

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213.

Title of Collection: Bridges to Financial Security: A Multi-site Demonstration Project.

OMB Control Number: 3170-XXXX.

Type of Review: New collection (Request for a new OMB control number).

Affected Public: Individuals or households.

Estimated Number of Respondents: 15,120.

Abstract: The Consumer Financial Protection Bureau (CFPB), beginning in the winter of 2015, will launch a multi-site financial education demonstration project to provide one-on-one and group financial counseling/coaching services to individuals with disabilities transitioning into the workplace or already employed. The goal is twofold: (1) To improve the financial skills of approximately 15,000 individuals across the spectrum of disability to effectively navigate the financial marketplace, resulting in improved credit, reduced debt, and increased savings; and (2) to build the capacity of diverse multi-sector systems (non-disability and

disability) in up to 14 cities to unite around the common purpose of building financial security for individuals with disabilities. CFPB envisions the need to collect a combination of client personally identifiable information (PII), including direct-identifying PII (*i.e.*, basic contact and demographic information), performance metrics (outputs), as well as other relevant organization-level outcomes. Monthly qualitative reports and quantitative aggregated individual data will be collected from participating sites to document the design, growth and impact of up to 14 integrated diverse delivery models serving primarily low-income populations with disabilities.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Revised Notice of Intent and Scoping Meeting for Loxahatchee River Watershed Restoration Project (Formerly Called North Palm Beach County Part 1) Associated With Prior Notice of Intent To Develop a Draft Environmental Impact Statement Issued October 16th, 2002

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Revised notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps) Jacksonville District intends to prepare a National Environmental Policy Act (NEPA) assessment to restore and sustain the overall quantity, quality, timing, and distribution of freshwaters to the federally designated “National Wild and Scenic” Northwest Fork of the Loxahatchee River for current and future generations in Martin and Palm Beach Counties of Florida.

FOR FURTHER INFORMATION CONTACT: Mr. Andrew J. LoSchiavo, U.S. Army Corps of Engineers, Planning Division, Environmental Branch, P.O. Box 4970, Jacksonville, FL 32232-0019, by email Andrew.J.LoSchiavo@usace.army.mil, or by telephone at 904-232-2077.

SUPPLEMENTARY INFORMATION:

a. *Project Background and Authorization.* This notice is in regards to a re-scoping of a Comprehensive Everglades Restoration Plan (CERP) feasibility study originally entitled North Palm Beach County Part 1 and renamed the Loxahatchee River Watershed Restoration Project (LRWRP). The LRWRP contains several of the 68 restoration project components envisioned as part of the Comprehensive Everglades Restoration Plan authorized by the U.S. Congress in section 601 of the 2000 Water Resources Development Act. The LRWRP Project Delivery Team (PDT) identified a Tentatively Selected Plan (TSP) in August 2010. Prior to the approval of the TSP, a select component of the plan was repurposed to accomplish specific state water quality objectives and it was determined this component would not be available to achieve water quantity, timing, and distribution goals of the project. This resulted in the need to rescope project objectives and identify additional alternatives through the U.S. Army Corps of Engineers (Corps) SMART Planning process. This study will use the best available science to develop an array of project alternatives and select a recommended plan to achieve restoration within the Loxahatchee River Watershed and provide restoration flows to the Loxahatchee River Northwest Fork and estuary.

b. *Need or Purpose.* This NEPA Assessment will evaluate the potential benefits and impacts of restoring and sustaining the overall quantity, quality, timing, and distribution of freshwaters to the federally designated “National Wild and Scenic” Northwest Fork of the Loxahatchee River for current and future generations. This project also seeks to restore, sustain, and reconnect
