SUPPLEMENTARY INFORMATION:

Title 1: A Guide to Reporting Highway Statistics.

OMB Control Number: 2125-0032.

Abstract: A Guide to Reporting Highway Statistics provides for the collection of information by describing policies and procedures for assembling highway related data from the existing files of State agencies. The data includes motor-vehicle registration and fees, motor-fuel use and taxation, driver licensing, and highway taxation and finance. Federal, State, and local governments use the data for transportation policy discussions and decisions. Motor-fuel data are used in attributing receipts to the Highway Trust Fund and subsequently in the apportionment formula that are used to distribute Federal-Aid Highway Funds. The data are published annually in the FHWA's Highway Statistics. Information from Highway Statistics is used in the joint FHWA and Federal Transit Administration required biennial report to Congress, Status of the Nation's Highways, Bridges, and Transit: Conditions and Performance, which contrasts present status to future investment needs.

Respondents: State and local governments of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Northern Marianas, and the Virgin Islands share this burden.

Estimated Average Burden per Response: The estimated average reporting burden per response for the annual collection and processing of the data is 754 hours for each of the States (including local governments), the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Northern Marianas, and the Virgin Islands.

Estimated Total Annual Burden: The estimated total annual burden for all respondents is 42,206 hours.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Dougherty, (202) 366-9234,

Department of Transportation, Federal Highway Administration, Office of Policy, Office of Highway Policy Information, Highway Funding and Motor Fuels Division (HPPI-10), 1200 New Jersey Avenue SE., Washington, DC 20590. Office hours are from 7 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

Title 2: Highway Performance Monitoring System (HPMS).

OMB Control Number: 2125-0028.

Abstract: The HPMS data that is collected is used for management decisions that affect transportation, including estimates of the Nation's future highway needs and assessments of highway system performance. The information is used by the FHWA to develop and implement legislation and by State and Federal transportation officials to adequately plan, design, and administer effective, safe, and efficient transportation systems. This data is essential to the FHWA and Congress in evaluating the effectiveness of the Federal-aid highway program. The HPMS also provides miles, lane-miles and travel components of the Federal-Aid Highway Fund apportionment formulae. The data that is required by the HPMS is continually reassessed and streamlined by the FHWA.

Respondents: State governments of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico.

Estimated Average Burden per Response: The estimated average burden per response for the annual collection and processing of the HPMS data is 1,440 hours for each State, the District of Columbia and the Commonwealth of Puerto Rico.

Estimated Total Annual Burden: The estimated total annual burden for all respondents is 74,880 hours.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Rozycki, (202) 366-5059, Department of Transportation, Federal Highway Administration, Highway Systems Performance (HPPI-20), Office of Highway Policy Information, Office of Policy & Governmental Affairs, 1200 New Jersey Avenue SE., Washington, DC 20590.
