

by the State that are part of the RBNERR, minor portions of the RBAP owned by the State, and areas owned by the Key Marco Community Association that are subject to a conservation easement. There are no known private inholdings within the proposed boundaries of Unit P15P.

The proposed boundary of Unit P16P includes within the CBRS areas owned by the State that are part of the RBNERR; minor portions of the RBAP owned by the State; areas owned by the City of Naples that are subject to a conservation easement; the Shell Island Preserve, and other conservation areas in Tarpon Bay that are owned by Collier County; and a private inholding at the northern end of Henderson Creek that is completely surrounded by the RBNERR.

#### Proposed Additions to the CBRS

The draft maps for Units P15/P15P, P16/P16P, and FL-63P propose additions to the CBRS that are consistent with a directive in section 4 of Public Law 109-226 concerning recommendations for expansion of the CBRS. The proposed boundaries depicted on the draft maps for Florida are based upon the best data available to the Service at the time the draft maps were created. Our assessment indicated that any new areas proposed for addition to the CBRS were relatively undeveloped at the time the draft maps were created.

Section 2 of Public Law 106-514 codified the following guidelines for what the Secretary shall consider when making recommendations to the Congress regarding the addition of any area to the CBRS and in determining whether, at the time of inclusion of a System unit within the CBRS, a coastal barrier is undeveloped: (1) The density of development is less than one structure per 5 acres of land above mean high tide; and (2) there is existing infrastructure consisting of a road, with a reinforced road bed, to each lot or building site in the area; a wastewater disposal system sufficient to serve each lot or building site in the area; electric service for each lot or building site in the area; and a fresh water supply for each lot or building site in the area.

If, upon review of the draft maps for Florida, interested parties find that any areas proposed for addition to the CBRS currently exceed the development threshold established by section 2 of Public Law 106-514, they may submit supporting documentation of such development to the Service during this public comment period. For any areas proposed for addition to the CBRS on the draft maps, we will consider the density of development and level of

infrastructure on the ground as of the close of the comment period on the date listed in the **DATES** section.

#### Request for Comments

Section 4 of Public Law 109-226 requires the Secretary to provide an opportunity for the submission of public comments. We invite the public to review and comment on the draft maps dated November 10, 2014 for CBRS Units P15/P15P, P16/P16P, and FL-63P. The Service is specifically notifying the following stakeholders concerning the availability of the draft revised maps: The Chair and Ranking Member of the House of Representatives Committee on Natural Resources; the Chair and Ranking Member of the Senate Committee on Environment and Public Works; the members of the Senate and House of Representatives for the potentially affected areas; the Governor of Florida; other Federal, State, and local officials; and nongovernmental organizations.

Interested parties may submit written comments and accompanying data to the individual and location identified in the **ADDRESSES** section. The Service will also accept digital Geographic Information System (GIS) data files that are accompanied by written comments. Comments regarding specific units should reference the appropriate CBRS unit number and unit name. We must receive comments on or before the date listed in the **DATES** section.

Following the close of the comment period on the date listed in the **DATES** section, we will review all comments received on the draft maps and we will make adjustments to the draft maps, as appropriate, based on information received through public comments, updated aerial imagery, CBRA criteria, and objective mapping protocols. We will then prepare final recommended maps to be submitted to Congress. The final recommended maps will become effective only if they are enacted by Congress through legislation.

#### Availability of Draft Maps and Related Information

The draft maps, unit summaries (containing historical and more detailed information regarding proposed changes to the units), and digital boundary data can be accessed and downloaded from the Service's Web site: <http://www.fws.gov/CBRA>. The digital boundary data are available for reference purposes only. The digital boundaries are best viewed using the base imagery to which the boundaries were drawn; this information is printed in the title block of the draft maps. The Service is not responsible for any

misuse or misinterpretation of the digital boundary data.

Interested parties may also contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section to make arrangements to view the draft maps at the Service's Headquarters Office. Interested parties who are unable to access the draft maps via the Service's Web site or at the Service's Headquarters Office may contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section, and reasonable accommodations will be made to ensure the individual's ability to view the draft maps.

#### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Secretary of the United States Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands and the Outer-Continental Shelf (OCS). The Secretary's responsibility, under various laws, is to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected under those laws. ONRR performs the royalty management functions for the Secretary.

We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at [http://www.onrr.gov/Laws\\_R\\_D/PubLaws/default.htm](http://www.onrr.gov/Laws_R_D/PubLaws/default.htm).

Minerals produced from Federal and Indian leases vary greatly in the nature of occurrence, production, and processing methods. When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The regulations require the lessee to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals. The information we collect includes data necessary to ensure that lessees accurately value production and appropriately pay royalties.

Companies submit financial information monthly to ONRR on Forms ONRR–2014, Report of Sales and Royalty Remittance (OMB Control Number 1012–0004), and ONRR–4430, Solid Minerals Production and Royalty Report (OMB Control Number 1012–0010).

Every year, under the Chief Financial Officer (CFO), the Department's Office of Inspector General, or its agent (agent), audits the Department's financial statements. The Department's goal is to receive an unqualified opinion. Accounts receivable confirmations are a common practice in the audit business. Due to continuously increasing scrutiny on financial audits, third-party confirmation of the validity of ONRR's financial records is necessary.

As part of the CFO audit, the agent selects a sample of accounts receivable items and provides the sample items to ONRR. ONRR then identifies the company names and addresses for the sample items selected, and creates accounts receivable confirmation letters. In order to meet the CFO requirements, the letters must be on ONRR letterhead; and the Deputy Director for ONRR, or his or her designee, must sign the letters. The letter requests third-party confirmation responses by a specified date on whether or not ONRR's accounts receivable records agree with royalty payor records for the following items: customer identification; royalty/invoice number; payor-assigned document number; date of ONRR receipt; original amount the payor reported; and remaining balance due ONRR. The agent mails the letters to the payors,
