

line 8b that would require large multiemployer plans (500 or more total participants as of the valuation date) to provide in an attachment a projection of expected benefit payments to be paid for the entire plan (not including expected expenses) for each of the next ten plan years starting with the plan year to which the filing relates. For this purpose plans would assume no additional accruals, experience (*e.g.*, termination, mortality, and retirement) is consistent with the plan's valuation assumptions, and no new entrants would be covered by the plan.

PBGC is modifying the Schedule SB instructions to simplify the alternative age/service scatters that cash balance plans with 1,000 or more active participants have an option to report on an attachment to line 26.

On December 16, 2014, the Multiemployer Pension Reform Act of 2014, Division O of the Consolidated and Further Continuing Appropriations Act, 2015, Public Law 113–235 (MPRA) was signed into law. As a result of the statutory changes, PBGC is modifying the Schedule MB and instructions to extend the reporting requirements in line 4 for multiemployer plans in critical status to plans in critical and declining status, and to require that additional information be reported by plans that have been partitioned or had benefits suspended. Specifically, plan administrators of multiemployer plans in critical and declining status would be required to provide the following information:

- Enter in line 4b a new code for critical and declining status and attach a copy of the actuarial certification of such status and also attach an illustration showing the details (including year-by-year cash flow projections demonstrating the solvency of the plan over the relevant period) providing support for the actuarial certification.

- Report in line 4d whether any plan benefits have been reduced and if so, enter the reduction in liability resulting from the reduction in benefits in line 4e. For a plan that has been partitioned or had benefits suspended, a full description of the transaction must be attached.

- Provide information in line 4f about the plan year in which the plan is projected to emerge from critical and declining status or, if the rehabilitation plan is based on forestalling possible insolvency, the plan year in which insolvency is expected.

The collection of information has been approved by OMB under control number 1212–0057 through June 30, 2017. PBGC is requesting that OMB

extend its approval for another three years, with modifications. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive approximately 24,000 Form 5500 and Form 5500–SF filings per year under this collection of information. PBGC further estimates that the total annual burden of this collection of information will be 1,200 hours and \$1,407,000.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Issued in Washington, DC, this 25th day of February 2015.

General Counsel, Pension Benefit Guaranty Corporation.
