—Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

—Enhance the quality, utility, and clarity of the information to be collected; and/or

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* COPS Office Progress Report.

3. *The agency form number:* N/A.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

Under the Violent Crime and Control Act of 1994, the U.S. Department of Justice COPS Office would require the completion of the COPS Progress Report by recipients of COPS hiring and non-hiring grants. Grant recipients must complete this report in order to inform COPS of their activities with their awarded grant funding.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 1,200 grantees will be required to submit an active

progress report each quarter. The estimated range of burden for respondents is expected to be between 20 minutes to 25 minutes for each quarterly completion.

6. *An estimate of the total public burden (in hours) associated with the collection:*

The estimated public burden associated with this collection is 2000 hours. It is estimated that respondents will take up to 25 minutes each quarter to complete the quarterly progress report. The burden hours for collecting respondent data sum to 2000 hours (1200 respondents × .4167 hours × 4 times annually = 2000 hours).
