[Project No. 14628-000]

Minneapolis Leased Housing Associates IV, Limited Partnership A-Mill Artists Loft Hydroelectric Project; Notice of Proposed Restricted Service List for a Programmatic Agreement For Managing Properties Included in or Eligible for Inclusion in the National Register of Historic Places

Rule 2010 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure¹ provides that, to eliminate unnecessary expense or improve administrative efficiency, the Secretary may establish a restricted service list for a particular phase or issue in a proceeding. The restricted service list should contain the names of persons on the service list who, in the judgment of the decisional authority establishing the list, are active participants with respect to the phase or

issue in the proceeding for which the list is established.

The Commission staff is consulting with the Minnesota State Historic Preservation Office (Minnesota SHPO) and the Advisory Council on Historic Preservation (Advisory Council) pursuant to the Advisory Council's regulations, 36 CFR part 800, implementing section 106 of the National Historic Preservation Act, as amended, (16 U.S.C. 470f), to prepare a Programmatic Agreement for managing properties included in, or eligible for inclusion in, the National Register of Historic Places that could be affected by issuance of an original license for the A-Mill Artists Loft Hydroelectric Project No. 14628.

The programmatic agreement, when executed by the Commission and the Minnesota SHPO, would satisfy the Commission's section 106 responsibilities for all individual undertakings carried out in accordance with the license until the license expires or is terminated (36 CFR 800.13[e]). The Commission's responsibilities pursuant to section 106 for the project would be fulfilled through the Programmatic Agreement, which the Commission staff proposes to draft in consultation with certain parties listed below. The executed Programmatic Agreement would be incorporated into any Order issuing a license.

Minneapolis Leased Housing Associates IV, Limited Partnership, as applicant for the A-Mill Artists Loft Hydroelectric Project, has expressed an interest in this proceeding and is invited to participate in consultations to develop the Programmatic Agreement. For purposes of commenting on the programmatic agreement, we propose to restrict the service list for Project No. 14628 as follows:

Laura Salveson or Representative, Director, Mill City Museum, 704

¹ 18 CFR 385.2010.

South Second Street, Minneapolis, MN 55401.

Any person on the official service list for the above-captioned proceeding may request inclusion on the restricted service list, or may request that a restricted service list not be established, by filing a motion to that effect within 15 days of this notice date. In a request for inclusion, please identify the reason(s) why there is an interest to be included. Also please identify any concerns about historic properties, including Traditional Cultural Properties. If historic properties are to be identified within the motion, please use a separate page, and label it NON-PUBLIC Information.

The Commission strongly encourages electronic filing. Please file motions using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-14628-000.

If no such motions are filed, the restricted service list will be effective at the end of the 15 day period. Otherwise, a further notice will be issued ruling on any motion or motions within the 15-day period.

SUPPLEMENTARY INFORMATION:

The Draft Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990-2013 is being made available for a thirty day public review and comment period. Annual U.S. emissions for the period of time from 1990 through 2013 are summarized and presented by source category and sector. The inventory contains estimates of carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFC), perfluorocarbons (PFC), sulfur hexafluoride (SF₆), and nitrogen trifluoride (NF₃) emissions. The inventory also includes estimates of carbon fluxes in U.S. agricultural and forest lands. The technical approach used in this report to estimate emissions and sinks for greenhouse gases is consistent with the methodologies recommended by the Intergovernmental Panel on Climate Change (IPCC), and reported in a format consistent with the United Nations Framework Convention on Climate Change (UNFCCC) reporting guidelines. The Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990-2013 is the latest in a series of annual U.S. submissions to the Secretariat of the UNFCCC. EPA requests recommendations for improving the overall quality of the inventory report to be finalized in April 2015, as well as subsequent inventory reports.

As in previous years and as encouraged by stakeholders in public comments received on the inventory, this inventory report incorporates data reported to the EPA's Greenhouse Gas Reporting Program (GHGRP). For certain sectors, the inventory uses values calculated by aggregating GHGRP data that are confidential business information (CBI). Once aggregated, these values no longer disclose facility-

level data. In order to determine that an aggregation protects underlying CBI, the EPA uses criteria established through a recent **Federal Register** notice (79 FR 32948, June 9, 2014) and posted on the GHGRP Web site, <http://www.epa.gov/ghgreporting/>. The EPA intends to continue to use GHGRP data, including aggregated CBI values, to develop the annual inventory. Some aggregations are calculated from data reported by many separate companies that the aggregations far exceed the criteria established by the EPA. For aggregations that do not far exceed the aggregation criteria, the EPA plans to notify facilities prior to publishing the aggregated data as noted in the FR notice.
