

therefore, it contains built-in safeguards to limit access and visibility of this information. DMHRSi uses role-based security so a user sees only the information for which permission has been granted. It uses state-of-the-market 128-bit encryption security for our transactions. It is DIACAP certified having been subjected to and passed thorough security testing and evaluation by independent parties. It meets safeguards specified by the Privacy Act of 1974 in that it maintains a published Department of Defense (DoD) Privacy Impact Assessment and System of Record covering Active Duty Military, Reserve, National Guard, and government civilian employees, to include non-appropriated fund employees and foreign nationals, DoD contractors, and volunteers. DMHRSi is hosted in a secure facility managed by the Defense Information Systems Agency. A detailed Privacy Act Statement appears prior to system access. As an HR system, DMHRSi will collect and store Social Security Numbers (SSN). Although DMHRSi issues each individual a distinctive employee number, collection of SSNs is required for successful continuity of operations within DoD and interoperability with federal organizations external to DoD. As the DoD and other federal organizations migrate from the use of the SSN as a primary means of identification in accordance with executive guidelines, DMHRSi will reduce usage. Protection of personally identifiable information (PII) is required by federal statutes and policy and DoD guidelines and regulations. Future capabilities include an even greater reduction in access and full encryption of PII.

Dated: January 26, 2015.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2015-OS-0007]

Proposed Collection; Comment Request

AGENCY: Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics/Defense Standardization Program Office, DoD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the

Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by March 30, 2015.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Mail:* Federal Docket Management System Office, 4800 Mark Center Drive, East Tower, Suite 02G09, Alexandria, VA 22350-3100.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

Any associated form(s) for this collection may be located within this same electronic docket and downloaded for review/testing. Follow the instructions at <http://www.regulations.gov> for submitting comments. Please submit comments on any given form identified by docket number, form number, and title.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Standardization Program Office, Defense Logistics Agency, 8725 John J. Kingman Road, STOP 5100, ATTN: Mr. Tim Koczanski, Fort Belvoir, VA 22060, or call the Defense Standardization Program Office at (703) 767-6870.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Certification of Qualified

Products; DD Form 1718; OMB Control Number 0704-0487.

Needs and Uses: The information collection requirement is necessary to obtain, certify and record qualification of products or processes falling under the DoD Qualification Program. This form is included as an exhibit in an appeal or hearing case file as evidence of the reviewer's products or process qualifications in advance of, and independent of an acquisition.

Affected Public: Business or other for profit.

Annual Burden Hours: 638.

Number of Respondents: 1,276.

Responses per Respondent: 1.

Annual Responses: 1,276.

Average Burden per Response: 0.30 minutes.

Frequency: Biennially.

Respondents are individuals who supply products to the Department of Defense that are listed on Qualified Products Lists (QPLs) or Qualified Manufacturers List (QMLs). DD Form 1718, "Certification of Qualified Products" records and certifies, from the manufacturers, distributor, or reseller that the products still conforms to the specification. If the form is not included in the contract file, individuals procuring these items cannot be assured that the products conform to the specification and therefore are qualified products from qualified sources. The use of the DD Form 1718 is essential in maintaining the integrity of the qualification program.

Dated: January 26, 2015.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DoD-2014-OS-0129]

Notice of Availability (NOA) for Finding of No Significant Impact (FONSI) for the Environmental Assessment (EA) Addressing Implementation of the Real Property Master Plan at Defense Distribution Center, Susquehanna, Pennsylvania

AGENCY: Defense Logistics Agency (DLA), Department of Defense.

ACTION: Notice of Availability (NOA) for Finding of No Significant Impact (FONSI) for the Environmental Assessment (EA) Addressing Implementation of the Real Property

Master Plan at Defense Distribution Center, Susquehanna, Pennsylvania.

SUMMARY: On August 26, 2014, DLA published an NOA in the **Federal Register** (79 FR 50895) announcing the publication of the EA Addressing Implementation of the Real Property Master Plan (RPMP) at Defense Distribution Center, Susquehanna, Pennsylvania. The EA was available for a 30-day public comment period that ended September 25, 2014. The EA was prepared as required under the National Environmental Policy Act (NEPA) of 1969. In addition, the EA complied with DLA Regulation (DLAR) 1000.22. No comments were received during the public comment period. This FONSI documents the decision of DLA to implement the RPMP and its component plans at Defense Distribution Center, Susquehanna, Pennsylvania. DLA has determined that the Proposed Action is not a major Federal action significantly affecting the quality of the human environment within the context of NEPA and that no significant impacts on the human environment are associated with this decision.

FOR FURTHER INFORMATION CONTACT: Ira Silverberg at 703-767-0705 during normal business hours Monday through Friday, from 8:00 a.m. to 4:30 p.m. (EST) or by email: ira.silverberg@dla.mil.

SUPPLEMENTARY INFORMATION: DLA completed an EA to address the potential environmental consequences associated with the proposed implementation of the RPMP and its component plans at Defense Distribution Center, Susquehanna, Pennsylvania. This FONSI incorporates the EA by reference and summarizes the results of the analyses in the EA.

Purpose and Need for Action: The purpose of the Proposed Action is to implement the installation's RPMP and its component plans to establish a foundation providing direction for the future development of the facilities, infrastructure, transportation system, and environmental conditions at Defense Distribution Center, Susquehanna, Pennsylvania. The Proposed Action is needed to ensure that the installation is able to meet its current and future mission requirements while protecting its natural resources and ensuring the energy efficiency and sustainability of the installation.

Proposed Action and Alternatives: Under the Proposed Action, the DLA would implement the installation's RPMP and its component plans. The RPMP provides the direction for the future development of the installation

over the next 20 to 30 years and identifies a series of building, infrastructure, and transportation projects that would ensure that the installation is able to meet its current and future mission requirements in a sustainable and environmentally conscious manner.

Implementing the projects in the RPMP would replace undersized, outdated buildings and infrastructure with modern, energy-efficient, sustainable buildings and infrastructure. The proposed projects include the construction of 4,201,966 square feet of buildings and the demolition of 2,503,790 square feet of buildings, which would result in an increase in impervious surface, including more parking spaces. Additionally, the proposed projects include a transit and non-motorized transportation system consisting of two transit hubs; multiple bus stops; a variety of bus, pedestrian, and bicycle routes; and rail access to reduce truck conveyance.

Component plans of the RPMP include the Net-Zero Energy Plan (NZEP), Sustainability Plan (SP), Integrated Natural Resources Management Plan (INRMP), and Integrated Pest Management Plan (IPMP) for the installation. The NZEP balances the installation's future energy demand from buildings, industrial processes, fleet vehicles, and equipment with onsite and offsite renewable energy production. The SP provides a pathway for the installation to move toward compliance with relevant Federal mandates regarding sustainability. The INRMP is the installation's plan for managing its natural resources while ensuring the success of the military mission. The IPMP is the installation's plan for its pest management program.

Implementation of the NZEP, SP, INRMP, and IPMP would enable the installation to reduce energy and fossil fuel use, increase alternative fuel use, achieve a net-zero energy footprint, meet or exceed relevant Federal sustainability mandates, practice sound natural resources stewardship, comply with environmental policies and regulations, and reduce reliance on pesticides while reducing real property damage and maintenance costs.

Description of the No Action Alternative: Under the No Action Alternative, DLA would not implement the installation's RPMP or its component plans. In general, implementation of the No Action Alternative would require that DLA continue to use the existing outdated, undersized, and inefficient facilities and abandon the proposed infrastructure enhancements, sustainability

improvements, and natural resources projects of the component plans, which would hamper the ability of the installation to meet its current and future mission requirements. The No Action Alternative would not meet the purpose of and need for the Proposed Action.

Potential Environmental Impacts: No significant effects on environmental resources would be expected from the Proposed Action. Insignificant, adverse effects on recreation, geological resources, water resources, and transportation and infrastructure would be expected. Insignificant, beneficial effects on airspace management and safety, land use and recreation, noise, air quality, geological resources, water resources, biological resources, transportation and infrastructure, and hazardous materials and wastes also would be expected. Details of the environmental consequences are discussed in the EA, which is hereby incorporated by reference.

Determination: DLA has determined that implementation of the Proposed Action will not have a significant effect on the human environment. Human environment was interpreted comprehensively to include the natural and physical environment and the relationship of people with that environment. Specifically, no highly uncertain or controversial impacts, unique or unknown risks, or cumulatively significant effects were identified. Implementation of the Proposed Action will not violate any Federal, state, or local laws. Based on the results of the analyses performed during preparation of the EA, Mr. Marvin Wenberg, Acting Director, DLA Installation Support, concludes that implementation of the RPMP and its component plans at Defense Distribution Center, Susquehanna, Pennsylvania, does not constitute a major Federal action significantly affecting the quality of the human environment within the context of NEPA. Therefore, an environmental impact statement for the Proposed Action is not required.

Dated: January 23, 2015.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
