SUPPLEMENTARY INFORMATION:

I. Background

The Housing Improvement Program (HIP) is a safety-net program that provides grants for the cost of services to repair, renovate, or replace existing housing and provide new housing for eligible members of federally recognized Indian tribes. The BIA administers the HIP under the regulations at 25 CFR part 256. The BIA distributes HIP funding based on a priority ranking derived from a point system to identify those individuals and families most in need of housing assistance. Funding is restricted to individuals and families that reside in the tribe’s service area. In Fical Year (FY) 2014, the HIP will serve approximately 140 recipients. These recipients are individuals and families with extremely low incomes.

II. Changes Proposed Rule Would Make

This proposed rule would update various provisions to align the HIP with other Federal program requirements, allow leveraging of housing funds to increase the number of families served and projects funded, and provide tribes with flexibility to better address lengthy waiting lists of tribal members awaiting housing assistance.

Categories of Assistance and Funding Limits

Currently, the HIP provides funding for four categories of housing needs:

- Category A—for repair of existing homes
- Category B—for renovation of existing homes
- Category C-1—for construction of replacement homes
- Category C-2—for new housing.

For each category, there is a monetary limit on the amount of funding a recipient may receive. The proposed rule would increase the limit for Category A funding from \$2,500 to \$7,500 and increase the limit for Category B funding from \$35,000 to \$60,000. The original limits are inadequate, given the average costs of repair and renovation. These limit increases will better reflect the actual costs of repair and renovation. The proposed rule would also add a new category of housing need for down payment assistance.

Ranking Factors

Currently, priority ranking is based on total numeric value (points) received under the ranking factors. The ranking factors are based on the applicant’s annual household income, whether there is an aged person living in the house, whether there is a disabled

person living in the house, and family size. There are a certain number of points available for each of the ranking

factors. Each applicant receives a certain number of points under each of the ranking factors. The proposed rule

would update the current ranking factors, as shown in the table below.

Ranking factor	Proposed rule change	Reason for change
Annual Household Income ...	Increase the income guidelines from 125 percent to 150 percent of the Federal Poverty Income Guidelines.	Those within 150 percent of the poverty level would be eligible, allowing the HIP to assist the very needy, in addition to the extremely needy.
Age	Increase the age requirement from 55 years old to 62 years old.	Align with the social security age for retirement.
Age (continued)	Add one point for every year above 62 years old, and set a maximum of 15 points (currently, there is no maximum).	To provide tribes with flexibility to better address lengthy waiting lists of tribal members awaiting housing assistance.
Disability	Reduce the number of applicants to one per household and decrease the maximum number of points available for this category to 10 points (currently, the maximum is 20 points).	To provide tribes with flexibility to better address lengthy waiting lists of tribal members awaiting housing assistance.
Family Size	To provide that one dependent gets three points, and each additional dependent gets 3 points. Increase points for 5 or more dependents to a maximum of 15 points (currently, the maximum for 6 or more dependents is 5).	To provide tribes with flexibility to better address lengthy waiting lists of tribal members awaiting housing assistance.

The proposed rule would add new ranking factors for homelessness, overcrowding, and dilapidated housing—each with a maximum of 10 points. These additional ranking factors are intended to better prioritize applicants who are homeless or in overcrowded or dilapidated housing conditions, by specifically examining whether these factors are present.

Payback Agreements

Under the HIP, the recipient may be required to enter a “payback agreement” which provides that the recipient will have to pay back the entire amount of funding received or a portion thereof if the recipient sells the home within a certain period of time. If the payback period expires, no payback is required and the money is considered a grant. Currently, for Category B, the payback period is 5 years. So, for example, a family that receives HIP funding for a home must repay the funding if the family sells the home within 5 years of receiving the funding. The proposed rule would lengthen the Category B payback period to 10 years. So, for example, a family that receives HIP funding for a home must repay the funding if the family sells the home within 10 years. Category C payback period remains the same, 20 years.

Four-Year Application Period

The proposed rule would also increase the time for consideration of an application to 4 years. Currently an application expires after one year, requiring an applicant who does not receive assistance under the HIP to reapply annually until assistance is received. The proposed rule would place each application in the

application pool for four years, so an applicant need only apply once every 4 years until assistance is received.

Land Ownership Requirements

HIP funding applicants must provide proof of land ownership before the grant award. The proposed rule would allow the applicant to provide proof of a homesite lease or proof that the applicant can obtain the land, even by lease, rather than requiring ownership. A certificate of title is required if and when the applicant becomes the owner of the home.

Square-Footage Limits

The proposed rule would also increase square-footage limits to allow Americans with Disabilities Act (ADA) requirements to be met, when applicable, and clarify when ADA requirements apply. The following table shows the increases in square footage the proposed rule would make.

Number of bedrooms in house	Current and proposed square footages (SF)	Total increase
2 bedrooms	900 sf to 1,000 sf	100 sf.
3 bedrooms	1,050 sf to 1,200 sf.	50 sf.
4 bedrooms	1,305 sf to 1,400 sf.	95 sf.

Other Changes

The proposed rule would also make other revisions to update the regulations to address past implementation issues and better reflect current housing needs. Together, these proposed rule changes would allow for HIP assistance to families with very low income (rather than just families with extremely low

income) and allow tribes to better address the large waiting lists they are experiencing. The changes would allow down-payment assistance for families that can obtain a mortgage loan from other Federal programs.

III. Tribal Consultations

IV. Procedural Matters

A. Regulatory Planning and Review (E.O. 12866)

Executive Order (E.O.) 12866 provides that the Office of Information and Regulatory Affairs (OIRA) at the Office of Management and Budget (OMB) will review all significant rules. OIRA has determined that this rule is not significant. E.O. 13563 reaffirms the principles of E.O. 12866 while calling

for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The E.O. directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

B. Regulatory Flexibility Act

The Department certifies that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). It does not change current funding requirements or regulate small entities.

C. Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. It will not result in the expenditure by State, local, or tribal governments, in the aggregate, or by the private sector of \$100 million or more in any one year. Nor will this rule have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises. Funding for the HIP comes from the Federal Government budget.

D. Unfunded Mandates Reform Act

This rule does not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

E. Takings (E.O. 12630)

Under the criteria in Executive Order 12630, this proposed rule does not affect individual property rights protected by the Fifth Amendment nor does it involve a compensable "taking." A takings implication assessment is not required.

F. Federalism (E.O. 13132)

Under the criteria in Executive Order 13132, this proposed rule has no substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. This rule updates the implementation requirements for the HIP, which is a Federal program.

G. Civil Justice Reform (E.O. 12988)

This proposed rule complies with the requirements of Executive Order 12988. Specifically, this rule has been reviewed to eliminate errors and ambiguity and written to minimize litigation; and is written in clear language and contains clear legal standards.

H. Consultation With Indian Tribes (E.O. 13175)

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments," Executive Order 13175 (59 FR 22951, November 6, 2000), and 512 DM 2, we have held several listening sessions with representatives of federally recognized tribes throughout the development of this proposed rule. In 2010, BIA staff implementing the HIP program opened a dialogue with Indian tribes because tribes indicated that the program as structured was not allowing them to make progress on their waiting lists of members with housing needs. The BIA has since held several listening sessions and has incorporated comments received during those listening sessions into this proposed rule. In addition, we are hosting tribal consultation sessions, as listed above, in Section III.

I. Paperwork Reduction Act

The Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, prohibits a Federal agency from conducting or sponsoring a collection of information that requires OMB approval, unless such approval has been obtained and the collection request displays a currently valid OMB control number. Nor is any person required to respond to an information collection request that has not complied with the PRA. In accordance with 44 U.S.C. 3507(d), BIA has submitted the information collection and recordkeeping requirements of this proposed rule to OMB for review and approval. The following describes the information collection requirements in each section of the proposed rule. The information collection requirements differ from those in the current rule in that

applicants need only submit a full application form every four years, but applicants must provide an update (in any format) annually if any information on the application changes. The application form associated with this information collection is also being updated. The revisions result in a net decrease of 4,000 hours because a full application is now required only once every four years, and applicants must only provide annual updates.

This information collection is currently authorized by OMB Control Number 1076-0084. This new information collection request is a placeholder to accommodate revisions to the application form. There are changes to the total annual responses, burden hours, and cost burden. If this new information collection is approved, BIA will request a transfer of the existing OMB Control Number 1076-0084 to this information collection.

You may also view the information collection request as submitted to OMB at www.reginfo.gov.

Comments on the information collection requirements should address:

(1) Whether the collection of information is necessary for the proper performance of the HIP, including the practical utility of the information to BIA; (2) the accuracy of BIA's burden estimates; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

J. National Environmental Policy Act

This proposed rule does not constitute a major Federal action significantly affecting the quality of the human environment.

K. Effects on the Energy Supply (E.O. 13211)

This proposed rule is not a significant energy action under the definition in Executive Order 13211. A Statement of Energy Effects is not required.

L. Clarity of This Regulation

We are required by Executive Orders 12866 and 12988 and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule we publish must:

- (a) Be logically organized;
- (b) Use the active voice to address readers directly;
- (c) Use clear language rather than jargon;
- (d) Be divided into short sections and sentences; and
- (e) Use lists and tables wherever possible.

If you believe that we have not met these requirements, send us comments by one of the methods listed in the "COMMENTS" section. To better help us revise the rule, your comments should be as specific as possible. For example, you should tell us which sections or paragraphs are unclearly written, which sections or sentences are too long, the sections where you believe lists or tables would be useful, etc.

M. Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(c) The servicing housing office will develop a list of the applications received and considered for the HIP for the current program year. The list will include, at a minimum, all of the following:

(1) The number of applications received and, of those, the number considered.

(2) The rank assigned to applicants in order of need, from highest to lowest, in accordance with tribal approval and knowledge of need, based on the total numeric value assigned using the factors in paragraph (b) of this section. (In case of a tie, the family with the lower income per household member will be listed first.)

Subpart C—Receiving Assistance

§ 256.15 When will I hear if I have received funding?

Your servicing housing office will inform you whether you will receive funds in writing within 45 days after it completes the list required by § 256.14(c).

(a) If funding is available, the office will send you complete information on how to obtain HIP services.

(b) If funding is not available, the office will send you instructions on how to update your application for funding for the next available program year.

§ 256.16 What if I don't receive funding?

If you don't receive funding, your servicing housing office will retain and consider your application for 4 years. During this 4-year period, you must ensure that the information on your application is still accurate and provide an annual written update if any information has changed.

§ 256.17 How long will I have to wait for work on my house?

How long it takes to do work on your house depends on:

- (a) Whether funds are available;
- (b) The type of work to be done;
- (c) The climate and seasonal conditions where your house is located;
- (d) The availability of a contractor;
- (e) Your position on the priority list; and
- (f) Other unforeseen factors.

§ 256.18 Who decides what work will be done?

The servicing housing office will determine what work is to be done on your house or whether your house will be replaced. The servicing housing office also provides the priority list annually to the Indian Health Service if the Indian Health Service is responsible for verifying availability or feasibility of water and wastewater facilities.

§ 256.19 How are work plans prepared?

(a) First, a trained and qualified representative of your servicing housing office will visit your house to identify what renovation and or replacement will be done under the HIP. The representative will ensure that flood, National Environmental Protection Act (NEPA) and earthquake requirements are met.

(b) Second, based on the list of renovations or replacement to be done, your servicing housing office will estimate the total cost of renovation to your house. Cost estimates will be based on locally available services and product costs, or other regional-based, industry-recognized cost data, such as that provided by the MEANs or Marshall Swift. If the house is located in Alaska, documented, reasonable,

substantiated freight costs, in accordance with Federal Property Management Regulations (FPMR 101–40), not to exceed 100 percent of the cost of materials, can be added to the cost of the project.

(c) Third, the servicing housing office will determine which HIP category the improvements to your house meet, based on the estimated cost of renovation or replacement. If the estimated cost to renovate your house is more than \$60,000, your servicing housing office will recommend your house for replacement or refer you to another source for housing. The other source does not have to be for a replacement house; it may be for government-subsidized rental units or other sources for standard housing.

(d) Fourth, your servicing housing office will develop a detailed, written report called a scope of work, that identifies what and how the renovation or construction work on your house will be accomplished. The scope of work is used to inform potential bidders of what work is to be done. When the work includes new construction, the scope of work will be supplemented with a set of construction plans and specifications. The construction plans must:

- (1) Meet the occupancy and square footage criteria in § 256.10 (d); and
- (2) Provide complete and detailed instructions to the builder.

§ 256.20 How will I find out what work is to be done?

The servicing housing office will notify you in writing what work is being scheduled under the HIP. You will be requested to approve the scheduled work by signing a copy of the notice and returning it to the servicing housing office. Work will start after you return the signed copy to the servicing housing office.

§ 256.21 Who does the work?

Your house will be renovated or replaced by either:

- (a) A licensed and bonded independent contractor or construction company; or
- (b) A tribe that operates the HIP under an Indian Self-Determination and Education Assistance Act agreement.

§ 256.22 How are construction contractors or companies selected and paid?

(a) A tribe that operates the HIP under an Indian Self-Determination and Education Assistance Act agreement may renovate or replace your house. In that case, the tribe will not select or pay another vendor for the repairs or construction.

(b) If a tribe that operates the HIP decides not to renovate or replace your house itself, your servicing housing office must follow approved procurement regulations, Federal procurement or other Bureau-approved tribal procurement policy.

(1) Your servicing housing office will:

(i) Develop a scope of work or statement of work that identifies the work to be performed;

(ii) Have the BIA or tribal procurement office use a bid specification to invite bids on the project from interested parties; and

(iii) Approve the winning bidder after:

(A) Technical review of the bids by and written recommendation from BIA or the tribal procurement office; and

(B) Determination that the bidder is qualified and capable of completing the project as advertised.

(2) [Reserved]

(c) Payments to the winning bidder are negotiated in the contract and based on specified delivery of services.

(1) Partial payments to independent contractors will not exceed 80 percent of the value of the completed and acceptable work.

(2) Recommendation for final payment will be made after final inspection and after all provisions of the contract have been met and all work has been completed.

§ 256.23 Do I have to move out while work is done?

(a) You will be notified by your servicing housing office that you must vacate your house only if:

(1) It is scheduled for major renovations requiring that all occupants vacate the house for safety reasons; or

(2) It is scheduled for replacement, which requires demolition of your current house.

(b) If you are required to vacate the premises during construction, you are responsible for:

(1) Locating other lodging;

(2) Paying all costs associated with vacating and living away from the house; and

(3) Removing all your belongings and furnishings before the scheduled beginning work date.

§ 256.24 How can I be sure that construction work meets minimum standards?

(a) At various stages of construction, a trained and qualified representative of your servicing housing office or a building inspector will review the work to ensure that it meets construction standards and building codes. Upon completion of each stage, further construction can begin only after the inspection occurs and approval is granted.

(b) Inspections of construction and renovation will occur, at a minimum, at the following stages:

(1) Upon completion of inspection footings and foundations;

(2) Upon completion of inspection rough-in, roughwiring, and plumbing; and

(3) At final completion.

§ 256.25 How will I find out that the work is done?

Your servicing housing office will advise you, in writing, that the work has been completed in compliance with the project contract. Also, you will have a final walk-through of the house with a representative of your servicing housing office. You will be requested to verify that you received the notice of completion of the work by signing a copy of the notice and returning it to your servicing housing office.

§ 256.26 Will I need flood insurance?

You will need flood insurance if your house is located in an area identified as having special flood hazards under the Flood Disaster Protection Act of 1973 (Pub. L. 93-234, 87 Stat. 977). Your servicing housing office will advise you.

§ 256.27 Is my Federal government-assisted house eligible for services?

No. The intention of this program is to assist the neediest of the needy, who have never received services from any other Federal entity.

§ 256.28 I have a mobile home; am I eligible for help?

Yes. If you meet the eligibility criteria in § 256.6 and funding is available, you can receive any of the HIP services identified in § 256.7. If you request Category B services and your mobile home has exterior walls less than three inches thick, you must be considered for Category C services.

§ 256.29 Can HIP resources be combined with other available resources?

Yes. HIP resources may be supplemented with other available resources (e.g., in-kind assistance; tribal or housing authority; and any other leveraging mechanism identified in

§ 256.3(d)) to increase the number of HIP recipients.

§ 256.30 Can I appeal actions taken under this part?

You may appeal action or inaction by a BIA official, in accordance with 25 CFR part 2.

Dated: December 21, 2014.
