Total Annual Burden: 421 hours.

Total Annual Cost: \$88,505.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060–0944. The purpose of this revision is to obtain OMB approval of rules adopted in the Commission's Report and Order in IB Docket No. 12–299, FCC 14–48, adopted and released on August 22, 2014 (Report and Order). In the Report and Order, the Commission eliminated the effective competitive opportunities (ECO) test from sections 1.767(a)(8) and 1.768(g)(2) of the Commission's rules, 47 CFR 1.767(a)(8), 1.768(g)(2), which apply to cable landing license applications filed under the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, and section 1.767 of the Commission's rules, 47 CFR 1.767, and to foreign carrier affiliation notifications filed under section 1.768 of the Commission's rules, 47 CFR 1.768. The Commission is also making adjustments to the hour and cost burdens associated with other rules and requirements covered by this information collection.

The information will be used by the Commission staff in carrying out its duties under the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, Executive Order 10530, section 5(a), and the Communications Act of 1934, as amended. The information collections are necessary largely to determine whether and under what conditions the Commission should grant a license for proposed submarine cables landing in the United States, including applicants that are, or are affiliated with, foreign carriers in the destination market of the proposed submarine cable. Pursuant to Executive Order No. 10530, the Commission has been delegated the President's authority under the Cable Landing License Act to grant cable landing licenses, provided that the

Commission must obtain the approval of the State Department and seek advice from other government agencies as appropriate. If the collection is not conducted or is conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services and facilities, and the Commission will be unable to carry out its mandate under the Cable Landing License Act and Executive Order 10530. In addition, without the collection, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Trade Organization (WTO) Basic Telecom Agreement because certain of these information collection requirements are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns.
