

Title: Part 61, Tariff Review Plan (TRP).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 2,840 respondents; 8,554 responses.

Estimated Time per Response: 0.5 hours to 53 hours.

Frequency of Response: On occasion, annual, biennial, and one time reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 201, 202, 203, and 251(b)(5) of the Communications Act of 1934, as amended.

Total Annual Burden: 121,656 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact.

Nature and Extent of Confidentiality: Respondents are not being asked to submit confidential information to the Commission. If the Commission requests respondents to submit information which respondents believe are confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: On November 18, 2011, the Commission released the USF/ICC Transformation Order, FCC 11–61 and the Second Order on Reconsideration, FCC 12–47, released on April 25, 2012, required incumbent and competitive local exchange carriers to submit supporting documentation as part of their Tariff Review Plans (TRPs).

Certain local exchange carriers are required to submit a biennial or annual TRP in partial fulfillment of cost support material required by 47 CFR part 61. Sections 201, 202, and 203 of the Communications Act of 1934, as amended, require common carriers to establish joint and reasonable charges, practices, and regulations for their interstate telecommunications services provided. For services that are still covered under Section 203, tariff schedules containing charges, rates, rules, and regulations must be filed with the Commission. If the FCC takes no action within the notice period, then the filing becomes effective. The Commission is granted broad authority to require the submission of data showing the value of property used to provide the services, some of which are automatically required by its rules and some of which can be required through individual requests. All filings that become effective are considered legal

but only those filed pursuant to Section 204(a)(3) of the Act are deemed lawful.

For services that are detariffed, no tariffs are filed at the FCC and determination of reasonableness and any unreasonable discrimination is generally addressed through the complaint process. Incumbent local exchange carriers (ILECs) can make a voluntary filing at any time, but are required to update rates annually or biennially. See 47 CFR Section 69.3.

Among other reforms, the Commission developed the TRP to minimize reporting burdens on reporting ILECs. TRPs set forth the summary material ILECs file to support revisions to the rates in their interstate access service tariffs. For those services still requiring cost support, TRPs assist the Commission in determining whether ILEC access charges are just and reasonable as required under the Communications Act of 1934, as amended.

The Commission also minimized reporting burdens by developing incentive-based regulation (price caps), which simplifies the process of determining the reasonableness of rates and rate structures for ILECs subject to price caps. Supporting material requirements for price cap ILECs having 50,000 or fewer access lines do not have to file any supporting material unless requested to do so. Price cap carriers can elect to be subject to Title I versus Title II of the Act for certain forms of internet access in order to offer their internet service on a detariffed basis pursuant to private contracts. Rate-of-return ILECs can choose to charge from tariffed to detariffed for the same internet services, but are subject to Title II regulation. Through forbearance, the Commission has allowed those ILECs whose petition has been granted to choose mandatory detariffing of certain broadband and packet services.

ACTION: Notice and request for comment.

SUMMARY: The FDIC, as part of its continuing effort to reduce paperwork and respondent burden and as required by the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to comment on the survey collection instrument for its fourth National Survey of Unbanked and Underbanked Households (Household Survey), currently approved under OMB Control No. 3064–0167, scheduled to be conducted in partnership with the U.S. Census Bureau as a supplement to its June 2015 Current Population Survey (CPS). The survey seeks to estimate the proportions of unbanked and underbanked households in the U.S. and to identify the factors that inhibit the participation of these households in the mainstream banking system, and opportunities to expand the use of banking services
