Overview of Current Information Collection

Collection Title: State and Local Government Information Report (EEO-4).

OMB—Number: 3046-0008.

Frequency of Report: Biennial.

Type of Respondent: State and local government jurisdictions with 100 or more employees.

Description of Affected Public: State and local governments excluding elementary and secondary public school districts.

Number of Responses: 12,458.

Reporting Hours: 89,188.

Cost Burden: \$21,600,000.

Number of Forms: 1.

Form Number: EEOC FORM 164.

Federal Cost: \$226,549.

ABSTRACT: Section 709(c) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have been or are being committed, to preserve such records and to produce reports as the Commission prescribes by regulation or order. Accordingly, the EEOC issued regulations at 29 CFR 1602.32-1602.37 prescribing the reporting requirements for State and local governments. State and local governments with 100 or more employees have been required to submit EEO-4 reports since 1974 (biennially in odd-numbered years since 1993). The individual reports are confidential.

EEO-4 data are used by the EEOC to investigate charges of discrimination against state and local governments and to provide information on the employment status of minorities and women. The data are shared with several other Federal agencies. Pursuant to section 709(d) of Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e-8(d), as amended, EEO-4 data are shared with State and Local Fair Employment Practices Agencies (FEPAs). Aggregated data are also used by researchers and the general public.

Burden Statement: The estimated number of respondents included in the EEO-4 survey is 9,000 state and local governments. (These 9,000 jurisdictions file about 12,458 reports based on the

2011 filing of the EEO-4.) Reports exceed jurisdictions due to the requirement for some to file separate reports by function. The changes discussed herein will increase respondent burden hours from 73,185 to 89,188 and EEOC costs from \$187,500 to \$226,549. The burden per report will be 7.16 hours.

Estimated burden hours were calculated by multiplying the number of reports expected to be filed annually (12,458 in 2011) by the estimated average time to complete and submit each report (7.16 hours).

These burden estimates are largely based on an assumption of paper reporting. However, the EEOC has made electronic filing much easier for employers required to file the EEO-4 Report. As a result, more jurisdictions are using this filing method. This development, along with the greater availability of human resource information software, is expected to have significantly reduced the actual burden of reporting, but empirical data in this area is lacking. Accordingly, efforts will be undertaken by the Commission to (1) develop more reliable estimates of reporting burdens given the significant increase in electronic filing and (2) to implement new approaches to make such reporting even less burdensome.

The other new burden is the one-time cost of employers changing the manner in which they collect and store the new race and ethnicity changes as well as changes to computer programs and systems. There will be no cost for employers whose current systems are already designed to handle the full multiple race and ethnicity classifications, and we estimate that about ten percent of employers currently have this ability. The estimated cost for employers that will have to re-survey the workforce to comply with the new race and ethnicity changes is \$21,600,000.

Dated: January 9, 2015.

For the Commission.

Jenny R. Yang,

Chair.
