Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Type of Review: Renewal.

Affected Public: Individuals and Households, Businesses and

Organizations, State, Local or Tribal Government.

Respondents: 10,000.

Annual responses: 10,000.

Frequency of Response: Once per request.

Average minutes per response: 10.

Burden hours: 1,667.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget Control Number.

Dated: March 3, 2015.

Associate Director of Policy.

[Docket No. DARS-2015-0012]

Acquisition of Items for Which Federal Prison Industries Has a Significant Market Share

ACTION: Notice.

SUMMARY: DoD is publishing the updated annual list of product categories for which the Federal Prison Industries' share of the DoD market is greater than five percent.

DATES: *Effective Date:* March 29, 2015.

FOR FURTHER INFORMATION CONTACT: Sheila Harris, telephone 703-614-1333.

SUPPLEMENTARY INFORMATION:

I. Background: On November 19, 2009, a final rule was published at 74 FR 59914 which amended the Defense Federal Acquisition Regulation Supplement (DFARS) subpart 208.6, to implement section 827 of the National Defense Authorization Act (NDAA) for Fiscal Year 2008, Public Law 110-181. Section 827 changed DoD competition requirements for purchases from Federal Prison Industries, Inc. (FPI) by requiring DoD to publish an annual list of product categories for which FPI's share of the DoD market was greater than five percent, based on the most recent fiscal year data available. Product categories on the current list, and the products within each identified product category, must be procured using competitive or fair opportunity procedures in accordance with DFARS 208.602-70.

The Director, Defense Procurement and Acquisition Policy (DPAP) issued a memorandum dated February 27, 2015, that provides the current list of product

categories for which FPI's share of the DOD market is greater than five percent based on Fiscal Year 2014 data from the Federal Procurement Data System. The product categories to be competed effective March 29, 2015, are the following:

- 3990 (Miscellaneous Materials Handling Equipment)
- 5210 (Measuring Tools, Craftsmen's)
- 7110 (Office Furniture)
- 7125 (Cabinets, Lockers, Bins and Shelving)
- 7230 (Draperies, Awnings, and Shades)
- 8405 (Outerwear, Men's)
- 8410 (Outerwear, Women's)
- 8415 (Clothing, Special Purpose)

The DPAP memorandum with the current list of product categories for which FPI has a significant market share is posted at: <http://www.acq.osd.mil/dpap/policy/policyvault/USA001110-15-DPAP.pdf>.

The statute as implemented also requires DoD to—

(1) Include FPI in the solicitation process for these items; a timely offer from FPI must be considered; and award procedures must be followed in accordance with existing policy at Federal Acquisition Regulation (FAR) 8.602(a)(4)(ii) through (v);

(2) Continue to be make acquisitions, in accordance with FAR Subpart 8.6, for items from product categories for which FPI does not have a significant market share. FAR 8.602 requires agencies to conduct market research and make a written comparability determination, at the discretion of the contracting officer. Competitive (or fair opportunity) procedures are appropriate if the FPI product is not comparable in terms of price, quality, or time of delivery; and

(3) Section 827 allows modification of the published list if DoD subsequently determines that new data requires adding or omitting a product category from the list.

Manuel Quinones,

Editor, Defense Acquisition Regulations Council.
