BILLING CODE P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

March 4, 2015.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; New Executive Office Building, 725 17th Street NW., Washington, DC, 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602.

Comments regarding these information collections are best assured of having their full effect if received by April 8, 2015. Copies of the submission(s) may be obtained by calling (202) 720–8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Regulations for the Inspection of Eggs.

OMB Control Number: 0581–0113.

Summary of Collection: Congress enacted the Egg Products Inspection Act (21 U.S.C. 1031–1056) (EPIA) to provide a mandatory inspection program to assure egg products are processed under sanitary conditions, are wholesome, unadulterated, and properly labeled; to control the disposition of dirty and checked shell eggs; to control unwholesome, adulterated, and inedible egg products and shell eggs that are unfit for human consumption; and to control the movement and disposition of imported shell eggs and egg products that are unwholesome and inedible. Regulations developed under 7 CFR part 57 provide the requirements and guidelines for the Department and industry needed to obtain compliance. The Agricultural Marketing Service (AMS) will collect information using several forms. Forms used to collect information provide method for measuring workload, record of compliance and non compliance and a basis to monitor the utilization of funds.

Need and Use of the Information:

AMS will use the information to assure compliance with the Act and regulations, to take administrative and regulatory action and to develop and revise cooperative agreements with the States, which conduct surveillance inspections of shell egg handlers and processors. If the information is not collected, AMS would not be able to control the processing, movement, and disposition of restricted shell eggs and egg products and take regulatory action in case of noncompliance.

Description of Respondents: Business or other for-profit; Federal Government; State, Local or Tribal Government.

Number of Respondents: 818.

Frequency of Responses:

Recordkeeping; Reporting: On occasion; Quarterly.

Total Burden Hours: 1,909.

Agricultural Marketing Service

Title: Dairy Products Mandatory Sales Reporting.

OMB Control Number: 0581–0274.

Summary of Collection: The Mandatory Price Reporting Act of 2010 amended § 273(d) of the Agricultural Marketing Act of 1946, requiring the Secretary of Agriculture to establish an electronic reporting system for certain manufacturers of dairy products to report sales information under 7 CFR part 1170, the mandatory Dairy Product Mandatory Reporting Program. Data collection for cheddar cheese, butter, dry whey, or nonfat dry milk sales is limited to manufacturing plants producing annually 1 million pounds or more of one of the surveyed commodities specified in the program.

Need and Use of the Information:

Persons engaged in manufacturing dairy products are required to provide the Department of Agriculture (USDA) certain information, including the price, quantity, and moisture content, where applicable, of dairy products sold by the manufacturer. Various manufacturer reports are filed electronically on a weekly basis. Additional paper forms are filed by manufacturers on an annual basis to validate participation in the mandatory reporting program. Manufacturers and other persons storing dairy products must also report information on the quantity of dairy products stored. USDA publishes composites of the information obtained to help industry members make informed marketing decisions regarding dairy products. The information is also used to establish minimum prices for Class III and Class IV milk under Federal milk marketing orders. Without this information USDA would not be able to verify compliance with applicable regulations.

Description of Respondents:

Businesses—Cheddar Cheese, 40 lb. Blocks.

Number of Respondents: 181.

Frequency of Responses: Reporting: On occasion; Weekly; Annually.

Total Burden Hours: 2,331.

Charlene Parker,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410–02–P

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Request for Information: Summer Meal Programs Data Reporting Requirements

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice; request for information.

SUMMARY: The purpose of this Request for Information is to help the Food and Nutrition Service (FNS) better understand what sponsors and State agencies could regularly report to FNS to more adequately track participation in the summer meal programs. The current data reporting system for sponsors and State agencies was designed primarily to process meal claims and not to track program participation. FNS is interested in modifying the current reporting system to better identify the number of eligible children the programs are serving and assess the impacts of efforts to increase program participation. In order to develop proposed changes to reporting requirements, FNS is seeking information from all affected parties regarding current State agency and sponsor data reporting requirements. Specifically, FNS is interested in information about data that sites, sponsors, and State agencies currently collect but do not report to FNS, as well as the feasibility of obtaining currently reported data in a timelier manner. FNS is particularly interested in the opportunities and challenges associated with these changes.

DATES: To be assured of consideration, written information must be submitted or postmarked on or before June 8, 2015.

ADDRESSES: The Food and Nutrition Service, USDA, invites the submission of the requested information through one of the following methods:

- *Preferred method:* Submit information through the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the online instructions for submissions.
- *Mail:* Submissions should be addressed to Mandana Yousefi, Program Analyst, Child Nutrition Programs, Food and Nutrition Service, P.O. Box 66740, Saint Louis, MO 63166-6740.

All information properly and timely submitted, using one of the two methods described above, in response to this request for information will be included in the record and will be made available to the public on the internet at <http://www.regulations.gov>. Please be advised that the substance of the information provided and the identity of the individuals or entities submitting it will be subject to public disclosure.

FOR FURTHER INFORMATION CONTACT: Mandana Yousefi, Program Analyst, Child Nutrition Programs, Food and Nutrition Service, at 703-305-2590.

SUPPLEMENTARY INFORMATION: The Food and Nutrition Service's (FNS) summer meal programs play a critical role in ensuring that America's children have access to nutritious food. The summer

meal programs include meals served to children during the summer through either the Summer Food Service Program (SFSP) or the National School Lunch Program (NSLP) and School Breakfast Program (SBP). The SFSP is a Federal program, administered by State agencies, and operated locally by approved sponsors who provide free meals to children in low-income areas when school is not in session. Schools may provide meals to eligible children during the summer through either the SFSP or the NSLP and SBP. Schools that serve children meals during the summer through the NSLP and SBP can choose to only serve meals to children enrolled in summer school or utilize the Seamless Summer Option to provide meals to children in the general community.

The current data reporting system for sponsors and State agencies was designed primarily to process meal claims and not to track program participation. FNS is interested in modifying the current reporting system to better identify the number of eligible children the programs are serving and assess the impacts of efforts to increase program participation.

In addition to increasing the utility and accuracy of summer meal program data collection, FNS is also interested in ensuring that data is collected and reported to FNS in a timely manner. Although anecdotal information is collected during program operations, the current data reporting timeline does not provide FNS with accurate program participation information until several months after the programs are completed. Receiving more timely data would help FNS in its efforts to improve program access. FNS recognizes that because many State operating systems are more technologically advanced than when reporting requirements were first implemented, changes to improve the timeliness and utility of reporting requirements may be possible without imposing significant additional burden on sponsors or State agencies.

In order to assess FNS efforts to increase access to the summer meal programs, FNS would like to reexamine the current sponsor and State agency reporting requirements for meal claims and participation data, and the timeline for submitting this information. FNS is interested in obtaining feedback about the reporting requirements for the SFSP and for meals served during the summer through the NSLP and SBP.

In accordance with SFSP regulations at 7 CFR part 225, sponsors currently submit monthly claims to their State administering agencies to receive reimbursement. These are due within 60

days following the claim month. State agencies are required to submit data on SFSP participation using the FNS-418—Report of the Summer Food Service Program for Children—30 and 90 days following the month being reported.

Schools that provide summer meals to eligible children through the NSLP and SBP submit claims to the State agency using the same process as that used during the regular school year. State agencies report participation data on a monthly basis using the form FNS-10—Report of School Program Operations. This is the same form submitted by schools providing NSLP and SBP meals during the school year.

FNS' objective with this Request for Information is to receive input from a broad spectrum of parties that may be affected by changes to reporting requirements. These include site supervisors, sponsors, school food authorities, State agency officials, summer partners, and the general public. We are especially interested in current reporting and data collection purposes, methods, and outcomes used by State agencies, sponsors, and sites, which are in addition to those required for completing and submitting FNS-10 and FNS-418. Finally, FNS has an interest in working with sponsors and State agencies to collect data in a more comprehensive, timely manner while also minimizing additional reporting burden.

FNS intends to use the information it receives to propose modifications to the current reporting requirements. Information submitted will help FNS to modify the FNS-418 and FNS-10 to receive more concrete data at an earlier stage in the reporting process. FNS expects such changes to also require amendments to Program regulations.

To assist in the development of these changes, FNS is seeking input regarding the following questions. FNS welcomes comments to all questions below.

Summer Food Service Program Reporting

1. In order to more quickly assess participation during the summer, would it be possible for sponsors to submit meal claims fewer than 60 days from the month being claimed?

a. Would it be possible for them to submit meal claims within 30 days of the close of the claim month?

b. Would reducing this time frame impact the accuracy of the claims submitted? Please explain.

c. What challenges would arise due to a reduced submission period?

d. What additional technology and guidance would be required for State

agencies and sponsors to comply with new timeframes?

2. On average, what percentage of final meal claims have been modified annually since the initial claim? Are modified final meal claims usually higher or lower than the initial claims?

a. How often are meal claims revised?

b. Why are meal claims revised?

c. How often do sponsors appeal State imposed meal claim disallowances?

What are the outcomes of these appeals?

3. a. How accurate is the data for meals served which is submitted by the State agency in the 30-day report when compared with the subsequent 90-day report?

b. What accounts for the difference in actual (versus estimated) meals served between the 30-day and 90-day reports?

4. The FNS-418 only requires State agencies to report the number of sponsors, the number of sites, and the average daily attendance (ADA) of sponsors for the month of July.

a. Would it be feasible for States to report this for every month during the summer?

b. How much time would States need to report this to FNS after each month?

5. FNS currently collects the ADA of sponsors, which is calculated as the total number of meals served in a sponsor's primary meal service during the claim period divided by the number of operating or meal service days for that claim period.

a. Is this an effective method for calculating ADA?

b. Is the current reporting of ADA accurate at the sponsor and/or State level?

c. How could ADA be calculated more accurately?

6. FNS is interested in tracking the number of *unique* children that participate in the SFSP each day. Do you have any suggestions for how this information could be captured and reported?

7. FNS is interested in tracking the number of meals served through rural sites. Would it be feasible to separate "self-prep" meals served from "rural" meals served on the FNS-418?

8. In your State, do sponsors submit meal claims electronically or manually?

9. Are there any data that sponsors or State agencies currently collect that are not reported to FNS?

a. If yes, please describe these data and how they are used.

b. Would sponsors and State agencies be able to regularly report these data to FNS?

10. What are the best indicators or data elements to track changes to program participation from the previous summer?

11. Please provide any additional information that would assist FNS with understanding State agency and sponsor administrative capacities, and how to enhance the quality and utility of the data collected while also minimizing any additional reporting burden.

National School Lunch Program and School Breakfast Program Summer Meal Reporting

Seamless Summer Option

1. Are schools able to easily separate the meal claims for children served during the regular school year and children served through the Seamless Summer Option? Could these meals be separately tracked on the FNS-10?

2. Are there any State agency concerns about separately reporting meals served to children through the Seamless Summer Option?

3. Please provide any additional information that would assist FNS with understanding State agency and school administrative capacities, and how to enhance the quality and utility of the data collected while also minimizing the reporting burden. FNS is particularly interested in receiving feedback from State agencies that already separately track meals served through the Seamless Summer Option from those served through NSLP during the traditional school year.

Serving Meals to Children Enrolled in Summer School

1. For schools that do not participate in the SFSP or the Seamless Summer Option, but serve meals to children enrolled in summer school through the NSLP and SBP, would it be feasible to separately report the meals served to these children? Could these meals be separately tracked on the FNS-10?

2. Please provide any additional information that would assist FNS with understanding State agency and school administrative capacities, and how to enhance the quality and utility of the data collected while also minimizing any additional reporting burden.

FNS appreciates your thoughtful and responsive comments.

Dated: February 24, 2015.

Audrey Rowe,

Administrator, Food and Nutrition Service.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Agency Information Collection Activities: Revision and Extension of Approved Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

March 4, 2015.

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Department of Agriculture (USDA), the Food Safety and Inspection Service (FSIS) has submitted a Generic Information Collection Request (Generic ICR): "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" to OMB for approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*).

DATES: Comments must be submitted by April 8, 2015.

ADDRESSES: Written comments may be submitted to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602.

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact Ruth Brown (202) 720-8958 or Charlene Parker (202) 720-8681.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service,
