The Assistant Secretary for Land and Minerals Management approved the BLM’s petition/application. Therefore,

the petition/application constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1–3(e)).

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain mineral location and surface entry which could adversely affect ongoing management activities, and existing and planned capital improvements resulting in land use conflicts as well as irretrievable loss of natural resources.

No water is necessary to fulfill the purpose of the requested withdrawal.

Records relating to this withdrawal application may be examined by contacting the BLM at the above address and phone number.

For a period until May 18, 2015, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM State Director at the address indicated above.

Comments, including names and street addresses of respondents, will be available for public review at the address indicated above during regular business hours. Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested parties who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the BLM State Director at the address indicated above by May 18, 2015. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** and a local newspaper at least 30 days before the scheduled date of the meeting.

For a period until February 17, 2017, the public lands described in this notice will be segregated from location and entry under the United States mining laws, but not from leasing under the mineral or geothermal leasing laws, or disposal under the Materials Act of 1947, unless the application is denied or canceled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreements, or discretionary land use

authorizations of a temporary nature that will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of the BLM during the temporary segregation period.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

## SUPPLEMENTARY INFORMATION:

### I. Abstract

The Native American Graves Protection and Repatriation Act (NAGPRA), requires museums to compile certain information (summaries, inventories, and notices) regarding Native American cultural items in their possession or control and provide that information to lineal descendants, likely interested Indian tribes and Native Hawaiian organizations, and the National NAGPRA Program (acting on behalf of the Secretary of the Interior, housed in the National Park Service), to support consultation in the process of publishing notices that establish rights to repatriation. The summaries are general descriptions of the museum’s Native American collection, sent to all possibly interested tribes to disclose the collection, should the tribe desire to consult on items and present a claim. The inventories are item-by-item lists of the human remains and their funerary objects, upon which the museum consults with likely affiliated tribes to determine cultural affiliation, tribal land origination, or origination from aboriginal lands of Federal recognized tribes. Consultation and claims for items require information exchange between museums and tribes on the collections. Notices of Inventory Completion, published in the **Federal Register**, indicate the museum decisions of rights of lineal descendants and tribes to receive human remains and funerary objects; Notices of Intent to Repatriate, published in the **Federal Register**, indicate the agreements of museums and tribes to transfer control to tribes of funerary objects, sacred objects and objects of cultural patrimony. Museums identify NAGPRA protected items in the collection through examination of museum records and from consultation with tribes.

The National NAGPRA Program maintains the public databases of summary, inventory and notice information to support consultation. In the first 20 years of the administration of NAGPRA approximately 40,000 Native American human remains, of a possible collection of 180,000 individuals, have been listed in NAGPRA notices. Information collection of previous years is of lasting benefit, diminishing efforts in future years.
