

that, by way of corporate succession, KM Cochin now owns, operates, and maintains pipeline facilities previously owned by Dome Pipeline Corporation ("Dome Pipeline"), at the U.S.-Canadian border in Detroit, Michigan (the "Detroit River Crossing"). The Detroit River Crossing is permitted under a 1972 Presidential Permit issued to Dome Pipeline for the transmission of petroleum, petroleum products, and other liquid hydrocarbons. KM Cochin requests a new Presidential Permit be issued to reflect its ownership of the Detroit River Crossing. KM Cochin has stated that it intends to operate and maintain the Detroit River Crossing in a manner that is substantially unchanged from the terms of the existing permit. KM Cochin's application is available at <http://www.state.gov/e/enr/applicant/applicants/index.htm>.

KM Cochin is a Delaware limited liability company with its principal office at 500 Dallas Street, Suite 1000, Houston, TX 77002. It is engaged in the interstate, intrastate and international transportation by pipeline of light liquid hydrocarbons. KM Cochin is an indirectly wholly owned subsidiary of KMP, a Delaware master limited partnership listed on the NYSE as "KMP", with its principal office at 500 Dallas Street, Suite 1000, Houston, TX 77002. The general partner of KMP is Kinder Morgan G.P., Inc., ("KMGP") a Delaware corporation, which is owned by Kinder Morgan, Inc., ("KMI", as listed on the NYSE), a Delaware corporation. KMP is owned by KMI through common and class B limited partner units, by KMG though its 1% general partner interest, and by public investors as limited partners holding common units purchased on the NYSE.

Under E.O. 13337 the Secretary of State is designated and empowered to receive all applications for Presidential Permits for the construction, connection, operation, or maintenance at the borders of the United States, of facilities for the exportation or importation of liquid petroleum, petroleum products, or other non-gaseous fuels to or from a foreign country. The Department of State is circulating this application to concerned federal agencies for comment. The Department of State has the responsibility to determine whether issuance of a new Presidential Permit reflecting the change in ownership or control of the Detroit River Crossing would serve the U.S. national interest.

Consistent with Public Notice 5092, (*Procedures for Issuance of a Presidential Permit Where There Has Been a Transfer of the Underlying Facility, Bridge or Border Crossing for*

Land Transportation, 70 FR 30990, issued on May 31, 2005), the Department typically does not conduct environmental analysis when deciding whether to issue a permit that reflects a change in ownership or control of an existing border facility, where that change in ownership or control is not accompanied by changes to the facilities or their use as authorized by the existing permit unless information is brought to the Department's attention in connection with the application process that the transfer potentially would have a significant impact on the quality of the human environment.

DATES: Interested parties are invited to submit comments within 30 days of the publication date of this notice on <http://www.regulations.gov> with regard to whether issuing a new Presidential Permit reflecting the corporate succession and authorizing KM Cochin to operate and maintain the Detroit River Crossing would be in the national interest.
