Title: Low Income Home Energy Assistance Program (LIHEAP) Carryover and Re-allotment Report.

OMB No.: 0970-0106.

Description: The LIHEAP statute and regulations require LIHEAP grantees to report certain information to HHS concerning funds forwarded and funds subject to reallocation. The 1994 reauthorization of the LIHEAP statute, the Human Service Amendments of 1994 (Pub. L. 103-252), requires that the carryover and reallocation report for one fiscal year be submitted to HHS by the grantee before the Allotment for the next fiscal year may be awarded.

We are requesting no changes in the collection of data with the Carryover and Reallotment Report For FY 20__, a form for the collection of data, and the Simplified Instructions for Timely Obligations of FY 20__ LIHEAP Funds and Reporting Funds For Carryover and Reallotment. The form clarifies the information being requested and ensures the submission of all the required information. The form facilitates our response to numerous queries each year concerning the amounts of obligated funds. Use of the form is voluntary. Grantees have the option to use another format.

Respondents: State, Local or Tribal Government.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours

Title: The Evaluation and System Design for the Next Generation of HPOG Career Pathways Programs (HPOG Next Gen).

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is proposing information collection activities as part of the Evaluation and System Design for the Next Generation of Health Profession Opportunity Grants (HPOG) Career Pathways Programs (HPOG Next Gen). The goals of the HPOG Next Gen evaluation are to establish a data system for program management and evaluation and to design a study to assess the effectiveness of the new HPOG programs. The study also is intended to evaluate variation in participant impact that may be attributable to different HPOG program components. The impact study design will include a classic experiment in which eligible applicants for the non-Tribal HPOG program services will be randomly assigned to a treatment group offered participation in

HPOG and a control group not offered the opportunity to enroll in HPOG.

Both goals require collecting information from HPOG grantees on a regular basis. The information collection proposed is an internet-based collection of information from HPOG grantees on: (1) Baseline characteristics of both treatment group and control group sample members; (2) treatment group members' program participation and patterns, and participant outputs and outcomes; and (3) program designs and operating characteristics.

The universe of information collection proposed for HPOG Next Gen includes:

1. A performance management system will collect information from all grantees on their programs and participants on a semi-annual basis over the grant period of performance.

2. A brief baseline survey of eligible applicants to non-Tribal HPOG programs.

Respondents: Participant level data to be collected by program staff in the approximately 40 grantee organizations (higher education institutions, workforce investment boards, private training institutions, nonprofit organizations, and tribal entities); individuals enrolled in HPOG interventions; and control group members.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
HPOG program performance report	120	40	2	31.25	2,500
A brief baseline survey of eligible applicants to non-Tribal HPOG programs	31,500	10,500	1	.5	5,250

Estimated Total Annual Burden Hours: 7,750

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above.
