*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 30, 2010 (75 FR 22809). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-

certified laboratories and participate in the NLCP certification maintenance program.

SUPPLEMENTARY INFORMATION: *The Hotel and Motel Fire Safety Act of 1990*, Public Law 101-391, requires FEMA to establish and maintain a list of hotels, motels, and similar places of public accommodation meeting minimum requirements for protection of life from fire; the list is known as the National Master List (NML). This law resulted from a series of deadly fires in hotels and motels, occurring in the late 1970's

and 1980's, with high loss of life. The legislative intent of this public law is to provide all travelers the assurance of fire-safety in accommodations identified on the National Master List. *The Hotel and Motel Fire Safety Act of 1990* further stipulates that Federal employees on official travel stay in properties approved by the authority having jurisdiction (AHJ) and listed on the current NML. For statutory reference see Title 15 U.S.C. §§ 2224-26.
