

the 25 casks back to their original, pre-earthquake positions and spacing. If approved, the proposed license amendment would allow the casks to remain in their current positions.

The NRC has assessed the potential environmental impacts associated with the proposed action of amending SNM-2507 TS 4.2.3, as well as the no-action alternative, and has documented the results in the final EA (ADAMS Accession No. ML15022A575). The NRC staff performed its environmental review in accordance with the requirements in 10 CFR part 51. In conducting the environmental review, the NRC considered information in the license amendment application; information in the responses to the NRC's requests for additional information (RAIs); communications with Dominion, the Virginia State Historic Preservation Office, the Virginia Department of Game and Inland Fisheries and the Virginia Department of Health; information from the NRC inspections; and the NRC's independent analysis.

Approval of Dominion's proposed license amendment would allow the casks to remain in place at their current post-earthquake positions and spacing, and no changes to Dominion's operation and maintenance of the NA ISFSI are associated with the proposed action. Because the proposed action would authorize Dominion to leave the casks in their current positions, rather than taking action to return the casks to their pre-earthquake positions, no significant radiological or non-radiological impacts are expected to result from approval of the license amendment request, and the proposed action would not significantly contribute to cumulative impacts at the NA site. There would be no disproportionately high and adverse impacts on minority and low-income populations. The Virginia State Historic Preservation Office concurred with the NRC's determination that the proposed action would not affect historic properties, and the U.S. Fish and Wildlife Service concurred with the NRC's determination that the proposed action would not affect listed species or critical habitats. Furthermore, the NRC determined that the proposed action is more favorable than the no-action alternative (denial of the license amendment request), which would require movement of the casks back to their pre-earthquake positions and spacing. Thus, the NRC concludes that the proposed action will not result in a significant effect on the quality of the human environment.

III. Finding of No Significant Impact

Based on its review of the proposed action, in accordance with the requirements in 10 CFR part 51, the NRC has concluded that the proposed action, amendment of NRC Special Nuclear Materials License No. SNM-2507 for the NA ISFSI located in Louisa County, Virginia, will not significantly affect the quality of the human environment. Therefore, the NRC has determined, pursuant to 10 CFR 51.31, that preparation of an environmental impact statement is not required for the proposed action and a FONSI is appropriate.

Dated at Rockville, Maryland, this 20th day of February, 2015.

For the Nuclear Regulatory Commission.

Marissa G. Bailey,

Director, Division of Fuel Cycle Safety, Safeguards, and Environmental Review, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

TENNESSEE VALLEY AUTHORITY

[Docket No. 50-391-OL; ASLBP No. 15-938-01-OL-BD01]

Establishment of Atomic Safety and Licensing Board

Pursuant to delegation by the Commission, *see* 37 FR 28,710 (Dec. 29, 1972), and the Commission's regulations, *see e.g.*, 10 CFR 2.104, 2.105, 2.300, 2.309, 2.313, 2.318, 2.321, notice is hereby given that an Atomic Safety and Licensing Board (Board) is being established to preside over the following proceeding:

Tennessee Valley Authority (Watts Bar Nuclear Plant, Unit 2)

This proceeding concerns motions, dated February 5, 2015 and filed February 6, 2015, by Southern Alliance for Clean Energy to (1) reopen the record; and (2) admit a new contention in the captioned matter regarding the updated application by Tennessee Valley Authority for a facility operating license for Watts Bar Nuclear Plant, Unit 2, to be located in Rhea County, Tennessee.

The Board is comprised of the following administrative judges:

Paul S. Ryerson, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Dr. Gary S. Arnold, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Dr. Richard E. Wardwell, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

All correspondence, documents, and other materials shall be filed in accordance with the NRC E-Filing rule. *See* 10 CFR. 2.302.

Rockville, Maryland.

Dated: February 23, 2015.

E. Roy Hawkens,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-1151; NRC-2015-0039]

Westinghouse Electric Company, LLC

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received an application from the Westinghouse Electric Company, LLC (Westinghouse or the licensee) to renew special nuclear material (SNM) license number SNM-1107 that authorizes Westinghouse to manufacture nuclear fuel assemblies at the Columbia Fuel Fabrication Facility (CFFF) in Hopkins, SC, for use in commercial nuclear power plants. The license renewal would allow Westinghouse to continue licensed activities for 40 years from the date that a renewed license is issued.

DATES: A request for a hearing or petition for leave to intervene must be filed by April 28, 2015.

ADDRESSES: Please refer to Docket ID NRC-2015-0039 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0039. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, the ADAMS accession numbers are provided in a table in the "Availability of Documents" section of this document.

• *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Christopher Ryder, Office of Nuclear Materials Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-287-0651; email: Christopher.Ryder@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC has received, by letter dated November 30, 2012, and revised/supplemented on July 31, 2014, and December 27, 2014, a request to renew SNM license number SNM-1107, authorizing Westinghouse to manufacture nuclear fuel assemblies at the CFFF in Hopkins, South Carolina, for use in commercial nuclear power plants. The manufacturing operations consist of receiving low-enriched (*i.e.*, less than or equal to 5.0 weight percent U-235) uranium in the form of uranium hexafluoride; converting the uranium hexafluoride into uranium dioxide powder using the ammonium diuranate process; pressing the uranium dioxide powder into fuel pellets; loading the fuel pellets into fuel rods; and bundling the fuel rods into fuel assemblies. The license renewal would allow Westinghouse to continue licensed activities for 40 years from the date that the license is issued. The current license was issued on September 30, 2007, for a period of 20 years. The expiration date of the current license is September 30, 2027. The licensee is authorized to use SNM under Part 70 of Title 10 of the *Code of Federal Regulations* (10 CFR).

An NRC administrative completeness review, dated December 30, 2014, found the application acceptable for a technical review. During the technical review, the NRC will be reviewing the

application in areas of the site description, organization of the CFFF, integrated safety analysis, radiation protection, nuclear criticality safety, chemical process safety, fire safety, emergency management, environmental protection, decommissioning, management measures, physical security, and nuclear material control. Prior to approving the request to renew SNM license number SNM-1107, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. The NRC's findings will be documented in a safety evaluation report. Regarding the proposed action, the NRC will also make findings consistent with the National Environmental Policy Act and 10 CFR part 51.

II. Opportunity To Request a Hearing and Petition To Intervene

Within 60 days after the date of publication of this notice, any person(s) whose interest may be affected by this action may file a request for a hearing and a petition to intervene with respect to issuance of the amendment to the subject facility operating license or combined license. Requests for a hearing and a petition to intervene shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested person(s) should consult a current copy of 10 CFR 2.309, which is available at the NRC's PDR, located in One White Flint North, Room O1-F21 (first floor), 11555 Rockville Pike, Rockville, Maryland 20852. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition to intervene is filed within 60 days, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition. The Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth, with particularity, the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted, with particular reference to the following general requirements: (1) The name, address, and telephone number of the requestor or petitioner; (2) the

nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the requestor's/petitioner's interest. The petition must also set forth the specific contentions which the requestor/petitioner seeks to have litigated at the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the requestor/petitioner shall provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion that support the contention and on which the requestor/petitioner intends to rely in proving the contention at the hearing. The requestor/petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the requestor/petitioner intends to rely to establish those facts or expert opinion. The petition must include sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the requestor/petitioner to relief. A requestor/petitioner who fails to satisfy these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that person's admitted contentions, including the opportunity to present evidence, consistent with NRC regulations, policies, and procedures. The Atomic Safety and Licensing Board will set the time and place for any prehearing conferences and evidentiary hearings, and the appropriate notices will be provided.

Petitions for leave to intervene must be filed no later than 60 days from the date of publication of this notice. Requests for hearing, petitions to intervene, and motions for leave to file new or amended contentions that are filed after the 60-day deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying

the three factors in 10 CFR 2.309(c)(1)(i)–(iii).

A State, local governmental body, Federally-recognized Indian tribe, or agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h)(1). The petition should state the nature and extent of the petitioner's interest in the proceeding. The petition should be submitted to the Commission by April 28, 2015. The petition must be filed in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document, and should meet the requirements for petitions for leave to intervene set forth in this section, except that under § 2.309(h)(2) a State, local governmental body, or Federally-recognized Indian tribe, or agency thereof does not need to address the standing requirements in 10 CFR 2.309(d) if the facility is located within its boundaries. A State, local governmental body, Federally-recognized Indian Tribe, or agency thereof may also have the opportunity to participate under 10 CFR 2.315(c).

If a hearing is granted, any person who does not wish, or is not qualified, to become a party to the proceeding may, in the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of position on the issues, but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission by April 28, 2015.

III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in

accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301-415-1677, to request (1) a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/getting-started.html>. System requirements for accessing the E-Submittal server are detailed in the NRC's "Guidance for Electronic Submission," which is available on the agency's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may attempt to use other software not listed on the Web site, but should note that the NRC's E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant must file the document using the NRC's online, Web-based submission form. In order to serve documents through the Electronic Information Exchange System, users will be required to install a Web browser plug-in from the NRC's Web site. Further information on the Web-based submission form, including the installation of the Web browser plug-in, is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>.

Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC's public Web site

at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the documents are submitted through the NRC's

E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date.

Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1-866-672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the

document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded

pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. However, a request to intervene will require including information on local residence in order to demonstrate a proximity assertion of interest in the proceeding. With respect

to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

IV. Availability of Documents

The documents identified in the following table are available in ADAMS to interested persons.

Document	Adams Accession No.	Description
Letter from G. Couture, Westinghouse, "Westinghouse License Renewal Application", November 30, 2013.	ML12338A041	Initial application to renew license SNM-1107 for a period of 40 years.
Letter to C. Snyder, Westinghouse, Deferring Review Of Application For A 40-Year Renewal Of Special Nuclear Materials License SNM-1107", February 7, 2013.	ML13024A083	Letter informing Westinghouse that NRC intends to defer the review of the renewal application so as to budget and plan for the review.
Letter from N. Parr, Westinghouse, "SNM-1107 License Renewal", July 31, 2014.	ML14213A105	Resubmitted application to renew license SNM-1107 for a period of 40 years.
Note from C. Ryder, U.S. Nuclear Regulatory Commission, "Summary of Meetings: Westinghouse 40-Year License Renewal: Acceptance Review", October 3, 2014.	ML14276A432	Summary of a meeting between NRC and Westinghouse to discuss supplementing the application to renew license SNM-1107.
Letter from R. Johnson, U.S. Nuclear Regulatory Commission, "Supplemental Information Needed To Begin A Technical Review Of The 40-Year License Renewal Application", October 24, 2014.	ML14295A208	Letter from NRC to Westinghouse discussing the information that is needed to begin a technical review of the application to renew license SNM-1107.
Memorandum from C. Ryder, U.S. Nuclear Regulatory Commission, "Westinghouse Electric Company: Meeting Summary—Nuclear Regulatory Commission Staff Expectations For Supplementing The License Renewal Application Dated July 31, 2014, Of The Columbia Fuel Fabrication Facility", January 12, 2015.	ML14356A353	Summary of meeting between NRC and Westinghouse discussing the letter Westinghouse dated October 24, 2014, regarding information to supplement license SNM-1107.
Letter from N. Parr, Westinghouse, "SNM-1107 License Renewal Supplement", December 17, 2014.	ML14352A111	Revised application to renew license SNM-1107.
Letter from C. Ryder, U.S. Nuclear Regulatory Commission, "Acceptance For Technical Review: "SNM-1107 License Renewal Supplement," Dated December 17, 2014 (Technical Assignment Control Number L33317)", December 30, 2014.	ML14364A017	Letter from NRC to Westinghouse informing Westinghouse that the revised application dated December 17, 2014, has sufficient information for the NRC staff to perform a technical review.

Dated at Rockville, Maryland, this 18th day of February 2015.

For the Nuclear Regulatory Commission.

Robert K. Johnson,

Chief, Fuel Manufacturing Branch, Division of Fuel Cycle Safety, Safeguards, and Environmental Review, Office of Nuclear Materials Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2015-0001]

Sunshine Act Meeting Notice

DATE: Week of February 23, 2015.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public.

Week of February 23, 2015

Thursday, February 26, 2015

12:55 p.m. Affirmation Session (Public Meeting) (Tentative)
 Petitions to Suspend Reactor Licensing Decisions and Reactor License Renewal Decisions Pending Issuance of "Waste Confidence" Safety Findings (Filed on Multiple Dockets). (Tentative)

This meeting will be webcast live at the Web address—<http://www.nrc.gov/>.

The schedule for Commission meetings is subject to change on short notice. For more information or to verify the status of meetings, contact Glenn Ellmers at 301-415-0442 or via email at Glenn.Ellmers@nrc.gov.

Additional Information

By a vote of 4-0 on February 23 and 24, 2015, the Commission determined

pursuant to U.S.C. 552b(e) and '9.107(a) of the Commission's rules that the above referenced Affirmation Session be held with less than one week notice to the public. The meeting is scheduled on February 26, 2015.

The NRC Commission Meeting Schedule can be found on the Internet at: <http://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g. braille, large print), please notify Kimberly Meyer, NRC Disability Program Manager, at 301-287-0727, by videophone at 240-428-3217, or by email at Kimberly.Meyer-Chambers@
