DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Modification of National Customs Automation Program (NCAP) Test Concerning Automated Commercial Environment (ACE) Document Image System (DIS) Relating to Animal and Plant Health Inspection Service (APHIS) Document Submissions

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces U.S. Customs and Border Protection's (CBP's) plan to modify part of the National Customs Automation Program (NCAP) test concerning document imaging, known as Phase III of the Document Image System (DIS) test. Phase III of the DIS test allows Automated Commercial Environment (ACE) participants to submit electronic images of a specific set of CBP and Partner Government Agency (PGA) forms and supporting information to CBP via a CBP-approved Electronic Data Interchange (EDI). This notice announces that ACE participating importers and brokers may now submit DIS test-supported Animal and Plant Health Inspection Service (APHIS) documents, in Portable Document Format (PDF) file format, via email, to docs@cbp.dhs.gov.

DATES: The modified DIS test will commence no earlier than February 17, 2015, and will continue until concluded by way of announcement in the **Federal Register**.

ADDRESSES: Comments concerning this notice and any aspect of the test may be submitted at any time during the test via email to Monica Crockett at monica.v.crockett@cbp.dhs.gov. In the subject line of your email, please indicate "*Comment on Document Image System (DIS)*".

FOR FURTHER INFORMATION CONTACT: For policy-related questions, contact Monica Crockett at monica.v.crockett@cbp.dhs.gov. For technical questions related to ABI transmissions, contact your assigned client representative. Any partner government agency (PGA) interested in participating in DIS should contact Elizabeth McQueen at elizabeth.mcqueen@cbp.dhs.gov. Interested parties without an assigned client representative should direct their questions to Steven Zaccaro at steven.j.zaccaro@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

This test notice, and the Customs related electronic functions it describes, are part of the National Customs Automation Program (NCAP). NCAP was established in Subtitle B of Title VI—Customs Modernization, in the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057, 2170, December 8, 1993) (Customs Modernization Act). See 19 U.S.C. 1411. Through NCAP, the initial focus of customs modernization was on trade compliance and the development of the Automated Commercial Environment (ACE), the planned successor to the legacy Customs Automated Commercial System (ACS). ACE is an automated and electronic system for commercial trade processing. ACE will streamline business processes, facilitate growth in trade, ensure cargo security, and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for CBP and all its communities of interest. The ability to meet these objectives depends upon successfully modernizing CBP's business functions and the information technology that supports those functions. CBP's modernization efforts are accomplished through phased releases of ACE component functionality, designed to introduce a new capability or to replace a specific legacy ACS function. Each release will begin with a test, and will end with mandatory compliance with the new ACE feature, thus retiring the legacy ACS function. Each release builds on previous releases, and sets the foundation for subsequent releases. For the convenience of the public, all **Federal Register** publications detailing ACE test developments in Entry, Summary, Accounts, and Revenue (ESAR) are listed chronologically at the end of this notice, in the section "*Development of ACE Prototypes.*"

One of the phased releases is for the Document Imaging System (DIS) feature, which allows participants to submit certain information electronically instead of submitting that information via a paper document. The DIS test allows ACE participants to submit electronic images of a specific set of CBP and Partner Government Agency (PGA) forms and supporting information to CBP. Specifically, importers and brokers are allowed to submit specified official CBP documents and specified PGA documents via a CBP-approved Electronic Data Interchange (EDI). The first phase of the DIS test, Phase I, enabled participating importers and brokers to transmit images of specified
