SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Kilauea Point Refuge. We started this process through a notice of intent in the **Federal Register** (74 FR 49399; September 28, 2009). More information about the Refuge's history, wildlife, and habitats is available in that notice.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In

addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify compatible wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

Public Availability of Documents

In addition to methods identified in **ADDRESSES**, you can review printed copies of the Draft CCP/EA at the following libraries.
