Fortymile ACEC (685,000 Acres)

The BLM proposes modifying the boundary of the Fortymile ACEC that was presented in Alternative B in the Draft RMP/EIS to improve manageability by including additional small parcels between the calving/post-calving distribution and the Fortymile National Wild and Scenic River Corridor. The Fortymile ACEC is proposed to maintain effective caribou and Dall sheep habitat and mineral licks. The Fortymile caribou herd is an important subsistence resource in interior Alaska and calving and postcalving habitats are considered the most sensitive seasonal habitats.

Proposed Use Limitations: Closed to locatable mineral entry and mineral leasing, subject to valid existing rights. Limited OHV designation: Seasonal limitation on uses within 1 mile of mineral licks.

Consistent with 43 CFR 1610.7-2, the BLM is providing this notice and public comment period for these two proposed ACECs. (Supplemental information can be found in the original Notice of Availability (NOA) published in the **Federal Register** and on the Eastern Interior RMP Web site at www.blm.gov/ak/eirmp).

You may submit comments related to the new ACEC information on this notice until March 3, 2014 using any of the methods listed in the **DATES** section above.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
