**SUPPLEMENTARY INFORMATION:**

**I. Background**

On July 31, 2014, MSHA published a proposed rule (79 FR 44494) to amend its civil penalty regulation to simplify the criteria, which will promote consistency, objectivity, and efficiency

in the proposed assessment of civil penalties and facilitate the resolution of enforcement issues. The proposal would place a greater emphasis on the more serious safety and health conditions and provide improved safety and health for miners. MSHA is also proposing alternatives that would address the scope and applicability of its civil penalty regulation.

In response to requests from the public, MSHA held public hearings on December 4, 2014, in Arlington, Virginia, and on December 9, 2014, in Denver, Colorado. The post-hearing comment period was scheduled to close on January 9, 2015.

**II. Public Hearings**

In response to requests from the public, MSHA will hold two additional public hearings on the proposed rule to provide the public an opportunity to present their views on this rulemaking. MSHA is holding the hearings on the following dates at the locations indicated:

Date	Location	Contact No.
Thursday, February 5, 2015 .....	Sheraton Birmingham Hotel, 2101 Richard Arrington Jr. Boulevard North, Birmingham, AL 35203.	205-324-5000
Thursday, February 12, 2015 .....	Embassy Suites Chicago—Downtown, 600 N. State Street, Chicago, IL 60654 .....	312-943-3800

The hearings will begin with an opening statement from MSHA, followed by oral presentations from members of the public. The public hearings will begin at 9:00 a.m. and end no later than 5:00 p.m., or earlier if the last person presenting testimony has spoken.

Persons and organizations wishing to speak are encouraged to notify MSHA in advance for scheduling purposes. Persons do not have to make a written request to speak; however, MSHA will give priority to persons who have notified us, in advance, of their intent to speak and will provide others an opportunity to present oral testimony if time allows. MSHA requests that parties making presentations at the hearings submit them no later than five days prior to the hearing. Testimony, presentations, and accompanying documentation will be included in the rulemaking record.

The hearings will be conducted in an informal manner. Formal rules of evidence and cross examination will not apply. The hearing panel may ask questions of speakers and speakers may ask questions of the hearing panel. Verbatim transcripts of the proceedings will be prepared and made a part of the

rulemaking record. Copies of the transcripts will be available to the public on <http://www.regulations.gov> and on MSHA's Web site at <http://www.msha.gov/tscripts.htm>.

Commenters are requested to be specific in their comments and submit detailed rationale and supporting documentation for any comment or suggested alternative as MSHA cannot sufficiently evaluate general comments. All comments must be received or postmarked by March 12, 2015.

**National Ambient Air Quality Standards for Ozone**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Announcement of public hearings.

**SUMMARY:** The Environmental Protection Agency (EPA) is announcing three public hearings for the proposed rule titled, "National Ambient Air Quality Standards for Ozone," that was published in the **Federal Register** on December 17, 2014. The hearings will be held in Washington, DC, Arlington, Texas, and Sacramento, California.

Based on its review of the air quality criteria for ozone (O<sub>3</sub>) and related photochemical oxidants and national ambient air quality standards (NAAQS) for O<sub>3</sub>, the EPA proposes to make revisions to the primary and secondary NAAQS for O<sub>3</sub> to provide requisite

protection of public health and welfare, respectively. The EPA is proposing to revise the primary standard to a level within the range of 0.065 to 0.070 parts per million (ppm), and to revise the secondary standard to within the range of 0.065 to 0.070 ppm, which air quality analyses indicate would provide air quality, in terms of 3-year average W126 index values, at or below a range of 13–17 ppm-hours. The EPA proposes to make corresponding revisions in data handling conventions for O<sub>3</sub> and conforming changes to the Air Quality Index; to revise regulations for the Prevention of Significant Deterioration program to add a transition provision for certain applications; and to propose schedules and convey information related to implementing any revised standards. The EPA is proposing changes to the O<sub>3</sub> monitoring seasons, the Federal Reference Method (FRM) for monitoring O<sub>3</sub> in the ambient air, Federal Equivalent Method procedures for testing, and the Photochemical Assessment Monitoring Stations network.

Along with proposing exceptional event schedules related to implementing any revised O<sub>3</sub> standards, the EPA is proposing to apply this same schedule approach to other future revised NAAQS and to remove obsolete regulatory language for expired exceptional event deadlines. The EPA is proposing to make minor changes to the procedures and time periods for evaluating potential FRMs and equivalent methods (including making the requirements for nitrogen dioxide consistent with the requirements for O<sub>3</sub>) and to remove an obsolete requirement for the annual submission of documentation by manufacturers of certain particulate matter monitors.

**DATES:** The public hearings will be held on January 29, 2015, in Washington, DC and Arlington, Texas, and on February 2, 2015, in Sacramento, California. Please refer to **SUPPLEMENTARY INFORMATION** for additional information on the public hearings.

**ADDRESSES:** The hearings will be held at the following locations:

1. Washington: EPA, WJC East Building, Room 1153, 1201 Constitution Avenue NW., Washington, DC. Identification is required. If your driver's license is issued by Alaska, American Samoa, Arizona, Kentucky, Louisiana, Maine, Massachusetts, Minnesota, Montana, New York, Oklahoma, or the state of Washington, you must present an additional form of identification to enter (see **SUPPLEMENTARY INFORMATION** for additional information on this location).

2. Sacramento: California Air Resources Board, Byron-Sher Auditorium, 1001 "I" Street, Sacramento, CA 95814. Commenters will be required to sign in and show valid picture identification to security staff upon entering.

3. Arlington: Arlington City Hall, Arlington Municipal Building, 101 W. Abram Street, Arlington, Texas 76010.

Those commitments consisted of revising the rules to ensure they are properly structured. The EPA has determined that these SIP revisions comply with the Federal Clean Air Act (the Act or CAA) and are consistent with the EPA's regulations and policies. This action is being taken under section 110(k) of the Act.
