Staff believes that there are no current start-up costs or other capital costs associated with the Fur Rules. Because the labeling of fur products has been an integral part of the manufacturing process for decades, manufacturers have in place the capital equipment necessary to comply with the Rules' labeling requirements.⁸ Industry sources indicate that much of the information required by the Fur Act and Rules would be included on the product label even absent the Rules. Similarly, invoicing, recordkeeping, and advertising disclosures are tasks performed in the ordinary course of business so that covered firms would incur no additional capital or other non-labor costs as a result of the Act or the Rules.

You can file a comment online or on paper. Write "Fur Rules: FTC File No. P074201" on your comment. Your comment—including your name and your state—will be placed on the public record of this proceeding, including, to the extent practicable, on the public Commission Web site, at <http://www.ftc.gov/os/publiccomments.shtm>. As a matter of discretion, the Commission tries to remove individuals' home contact information from comments before placing them on the Commission Web site.

⁷ Per industry sources, most fur labeling is done in the United States. This rate is reflective of an average domestic hourly wage for such tasks performed in the United States, which is derived from recent BLS statistics.

⁸ Although items previously exempt from the labeling requirements must now be labeled regarding their fur content, the Textile and Wool Rules, found at 16 CFR part 303 and 16 CFR part 300, respectively, already required many such items to have fiber content labels. Hence, manufacturers likely have in place the equipment needed to comply with the additional labeling requirements.

You are also solely responsible for making sure that your comment does not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, do not include any "[t]rade secret or any commercial or financial information which is . . . privileged or confidential," as discussed in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16 CFR 4.10(a)(2). In particular, do not include competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

If you want the Commission to give your comment confidential treatment, you must file it in paper form, with a request for confidential treatment, and you must follow the procedure explained in FTC Rule 4.9(c), 16 CFR 4.9(c). FINANCIAL STABILITY OVERSIGHT COUNCIL

Proposed Collections; Comment Requests

ACTION: Notice and request for comments.

SUMMARY: The Financial Stability Oversight Council (the "Council") invites members of the public and affected agencies to comment on continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). The Council is soliciting comments concerning its extension of a currently approved collection of information related to its authority to determine that certain nonbank financial companies shall be subject to supervision by the Board of Governors of the Federal Reserve System (Board of Governors) and enhanced prudential standards. Section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") provides the Council the authority to determine that a nonbank financial company shall be subject to Board of Governors supervision and enhanced prudential standards if the Council determines that material financial stress at the nonbank financial company, or the nature, scope, size, scale, concentration,

interconnectedness, or the mix of activities of the nonbank financial company, could pose a threat to financial stability. On April 11, 2012, the Council published in the **Federal Register** a final rule and interpretive guidance (77 FR 21637), 12 CFR part 1310, that describe the manner in which the Council intends to apply the statutory standards and considerations, and the processes and procedures the Council intends to follow, in making determinations under Section 113 of the Dodd-Frank Act. The Council has made final determinations regarding four nonbank financial companies. The Council uses information collected under 12 CFR 1310.20 to assess whether a nonbank financial company meets the standards for a Council determination under Section 113 of the Dodd-Frank Act. The collection of information under 12 CFR 1310.21 affords a nonbank financial company an opportunity to submit materials to contest the Council's consideration of the company for a proposed determination and to contest a proposed determination. The collection of information in 12 CFR 1310.22 provides a nonbank financial company an opportunity to contest the Council's waiver or modification of the notice or other procedural requirements contained in 12 CFR 1310.21 by requesting a hearing. The Council uses information collected under 12 CFR 1310.23 in a reevaluation of its determination regarding a nonbank financial company subject to a Council determination.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has taken final action in the following case:

Dong Xiao, Ph.D., University of Pittsburgh: Based on the report of an inquiry conducted by the University of Pittsburgh (UP), additional analysis conducted by ORI in its oversight review, and an admission by the Respondent that he had "intentionally fabricated data contained in a paper entitled 'Guggulsterone inhibits prostate cancer growth via inactivation of Akt regulated by ATP citrate signaling,' specifically Figure 6G," ORI found that Dr. Dong Xiao, former Research Assistant Professor, Department of Urology, UP, engaged in research misconduct in research supported by National Cancer Institute (NCI), National Institutes of Health (NIH), grant R01 CA157477.

ORI found that Respondent engaged in research misconduct by reporting falsified data in Figures 1, 4, 5, S2, and S3 in the following paper published online:

- Gao, Y., Zeng, Y., Tian, J., Kslam, M.S., Jiang, G., & Xiao, D., "Guggulsterone inhibits prostate cancer growth via inactivation of Akt regulated by ATP citrate signaling." *Oncotarget*, June 26, 2014 [Epub ahead of print], PMID: 24980815; hereafter referred to as the "Oncotarget paper."

Specifically, in the *Oncotarget* paper, Respondent:

- Falsely stated that 10 mice per group were used to obtain data for tumor volume (Figure 1A) and tumor weight (Figure 1B) when data for only four mice per group were available
- falsified the results for C-caspase 3 and phosphorylated Akt in the Western blots presented in Figure 1D to claim that treatment of tumor bearing mice with Z-Gug significantly enhanced C-caspase 3 activity and significantly inhibited Akt phosphorylation, while the original data showed no significant effect for either activity
- falsified Figure 4C by manipulating p-Akt bands to show that Z-Gug alone and in combination with PHTM significantly inhibited Akt phosphorylation in PC3 and LNCaP human prostate cancer cell lines; the
