Endangered and Threatened Wildlife and Plants; Final Rule To Revise the Code of Federal Regulations for Species Under the Jurisdiction of the National Marine Fisheries Service; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correcting amendments.

SUMMARY: This document contains technical corrections for errors in a rule related to Endangered Species Act (ESA) protections for distinct population segments (DPSs) of the loggerhead sea

turtle (*Caretta caretta*). The “Final Rule to Revise the Code of Federal Regulations (CFR) for Species Under the Jurisdiction of the National Marine Fisheries Service” revised the CFR tables that list threatened and endangered species under the ESA. During that process, we incorrectly revised the descriptions of listed entities for the DPSs of the loggerhead sea turtle in a manner that differs from the original listing descriptions. In this document, we correct the descriptions of the DPSs in the CFR tables. We also add cross-references to recently designated critical habitat of the Northwest Atlantic Ocean DPS of the loggerhead sea turtle.

DATES: Effective on December 31, 2014.

SUPPLEMENTARY INFORMATION:

Background

On April 14, 2014, we, NMFS, issued the “Final Rule to Revise the Code of Federal Regulations for Species Under the Jurisdiction of the National Marine Fisheries Service” (79 FR 20802) to clarify and update the descriptions and associated protections for species that

are listed as threatened or endangered under the ESA. These revisions changed the format and content of the tables, which list and describe threatened and endangered species under NMFS’ jurisdiction at 50 CFR 223.102(e) and 50 CFR 224.101(h), respectively. For example, the table columns previously labeled, “where listed” are now labeled “description of listed entity,” and the columns labeled, “critical habitat” now cite the specific section in 50 CFR part 226, where the critical habitat description is found.

During this process, we incorrectly revised the descriptions of the listed entities for the DPSs of the loggerhead sea turtle. For example, we changed the description of listed entity from “Northwest Atlantic Ocean north of the equator, south of 60° N. Lat., and west of 40° W. Long.,” to “loggerhead sea turtles originating from the Northwest Atlantic Ocean west of 40° W. Long.” Therefore, this document amends the tables by correcting the descriptions of listed entities for the DPSs of the loggerhead sea turtle to reflect the original listing description published in the CFR. There was one mistake in the original listing (76 FR 58868, September 22, 2011). The Southwest Indian Ocean

DPS includes loggerhead sea turtles originating from the Southwest Indian Ocean north of the equator, south of 30° N. Lat., east of 20° E. Long., and west of 80° E. Long; the original listing incorrectly indicated, “west of 20° E. Long., and east of 80° E. Long.”

On July 10, 2014, NMFS and USFWS issued separate final rules to designate critical habitat for marine and terrestrial habitat, respectively, for the Northwest Atlantic Ocean DPS of the loggerhead sea turtle (79 FR 39855 and 79 FR 39755, respectively). At that time, we did not update the column labeled “critical habitat,” in the table in 50 CFR 223.102(e) to cross reference these new rules. Therefore, this document also corrects the table by citing the critical habitat designations in 50 CFR 226.223 and 50 CFR 17.95(c) in the column of the table in 50 CFR 223.102(e).

Classification

This correction does not alter or revise in any way the threatened or endangered species statuses or critical habitat designations for the DPSs of the

loggerhead sea turtle. Therefore, the Assistant Administrator for Fisheries, NOAA, finds good cause to waive requirement to provide prior public notice and comment.

Need for Correction

As published, the final regulations contain errors which may prove to be misleading and need to be clarified.

List of Subjects

50 CFR Part 223

Threatened marine and anadromous species.

50 CFR Part 224

Endangered marine and anadromous species.

Dated: December 22, 2014.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Accordingly, 50 CFR parts 223 and 224 are corrected by making the following correcting amendments:

PART 223—THREATENED MARINE AND ANADROMOUS SPECIES

■ 1. The authority citation for part 223 continues to read as follows:

Authority: 16 U.S.C. 1531–1543; subpart B, § 223.201–202 also issued under 16 U.S.C. 1361 *et seq.*; 16 U.S.C. 5503(d) for § 223.206(d)(9).

■ 2. In § 223.102(e), revise the table entries for “Sea turtle, loggerhead (Northwest Atlantic Ocean DPS)”, “Sea turtle, loggerhead (South Atlantic Ocean DPS)”, “Sea turtle, loggerhead (Southeast Indo-Pacific Ocean DPS)”, and “Sea turtle, loggerhead (Southwest Indian Ocean DPS)” to read as follows:

§ 223.102 Enumeration of threatened marine and anadromous species.

Endangered and Threatened Wildlife and Plants; Final Endangered Listing of Five Species of Sawfish Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: This action corrects the amendatory instruction to a final rule

published on December 12, 2014, which incorrectly instructed deletion of the U.S. Distinct Population Segment of smalltooth sawfish (*Pristis pectinata*) from the list of endangered species under the Endangered Species Act. This correction removes the incorrect language from the instruction.

DATES: This final rule correction is effective January 12, 2015.

ADDRESSES: Information regarding this final rule may be obtained by contacting NMFS, Endangered Species Division, 1315 East West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Dr. Dwayne Meadows, NMFS, Office of Protected Resources (301) 427–8403.

SUPPLEMENTARY INFORMATION:

Need for Correction

In a final rule NMFS published on December 12, 2014 (79 FR 73977) to list 5 species of sawfishes as endangered, we incorrectly included an instruction

in the regulatory text section to delete the entry for a prior listing for a different sawfish (the U.S. Distinct Population Segment of smalltooth sawfish (*Pristis pectinata*)) from the list of endangered species under the Endangered Species Act in 50 CFR 224.101(h). On page 74005, in column 3, amendatory instruction 2.A. is corrected to reads as follows:

“2. In § 224.101, paragraph (h), amend the table by:

A. Removing the “Sawfish, largetooth” entry.”

Dated: December 19, 2014.
