CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Proposed Information Collection; Comment Request

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. Sec. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed Opportunity Youth Evaluation Bundling study. The primary purpose of the study is to conduct an outcome evaluation on the common interventions of select AmeriCorps State and National grantees engaging opportunity youth as AmeriCorps members. The project is an effort to generate rigorous outcome evidence, leverage limited evaluation resources, and build the evaluation capacity of smaller AmeriCorps State and National grantees. Collection of this data is not required for obtaining grant funding support from CNCS.

Copies of the information collection request can be obtained by contacting the office listed in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by March 31, 2015.

Background

The primary purpose of the study is to conduct an outcome evaluation on the common interventions of select AmeriCorps State and National grantees engaging opportunity youth as AmeriCorps members. The project is an effort to generate rigorous outcome evidence, leverage limited evaluation resources, and build the evaluation capacity of smaller AmeriCorps State and National grantees. At the same time, it is an effort to test a new evaluation approach that has the potential to enhance the ability of any small program to gather and utilize outcome data. Collection of this data is not required for obtaining grant funding support from CNCS.

Current Action

This is a new information collection request. This study would administer a 15 minute, online or telephone survey to opportunity youth who are engaged as AmeriCorps members in select programs participating in the study. Additionally, a statistically matched comparison group of opportunity youth not engaged as AmeriCorps members would receive the survey. The survey consists of three sections of questions querying respondents about educational attainment, employment status, and civic engagement, intending to assess educational, employment and civic engagement outcomes achieved as a result of participating in the AmeriCorps program.
