

identified as “VA Medical Facility Locations V3.16 (Jan 15).”

As indicated in 38 CFR 17.101(m), when VA provides or furnishes prescription drugs not administered during treatment, “charges billed separately for such prescription drugs will consist of the amount that equals the total of the actual cost to VA for the drugs and the national average of VA administrative costs associated with dispensing the drugs for each prescription.” Section 17.101(m) includes the methodology for calculating the national average administrative cost for prescription drug charges not administered during treatment.

VA determines the amount of the national average administrative cost annually for the prior fiscal year (October through September) and then applies the charge at the start of the next calendar year. The national average administrative drug cost for calendar year 2015 is \$13.10. This change will be posted at <http://www.va.gov/CBO/payerinfo.asp> and identified as “CY 2015 Average Administrative Cost for Prescriptions.”

Consistent with § 17.101, the national average administrative cost, the updated data tables, and supplementary tables containing the changes described in this notice will be posted online, as indicated in this notice. This notice will be posted at <http://www.va.gov/CBO/apps/rates/index.asp> under the heading “Federal Registers, Rules, and Notices” and identified as, “V3.16 Federal Register Notice 01/01/15 (Outpatient and Professional), and National Administrative Cost (PDF).” The national average administrative cost, updated data tables, and the supplementary tables containing the changes described will be effective until changed by a subsequent **Federal Register** notice.
