI), which encompasses the policies, standards, and procedures for organizations to cooperatively produce and share geospatial data. Federal agencies that make up the FGDC develop the NSDI in cooperation with organizations from State, local and tribal governments, the academic community, and the private sector. The authority for the FGDC is

OMB Circular No. A-16 Revised on Coordination of Geographic Information and Related Spatial Data Activities (Revised August 19, 2002). More information on the FGDC and the NSDI is available at <http://www.fgdc.gov>.

Kenneth Shaffer,

Deputy Executive Director, Federal Geographic Data Committee.

BILLING CODE 4311-AM-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLWO310000.L13100000.PP0000.15X]

Renewal of Approved Information Collection; OMB Control No. 1004-0162

AGENCY: Bureau of Land Management, Interior.

ACTION: 60-day notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act, the Bureau of Land Management (BLM) invites public comments on, and plans to request approval to continue, the collection of information pertaining to surface-disturbing activities associated with onshore oil and gas geophysical exploration within oil and gas leases, communized areas, and unutilized areas on Federal lands managed by the Bureau of Land Management (BLM) or the U.S. Forest Service (FS). The Office of Management and Budget (OMB) has assigned control number 1004-0162 to this information collection.

DATES: Please submit comments on the proposed information collection by February 23, 2015.

ADDRESSES: Comments may be submitted by mail, fax, or electronic mail.

Mail: U.S. Department of the Interior, Bureau of Land Management, 1849 C Street NW., Room 2134LM, Attention: Jean Sonneman, Washington, DC 20240.

Fax: to Jean Sonneman at 202-245-0050.

Electronic mail: Jean_Sonneman@blm.gov.

Please indicate "Attn: 1004-0162" regardless of the form of your comments.

FOR FURTHER INFORMATION CONTACT:

Jennifer Spencer, at 202-912-7146. Persons who use a telecommunication device for the deaf may call the Federal Information Relay Service at 1-800-877-8339, to leave a message for Ms. Spencer.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act, 44 U.S.C. 3501-3521, require that interested members of the public and affected agencies be given an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d) and 1320.12(a)). This notice identifies an information collection that the BLM plans to submit to OMB for approval. The Paperwork Reduction Act provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

The BLM will request a 3-year term of approval for this information collection activity. Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) The accuracy of the agency's burden estimates; (3) Ways to enhance the quality, utility and clarity of the information collection; and (4) Ways to minimize the information collection burden on respondents, such as use of automated means of collection of the

information. A summary of the public comments will accompany our submission of the information collection requests to OMB.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The following information pertains to this request:

Title: Onshore Oil and Gas Geophysical Exploration (43 CFR part 3150 and 36 CFR parts 228 and 251).

OMB Control Number: 1004-0162.

Summary: The BLM and the FS collect the information from those who wish to participate in the evaluation, development, and utilization of oil and gas resources. The BLM and FS need the information in order to manage surface operations that are under their respective jurisdictions.

Frequency of Collection: On occasion.

Forms:

- Notice of Intent and Authorization to Conduct Oil and Gas Geophysical Exploration Operations (BLM Form 3150-4/FS Form 2800-16); and
- Notice of Completion of Geophysical Exploration Operations (BLM 3150-5/FS 2800-16a).

Description of Respondents: Those who wish to participate in surface-disturbing evaluation, development, and utilization of oil and gas resources on Federal lands for mineral potential.

Estimated Annual Responses: 100.

Estimated Annual Burden Hours: 65.

Estimated Annual Non-Hour Costs: \$25.

The estimated burdens are itemized in the following table:

A. Type of response	B. Number of responses	C. Time per response	D. Total hours (column B × column C)
Notice of Intent and Request to Conduct Geophysical Exploration Operations/Outside Alaska (43 CFR 3151.1) BLM Form 3150-4/FS Form 2800-16.	45 (20 to BLM and 25 to FS)	1 hour	45
Notice of Intent and Request to Conduct Geophysical Exploration Operations/Alaska (43 CFR 3152.1, 3152.3, 3152.4, and 3152.5) BLM Form 3150-4.	1	1 hour	1
Notice of Completion of Geophysical Exploration Operations (43 CFR 3151.2 and 3152.7) BLM Form 3150-5/FS Form 2800-16a.	53 (28 to BLM and 25 to FS)	20 minutes	18
Data and Information Obtained in Carrying Out Exploration Plan (Alaska only) (43 CFR 3152.6).	1	1 hour	1
Totals	100	65
