Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276–1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: National Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program: Phase VI (OMB No. 0930–0307)—Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center of Mental Health Services is responsible for the national evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program (Children's Mental Health Initiative—CMHI) that will collect data on child mental health outcomes, family life, and service system development. Data will be collected on nine (9) service systems, and approximately 2,106 children and families and providers/administrators, using 26 instruments. Data collection will be decreased by 26,960 hours due to program changes resulting from the closing of 19 communities funded in FY 2009 that no longer require data collection and data collection for the Sector and Comparison Study.

Data collection for this evaluation will be conducted over the next 3-year period. Child and family outcomes of interest will be collected at intake and at 6-month follow-up. The individual families will participate in the study for the remaining 12 months. The outcome measures include the following: Child symptomatology and functioning, family functioning, satisfaction, and caregiver strain. The service system data will be collected every 6 months during the remaining 3 years of the evaluation. Service utilization and cost data will be tracked and submitted to the national evaluation every 6 months using two tools—the Flex Fund Tool and the Services and Costs Data Tool—to estimate average cost of treatment per child, distribution of costs, and allocation of costs across service categories. Service delivery and system variables of interest include the following: Maturity of system of care development in funded system of care communities, adherence to the system of care program model, and client service experience. Internet-based technology such as data entry and management tools will be used in this evaluation. The measures of the national evaluation address annual

Congressional reporting requirements of the program's authorizing legislation, and the national outcome measures for mental health programs as currently established by SAMHSA.

Changes:

The previously approved Phase VI evaluation is composed of six core study components: (1) The System of Care Assessment that documents the development of systems of care through site visits conducted every 12–18 months; (2) the Cross-Sectional Descriptive Study that collects descriptive data on all children and families who enter the CMHS-funded systems of care throughout the funding period; (3) the Child and Family Outcome Study that collects data longitudinally on child clinical and functional status, and family outcomes; (4) the Service Experience Study that collects data on family experience and satisfaction with services from a sample of children and families; (5) the Services and Costs Study that assesses the costs and cost-effectiveness of system of care services; and (6) the Sustainability Study, as well as and three special studies: the Alumni Networking Study, the Continuous Quality Improvement (CQI) Initiative Evaluation, and the Sector and Comparison Study. Earlier revisions eliminated one of the core studies, the Sustainability Study, and two of the special studies: the Alumni Networking Study and the Continuous Quality Improvement (CQI) Initiative Evaluation.

This revision requests the elimination of the Sector and Comparison Study. The eliminated studies have provided data to the program and are no longer needed. The Sector and Comparison Study was conducted with a subsample of the FY 2008-funded CA awardees, which are not included in this revision.

The average annual respondent burden is estimated below. The estimate reflects the average number of respondents in each respondent category, the average number of responses per respondent per year, the average length of time it will take to complete each response, and the total average annual burden for each category of respondent, and for all categories of respondents combined.

TABLE 1—ESTIMATE OF RESPONDENT BURDEN

BILLING CODE 4162–20–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA–2014–0032]

Fee Schedule for Processing Requests for Map Changes, for Flood Insurance Study Backup Data, and for National Flood Insurance Program Map and Insurance Products

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice contains the revised fee schedules for processing certain types of requests for changes to National Flood Insurance Program (NFIP) maps, for processing requests for Flood Insurance Study (FIS) technical and administrative support data, and for processing requests for particular NFIP map and insurance products. The changes in the fee schedules will allow FEMA to reduce further the expenses to the NFIP by recovering more fully the costs associated with processing conditional and final map change requests; retrieving, reproducing, and distributing technical and administrative support data related to FIS analyses and mapping; and producing, retrieving, and distributing particular NFIP map and insurance products.

DATES: The revised fee schedules are effective for all requests dated February 20, 2015, or later.

The revised fee schedule for map changes is effective for all requests dated February 20, 2015, or later. The revised fee schedule supersedes the current fee schedule, which was established on January 13, 2010.

The revised fee schedule for requests for FIS backup data also is effective for all requests dated February 20, 2015, or later. The revised fee schedule supersedes the current fee schedule, which was established on January 13, 2010.

The revised fee schedule for requests for particular NFIP map and insurance products, which are available through the FEMA Map Service Center (MSC), is effective for all requests, including but not limited to hardcopy, on-line, and telephone requests received on or after February 20, 2015. The revised fee schedule supersedes the current fee schedule, which was established on January 13, 2010.

FOR FURTHER INFORMATION CONTACT: John Magnotti, Hydraulic Engineer, Data and Dissemination Management Branch, Risk Analysis Division, 500 C Street SW., Washington, DC 20472; by telephone at (202) 646–3932 or by facsimile at (202) 646–2787 (not toll-free calls); or by email at John.Magnotti@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: This notice contains the revised fee schedules for processing certain types of requests for changes to National Flood Insurance Program (NFIP) maps, requests for Flood Insurance Study (FIS) technical and administrative support data, and requests for particular NFIP map and insurance products.

Evaluations Performed. To develop the revised fee schedule for conditional and final map change requests and letter of determination review requests, FEMA evaluated the actual costs of reviewing and processing requests for Conditional

Letters of Map Amendment (CLOMAs), Conditional Letters of Map Revision Based on Fill (CLOMR-Fs), Conditional Letters of Map Revision (CLOMRs), Letters of Map Revision Based on Fill (LOMR-Fs), Letters of Map Revision (LOMRs), and Letters of Determination Review (LODRs).

To develop the revised fee schedule requests for FIS technical and administrative support data, FEMA evaluated the actual costs of reviewing, reproducing, and distributing archived data in seven categories. These categories are discussed in more detail below.

To develop the revised fee schedule for requests for particular NFIP map and insurance products, FEMA decided to eliminate fees for digital product downloads and to discontinue its distribution of paper-based products, as well as products on digital media (*i.e.* compact disc). This decision was based on the re-architecture of the Map Service Center (MSC), which allows for the online downloading of larger datasets. The products covered by this notice are discussed in detail below.

Periodic Evaluations of Fees. A primary component of the fees is the prevailing private-sector rates charged to FEMA for labor and materials. Because these rates and the actual review and processing costs may vary from year to year, FEMA will evaluate the fees periodically and publish revised fee schedules, when needed, as notices in the **Federal Register**.

Fee Schedule for Requests for Conditional Letters of Map Amendment and Conditional and Final Letters of Map Revision Based on Fill

Based on a review of actual cost data for Fiscal Years 2010, 2011, 2012, and 2013, FEMA established the following review and processing fees, which are to be submitted with all requests:

LOMC Type	Proposed fee	Proposed online submission fee
Single-lot/single-structure CLOMA and CLOMR–F	\$600	\$500
Single-lot/single-structure LOMR–F	525	425
