

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-73879; File No. SR-NASDAQ-2014-122]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Port Fees

December 18, 2014.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 12, 2014, The NASDAQ Stock Market LLC (“NASDAQ” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by NASDAQ. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

NASDAQ proposes to amend the manner in which the Exchange assesses Port Fees which are located in chapter XV, entitled “Options Pricing,” which governs pricing for NASDAQ members using the NASDAQ Options Market (“NOM”), NASDAQ’s facility for executing and routing standardized equity and index options.

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on January 2, 2015.

The text of the proposed rule change is available on the Exchange’s Web site at <http://www.nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to increase Port Fees for the following ports from \$550.00 to \$600.00 per port, per month, per mnemonic: Order Entry Ports,³ CTI Ports,⁴ OTTO Ports,⁵ ITTO Ports,⁶ BONO Ports,⁷ Order Entry DROP Ports,⁸

³ The Order Entry Port Fee is a connectivity fee in connection with routing orders to the Exchange via an external order entry port. NOM Participants access the Exchange’s network through order entry ports. A NOM Participant may have more than one order entry port.

⁴ CTI offers real-time clearing trade updates. A real-time clearing trade update is a message that is sent to a member after an execution has occurred and contains trade details. The message containing the trade details is also simultaneously sent to The Options Clearing Corporation. The trade messages are routed to a member’s connection containing certain information. The administrative and market event messages include, but are not limited to: System event messages to communicate operational-related events; options directory messages to relay basic option symbol and contract information for options traded on the Exchange; complex strategy messages to relay information for those strategies traded on the Exchange; trading action messages to inform market participants when a specific option or strategy is halted or released for trading on the Exchange; and an indicator which distinguishes electronic and non-electronically delivered orders.

⁵ OTTO provides a method for subscribers to send orders and receive status updates on those orders. OTTO accepts limit orders from system subscribers, and if there is a matching order, the orders will execute. Non-matching orders are added to the limit order book, a database of available limit orders, where they are matched in price-time priority.

⁶ ITTO is a data feed that provides quotation information for individual orders on the NOM book, last sale information for trades executed on NOM, and Order Imbalance Information as set forth in NOM Rules chapter VI, section 8. ITTO is the options equivalent of the NASDAQ TotalView/ITCH data feed that NASDAQ offers under NASDAQ Rule 7023 with respect to equities traded on NASDAQ. As with TotalView, members use ITTO to “build” their view of the NOM book by adding individual orders that appear on the feed, and subtracting individual orders that are executed. See chapter VI, section 1 at subsection (a)(3)(A).

⁷ BONOSM is a data feed that provides the NOM Best Bid and Offer (“NOM NBBO”) and last sale information for trades executed on NOM. The NOM NBBO and last sale information are identical to the information that NOM sends to the Options Price Regulatory Authority (“OPRA”) and which OPRA disseminates via the consolidated data feed for options. BONO is the options equivalent of the NASDAQ Basic data feed offered for equities under NASDAQ Rule 7047. See Chapter VI, Section 1 at subsection (a)(3)(B).

⁸ The DROP interface provides real time information regarding orders sent to NOM and executions that occurred on NOM. The DROP interface is not a trading interface and does not accept order messages.

OTTO Drop Ports⁹ and SQF Ports¹⁰ (collectively “NOM Ports”). ITTO and BONO Port fees will continue to be assessed to non-NOM Participants and NOM Participants.

Each NOM Participant is assigned a Market Participant Identifier or “mnemonic”¹¹ and in some cases, certain NOM Participants request multiple mnemonics for purposes of accounting for trading activity. These mnemonics identify users at a particular NOM Participant. The Exchange bills its port fees based on the number of mnemonics configured for each port. By way of example, if a NOM Participant, ABC, requested 2 ports from the Exchange and further requested that each port be configured to be accessed by 4 mnemonics or in some cases account numbers,¹² the NOM Participant would be billed for 8 ports at the rate of \$550 per port for that month. All billing is captured at the Participant level. NOM Participants may choose to have multiple mnemonics or in some case multiple account numbers for the convenience of conducting their business, however only one mnemonic and one account number is required to conduct business on NOM.

2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of section 6 of the Act,¹³ in general, and with section 6(b)(4) and 6(b)(5) of the Act,¹⁴ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that increasing the fees for the NOM Ports from \$550 to \$600 per port, per month, per

⁹ The OTTO DROP data feed provides real-time information regarding orders entered through OTTO and the execution of those orders. The OTTO DROP data feed is not a trading interface and does not accept order messages.

¹⁰ SQF ports are ports that receive inbound quotes at any time within that month. The SQF Port allows a NOM Participant to access information such as execution reports and other relevant data through a single feed. For example, this data would show which symbols are trading on NOM and the current state of an options symbol (*i.e.*, open for trading, trading, halted or closed). Auction notifications and execution reports are also available. NOM Market Makers rely on data available through the SQF Port to provide them the necessary information to perform market making activities.

¹¹ A mnemonic is a unique identifier consisting of a four character alpha code.

¹² Account numbers are assigned by the Exchange and associated with particular NOM Participants.

¹³ 15 U.S.C. 78f.

¹⁴ 15 U.S.C. 78f(b)(4) and (5).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

mnemonic is reasonable because it would allow the Exchange to keep pace with increasing technology costs. The increased Port Fees reflect the increased costs that the Exchange bears with respect to maintaining ports. The Port Fees are reasonable because they enable the Exchange to offset, in part, its connectivity costs associated with making such ports available, including costs based on gateway software and hardware enhancements and resources dedicated to gateway development, quality assurance, and support. The Exchange's Port Fees are in line with costs for ports at other options exchanges.¹⁵

The Exchange believes that increasing the fees for the NOM Port Fees from \$550 to \$600 per port, per month, per mnemonic is equitable and not unfairly discriminatory because the Exchange assesses the same fees for all ports to all NOM participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed fee change is reasonably designed to be fair and equitable, and therefore, will not unduly burden any particular group of market participants trading on the Exchange. The Exchange's proposal increases fees for all ports for all NOM Participants. The proposed fees are designed to ensure a fair and reasonable use of Exchange resources by allowing the Exchange to recoup for certain of its connectivity costs, while continuing to offer competitive rates to NOM Participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section

19(b)(3)(A)(ii) of the Act.¹⁶ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2014-122 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090. All submissions should refer to File Number SR-NASDAQ-2014-122. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments

received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-NASDAQ-2014-122 and should be submitted on or before January 14, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷

Kevin M. O'Neill,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

In the Matter of Treaty Energy Corporation; Order of Suspension of Trading

December 22, 2014.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of Treaty Energy Corporation ("Treaty Energy") because it has not filed a periodic report since its Form 10-Q for the period ending September 30, 2013. Treaty Energy is a Nevada corporation based in New Orleans, Louisiana, and its common stock is quoted on the OTC Link (previously "Pink Sheets") operated by OTC Markets Group, Inc. under the ticker symbol TECO.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above-listed company.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the securities of Treaty Energy Corporation is suspended for the period from 9:30 a.m. EST on December 22, 2014, through 11:59 p.m. EST on January 6, 2015.

By the Commission.

Jill M. Peterson,

Assistant Secretary.
