DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Rockfish Program: Permits and Reports.

OMB Control Number: 0648-0545.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 9.

Average Hours per Response:

Application for Rockfish Cooperative Fishing Quota (CQ), 2 hours;
Application for Inter-Cooperative Transfer of Rockfish CQ and Rockfish Volume & Value Report, 30 minutes;
Annual Rockfish Cooperative Report, 40 hours;
Vessel Check-in/Check-out & Termination Report and Rockfish Fee Payment, 10 minutes each.

Burden Hours: 498.

Needs and Uses: This request is for revision and extension of a currently approved information collection.

The Rockfish Program determines the access and allocation of the Central Gulf of Alaska (GOA) rockfish fisheries and associated halibut prohibited species catch (PSC), also known as the rights of access to the fishery. Cooperatives were established to receive exclusive harvest privileges for rockfish primary and secondary species. These resource allocations are used to assign the available resources in an economic way. In the case of halibut, a specific amount of halibut mortality is assigned to the cooperative, because halibut is often caught incidentally with rockfish.

The rockfish fisheries are conducted in Federal waters near Kodiak, Alaska, primarily by trawl vessels, and to a lesser extent by longline vessels. The Rockfish Program allocates harvest privileges to holders of License Limitation Program (LLP) licenses with a history of Central GOA rockfish landings associated with those licenses.

Revision: Two forms that are no longer applicable have been removed, and one has been added.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: January 13, 2015.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Highly Migratory Species Vessel Logbooks and Cost-Earnings Data Reports.

OMB Control Number: 0648-0371.

Form Number(s): NOAA 88-191.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 10,216.

Average Hours per Response: Cost/earnings summaries attached to logbook reports, 10 minutes; annual expenditure forms, 30 minutes; logbook catch reports, 12 minutes; negative logbook catch reports, 2 minutes.

Burden Hours: 36,189.

Needs and Uses: This request is for extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) is responsible for management of the nation's marine fisheries. In addition, NMFS must comply with the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*), which implements the International Commission for the Conservation of Atlantic Tunas (ICCAT) recommendations.

NMFS collects information via vessel logbooks to monitor the U.S. catch of Atlantic swordfish, sharks, billfish, and tunas in relation to the quotas, thereby ensuring that the United States complies with its domestic and international obligations. HMS logbooks are verified using observer data that is collected under OMB Control No. 0648-0593 (Observer Programs' Information That Can Be Gathered Only Through Questions). In addition to HMS fisheries, the HMS logbook is also used to report catches of dolphin and wahoo by commercial and charter/headboat fisheries. The HMS logbooks collect data on incidentally-caught species, including sea turtles, which is necessary to evaluate the fisheries in terms of bycatch and encounters with protected species. For both directed and incidentally caught species, the information supplied through vessel logbooks also provides the catch and effort data on a per-set or per-trip level of resolution.

These data are necessary to assess the status of highly migratory species, dolphin, and wahoo in each fishery. International stock assessments for tunas, swordfish, billfish, and some species of sharks are conducted and presented to the ICCAT periodically and provide, in part, the basis for ICCAT management recommendations which

are binding on member nations. Domestic stock assessments for most species of sharks and for dolphin and wahoo are often used as the basis of managing these species.

Supplementary information on fishing costs and earnings has been collected via this vessel logbook program. This economic information enables NMFS to assess the economic impacts of regulatory programs on small businesses and fishing communities, consistent with the National Environmental Policy Act (NEPA), Executive Order 12866, the Regulatory Flexibility Act, and other domestic laws.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Annually and per trip.

Respondent's Obligation: Mandatory.

Welded Carbon Steel Standard Pipe and Tube Products From Turkey: Notice of Correction to the Final Results of Antidumping Duty Administrative Review; 2012-2013

AGENCY: Enforcement and Compliance, International Trade Administration, Commerce.

FOR FURTHER INFORMATION CONTACT: Fred Baker or Robert James, AD/CVD Operations, Office VI, Enforcement and Compliance International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-2924 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION: On December 1, 2014, the Department of Commerce (the Department) published the final results of the 2012-2013 administrative review of the

antidumping duty order on welded carbon steel standard pipe and tube products from Turkey.¹ The period of review (POR) is May 1, 2012, through April 30, 2013. In the *Final Results*, the Department misspelled the name of a company on which the Department had initiated a review,² but for which record evidence does not exist under that spelling. Specifically, the Department initiated a review of Toscelik Profil ve Sac Endustisi A.S. However, information later placed on the record indicates that no company exists with this spelling (*i.e.*, spelled without an “r” in the final word of the name).³ While we intended to include this company in the list of companies that had made no shipments during the POR, we mistakenly listed the company as Toscelik Profil ve Sac Endustrisi A.S. (*i.e.*, with an “r” in the last full word of the name). In the list of companies that had no shipments, the Department intended to spell this company name as Toscelik Profil ve Sac Endustisi A.S. (*i.e.*, without an “r” in the last full word of the name).

This correction to the final results of administrative review is issued and published in accordance with sections 751(h) and 777(i) of the Tariff Act of 1930, as amended.

Dated: January 9, 2015.

Gary Taverman,

Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
