44 CFR Part 67

[Docket ID FEMA-2014-0002]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.
ACTION: Final rule.

SUMMARY: Base (1-percent-annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection

at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) *Luis.Rodriguez3@fema.dhs.gov*.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

Endangered and Threatened Wildlife and Plants; Final Rule To Revise the Code of Federal Regulations for Species Under the Jurisdiction of the National Marine Fisheries Service; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correcting amendments.

SUMMARY: This document contains technical corrections for errors in a rule related to Endangered Species Act (ESA) protections for distinct population segments (DPSs) of the loggerhead sea

turtle (*Caretta caretta*). The “Final Rule to Revise the Code of Federal Regulations (CFR) for Species Under the Jurisdiction of the National Marine Fisheries Service” revised the CFR tables that list threatened and endangered species under the ESA. During that process, we incorrectly revised the descriptions of listed entities for the DPSs of the loggerhead sea turtle in a manner that differs from the original listing descriptions. In this document, we correct the descriptions of the DPSs in the CFR tables. We also add cross-references to recently designated critical habitat of the Northwest Atlantic Ocean DPS of the loggerhead sea turtle.

DATES: Effective on December 31, 2014.

SUPPLEMENTARY INFORMATION:

Background

On April 14, 2014, we, NMFS, issued the “Final Rule to Revise the Code of Federal Regulations for Species Under the Jurisdiction of the National Marine Fisheries Service” (79 FR 20802) to clarify and update the descriptions and associated protections for species that

are listed as threatened or endangered under the ESA. These revisions changed the format and content of the tables, which list and describe threatened and endangered species under NMFS’ jurisdiction at 50 CFR 223.102(e) and 50 CFR 224.101(h), respectively. For example, the table columns previously labeled, “where listed” are now labeled “description of listed entity,” and the columns labeled, “critical habitat” now cite the specific section in 50 CFR part 226, where the critical habitat description is found.

During this process, we incorrectly revised the descriptions of the listed entities for the DPSs of the loggerhead sea turtle. For example, we changed the description of listed entity from “Northwest Atlantic Ocean north of the equator, south of 60° N. Lat., and west of 40° W. Long.,” to “loggerhead sea turtles originating from the Northwest Atlantic Ocean west of 40° W. Long.” Therefore, this document amends the tables by correcting the descriptions of listed entities for the DPSs of the loggerhead sea turtle to reflect the original listing description published in the CFR. There was one mistake in the original listing (76 FR 58868, September 22, 2011). The Southwest Indian Ocean
