Notice of Mailing/Street Address Change for the BLM-Idaho Twin Falls District Office, ID

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice.

SUMMARY: The mailing/street address for the Bureau of Land Management (BLM), Twin Falls District Office will be changing from 2536 Kimberly Road, Twin Falls, Idaho 83301 to 2878 Addison Avenue East, Twin Falls, Idaho 83301.

The new Twin Falls District Office will consolidate several BLM offices in a new building. The new building will provide needed space for staff and operational support.

DATES: The date for the change will be on or about July 1, 2015.

FOR FURTHER INFORMATION CONTACT: Richard Alvarez, Lead Property Management Specialist, BLM Idaho State Office, 208-373-3916, ralvarez@blm.gov.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to leave a message or question for the above individual. The FIRS is available 24 hours a day, seven days a week. You will receive a reply during normal business hours.

Authority: Departmental Manual 382, chapter 2.1.

Timothy M. Murphy,

BLM Idaho State Director.

Endangered and Threatened Wildlife and Plants; Recovery Plan and Initiation of Status Review for Four Subspecies of Island Fox (*Urocyon littoralis*)

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of document availability
and initiation of status reviews.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the final recovery plan for the four subspecies of island fox (*Urocyon littoralis*). Each of the four subspecies, San Miguel Island fox (*Urocyon littoralis littoralis*), Santa Rosa Island fox (*U. l. santarosae*), Santa Cruz Island fox (*U. l. santacruzae*), and Santa Catalina Island fox (*U. l. catalinae*), is endemic to the Channel Island off southern California for which it is named. The recovery plan includes recovery objectives and criteria, and specific actions necessary to achieve downlisting and delisting from the Federal Lists of Endangered and Threatened Wildlife and Plants. With the publication of this notice, we are also initiating status reviews of these four subspecies. A status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the listing of these subspecies.

DATES: To ensure consideration, we are requesting submission of new information for use in the status review no later than May 8, 2015. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: You may obtain a copy of the recovery plan from our Web site at <http://www.fws.gov/endangered/species/recovery-plans.html>. You may also request a copy of the recovery plan from the Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003 (telephone 805-644-1766). You may submit new information to be considered in the status reviews to the same address or by email to fw8islandfox@fws.gov.

For more about submitting information, see "Request for Information" in the **SUPPLEMENTARY INFORMATION** section below.

FOR FURTHER INFORMATION CONTACT: Steve Henry, Field Supervisor, at the

above street address or telephone number (see **ADDRESSES**). Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program and the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*). Recovery means improvement of the status of listed species to the point at which listing is no longer appropriate under the criteria specified in section 4(a)(1) of the Act. The Act requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species.

On March 5, 2004, four of the six subspecies of island fox endemic to the California Channel Islands were listed as endangered following catastrophic population declines (69 FR 10335). The San Miguel Island fox declined from an estimated 450 individuals to 15, the Santa Rosa Island fox declined from over 1,750 individuals to 14, the Santa Cruz Island fox declined from approximately 1,450 individuals to approximately 55, and the Santa Catalina Island fox declined from over 1,300 individuals to 103. The San Clemente Island fox (*Urocyon littoralis clementae*) and the San Nicolas Island fox (*U. l. dickeyi*) were not federally listed in 2004, as their population numbers had not experienced similar declines.

The two primary threats that resulted in the listing of the four subspecies of island fox as federally endangered were: (1) Predation by golden eagles (*Aquila chrysaetos*) (San Miguel Island fox, Santa Rosa Island fox, and Santa Cruz Island fox); and (2) disease (Santa Catalina Island fox). Additionally, because the size of each island fox population was drastically reduced, they were highly vulnerable to stochastic events and the effects of low genetic diversity.

Recovery Plan

The *Draft Recovery Plan for Four Subspecies of Island Fox (Urocyon littoralis)* was developed by the Island Fox Recovery Team's Recovery Coordination Group and was published on September 14, 2012. In developing the plan, we coordinated with the California Department of Fish and
