

previously investigated or reviewed Vietnamese and non-Vietnamese exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all Vietnamese exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash deposit rate will be the Vietnam-wide rate of \$2.39 per kg; and (4) for all non-Vietnamese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Vietnamese exporters that supplied that non-Vietnamese exporter. The deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these administrative reviews and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: January 7, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

[Docket Number 141021884-4884-01]

Proposed Withdrawal of Six Federal Information Processing Standards

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice; Request for comments.

SUMMARY: The National Institute of Standards and Technology (NIST) proposes to withdraw six (6) Federal Information Processing Standards (FIPS) from the FIPS series. The standards proposed for withdrawal are: FIPS 181, FIPS 185, FIPS 188, FIPS 190, FIPS 191 and FIPS 196.

These FIPS are obsolete because they have not been updated to reference current or revised voluntary industry standards. They also are not updated to reflect the changes and modifications that have been made by the organizations that develop and maintain the specifications and data representations. In addition, FIPS 188 adopts specifications and data standards that are developed and maintained by other Federal government agencies and by voluntary industry standards organizations.

Prior to the submission of this proposed withdrawal of FIPS to the Secretary of Commerce for review and approval, NIST invites comments from the public, users, the information technology industry, and Federal, State and local governments and government organizations concerning the withdrawal of the FIPS.

DATES: Comments on the proposed withdrawal of the FIPS must be received no later than 5 p.m. Eastern Time on March 2, 2015.

ADDRESSES: Written comments concerning the withdrawal of the FIPS should be sent to Information Technology Laboratory, ATTN: Proposed Withdrawal of 6 FIPS, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 8930, Gaithersburg, MD 20899-8930.

Electronic comments should be sent to: fipswithdrawal@nist.gov.

Information about the FIPS is available on the NIST Web pages <http://csrc.nist.gov/publications/PubsFIPS.html>.

Comments received in response to this notice will be published electronically at <http://csrc.nist.gov/publications/PubsFIPS.html> without change or redaction, so commenters should not include information they do not wish to be posted (e.g., personal or confidential business information).

FOR FURTHER INFORMATION CONTACT: Ms. Diane Honeycutt, telephone (301) 975-8443, National Institute of Standards and Technology, 100 Bureau Drive, MS 8930, Gaithersburg, MD 20899-8930 or via email at dhoneycutt@nist.gov.

SUPPLEMENTARY INFORMATION: The following Federal Information Processing Standards (FIPS) Publications are proposed for withdrawal from the FIPS series: FIPS 181, Automated Password Generator, FIPS 185, Escrowed Encryption Standard, FIPS 188, Standard Security Label for Information Transfer, FIPS 190, Guideline for the Use of Advanced Authentication Technology Alternatives, FIPS 191, Guideline for the Analysis of Local Area Network Security, and FIPS 196, Entity Authentication using Public Key Cryptography.

These FIPS are being proposed for withdrawal because they are obsolete or have not been updated to adopt current voluntary industry standards, federal specifications, or federal data standards. Federal agencies are responsible for using current voluntary industry

standards and current federal specifications and data standards in their acquisition and management activities.

The Information Technology Management Reform Act of 1996 (Division E of Pub. L. 104-106) and Executive Order 13011 emphasize agency management of information technology and Government-wide interagency support activities to improve productivity, security, interoperability, and coordination of Government resources. Under the National Technology Transfer and Advancement Act of 1995 (Pub. L. 104-113) Federal agencies and departments are directed to use technical standards that are developed or adopted by voluntary consensus standards bodies, using such technical standards as a means to carry out policy objectives or activities determined by the agencies and departments. Voluntary industry standards are the preferred source of standards to be used by the Federal government. The use of voluntary industry standards eliminates the cost to the government of developing its own standards, and furthers the policy of reliance upon the private sector to supply goods and services to the government.

FIPS 181, FIPS 190 and FIPS 196 are Federal standards on electronic authentication technologies. NIST proposes withdrawing these standards because they reference withdrawn cryptographic standards and newer guidance has been developed based on modern technologies.

FIPS 191 is being withdrawn because new technologies, techniques and threats to computer networks have made the standard obsolete.

FIPS 185 is being withdrawn because it references a cryptographic algorithm that is no longer approved for U.S. government use. FIPS 185, Escrowed Encryption Standard, specifies use of a symmetric-key encryption (and decryption) algorithm (SKIPJACK) and a Law Enforcement Access Field (LEAF) creation method which was intended to support lawfully authorized electronic surveillance. The SKIPJACK algorithm is no longer approved to protect sensitive government information, and NIST recommends the use of newer techniques for data security based on current algorithms.

NIST proposes the withdrawal of FIPS 188 because it is a Federal data standard that is now maintained, updated and kept current by Federal government agencies other than NIST. Executive Order 13556 "Controlled Unclassified Information" assigns the responsibility for this data standard to the National
