Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through 03/31/2015. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before March 2, 2015.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This draft ICR calculates the burden and costs associated with information collection and reporting activities required by EPA's Effluent Limitations Guidelines and New Source Performance Standards for the Airport Deicing Category (40 CFR part 449.10 and 449.20). Respondents affected by this information collection request are covered by either EPA's Multi-Sector General Permit (MSGP), an equivalent state stormwater general permit, or an individual stormwater permit, and the NPDES permitting authorities receive, process, and review permit applications, and Notices of Intent (NOIs). Permitting authorities will also process and review certifications of non-use of urea-based deicers, and monitoring data as applicable.

Form Numbers: None.

Respondents/affected entities: The respondents affected by this information collection request are commercial

airports with at least 1,000 annual non-propeller aircraft departures.

Respondent's obligation to respond: Mandatory (40 CFR part 449.10 and 449.20).

Estimated number of respondents: 198 (total).

Frequency of response: Annual.

Total estimated burden: 198 hours (per year). Burden is defined as 5 CFR 1320.03(b).

Total estimated cost: \$6,534 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: The above estimates reflect what is currently approved by OMB and they will be updated in the final ICR submission to OMB. EPA expects that there will be little or no change in the burden. The basis for these estimates is provided in the supporting statement.

Dated: December 18, 2014.

Sheila E. Frace,

Acting Director, Office of Wastewater Management.
