

Applicants who are found to be ineligible as a result of prescreening by a contractor shall be notified by the respective contractor of the reason. The notification will include, when relevant, information about the available correction of records process and any alternatives available for identity verification, as well as other available channels for TSA Pre✓® expedited screening.

The TSA-conducted STA for applicants forwarded by the contractors will include checks against government watchlists and databases associated with security and immigration. TSA will make the final determination on eligibility for the TSA Pre✓® Application Program and notify the applicant of the decision. Applicants generally should expect to receive notification from TSA within 2–3 weeks of the submission of their completed applications.

Eligibility for the TSA Pre✓® Application Program is within the sole discretion of TSA, which will notify applicants who are denied eligibility by TSA in writing of the reasons for the denial. If initially deemed ineligible by TSA, applicants will have an opportunity to correct cases of misidentification or inaccurate criminal or immigration records. If advised during the application eligibility review process that the criminal record discloses a disqualifying criminal offense, the applicant must submit in writing within a specified period of his or her intent to correct any information he or she believes to be inaccurate. The applicant must provide a certified revised record, or the appropriate court must forward a certified true copy of the information, prior to TSA approving eligibility of the applicant for the TSA Pre✓® Application Program. With respect to citizenship and/or immigration records, within 60 days after being advised that the citizenship or immigration records indicate that the applicant is ineligible for the TSA Pre✓® Application Program, the applicant must notify TSA in writing of his or her intent to correct any information believed to be inaccurate. TSA will review any information submitted and make a final decision. If neither notification nor a corrected record is received by TSA, the agency may make a final determination to deny eligibility. Individuals who TSA determines are ineligible for the TSA Pre✓® Application Program will be screened at airport security checkpoints pursuant to standard screening protocols.

The TSA Pre✓® Application Program enhances aviation security by

permitting TSA to better focus its limited security resources on passengers who are more likely to pose a threat to civil aviation, while also facilitating and improving the commercial aviation travel experience for the public.

Travelers who choose not to enroll in this initiative are not subject to any limitations on their travel because of their choice; they will be processed through normal TSA screening before entering the sterile areas of airports. TSA also retains the authority to perform standard or other screening on a random basis on TSA Pre✓® Application Program participants and any other travelers authorized to receive expedited physical screening.

Average Annual Number of Respondents: An estimated 2,074,000 annualized enrollments over a five-year period. This estimate is based on current and projected enrollment with TSA's current program, as well as what TSA anticipates from program expansion to additional contractors performing enrollment and prescreening functions.

Estimated Annual Burden Hours: An estimated 2,742,049 annualized hours based on a five-year projection. TSA estimates 1.32 hours per applicant to complete the enrollment process, which includes providing biographic and biometric information to TSA (via an enrollment center or pre-enrollment options) or to a TSA Pre✓® Application Program contractor, and the burden for any records correction for the applicant, if applicable.

Estimated Annual Cost Burden: \$72,290,129 annualized cost burden based on a five-year projection. The TSA fee per respondent for those who apply for the program directly with TSA will remain \$85, which covers TSA's program costs and the FBI fee for the criminal history records check. The fee charged by contractors under the expansion of the program may differ, as it may include, but not be limited to, fees for other services that the companies provide separately to their customers.
