

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0021, abstracted below, that we will submit to OMB for renewal in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves gaining information to conduct security threat assessments for all aliens and other designated individuals seeking flight instruction (“candidates”) from Federal Aviation Administration (FAA)-certified flight training providers. Pursuant to statute, TSA will use the information collected to determine whether a candidate poses a threat to aviation or national security, and thus prohibited from receiving flight training. Additionally, flight training providers are required to conduct a security awareness training program for their employees and to maintain records associated with this training.

DATES: Send your comments by May 11, 2015.

ADDRESSES: Comments may be emailed to *TSAPRA@dhs.gov* or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA–11, Transportation Security Administration, 601 South 12th Street Arlington, VA 20598–6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227–2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using

appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652–0021, Flight Training for Aliens and Other Designated Individuals; Security Awareness Training for Flight School Employees, 49 CFR part 1552. Pursuant to section 612 of the Vision 100—Century of Aviation Reauthorization Act (49 U.S.C. 44939), TSA is required to conduct security threat assessments for all aliens and other designated individuals seeking flight instruction with Federal Aviation Administration (FAA)-certified flight training providers. On September 20, 2004, TSA promulgated regulations (49 CFR part 1552) to transfer the program from the Department of Justice to TSA and to make appropriate amendments to determine that candidates do not pose a threat to aviation or national security and thus permitted to receive flight training. The collection of information required under 49 CFR part 1552 includes candidates' biographic information and fingerprints, which TSA uses to perform the security threat assessment. Additionally, flight training providers are required to maintain records of having conducted security awareness training for their employees to increase awareness of suspicious circumstances and activities of individuals enrolling in, or attending, flight training. Each flight training provider employee must receive security awareness training within 60 days of being hired and on an annual recurring basis. The flight training providers must maintain records of the training completed throughout the course of the individual's employment, and for one year after the individual is no longer a flight training provider employee.

Based on the numbers of respondents to date, TSA estimates a total of 39,900 respondents annually: 35,000 candidates and 4,900 flight training providers. Respondents are required to provide the subject information every time an alien or other designated individual applies for pilot training as described in the regulation and subsequent interpretations, which is estimated to be 50,000 responses per year. TSA estimates an average of 45 minutes to complete each application, for a total approximate application burden of 37,500 hours per year. Flight training providers must keep records for each flight training candidate for five years from the time they are created. It is estimated each of the 4,900 flight

training providers will carry an annual record keeping burden of 104 hours, for a total of 509,600 hours. Thus, TSA estimates the combined hour burden associated with this collection to be 547,100 hours annually.

Dated: March 4, 2015.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

BILLING CODE 9110–05–P

DEPARTMENT OF JUSTICE

Notice of Lodging Proposed Consent Decree

In accordance with Departmental Policy, 28 CFR 50.7, notice is hereby given that a proposed Consent Decree in *United States v. Abeldgaard, et al.*, Civil Action No. A–01–378 (RRB), was lodged with the United States District Court for the District of Alaska on March 4, 2015.

This proposed Consent Decree concerns a complaint filed by the United States on behalf of the United States Environmental Protection Agency against, *inter alia*, Clarence Abeldgaard, Oceanview Enterprises, Inc. and Geraldine Barling, pursuant to Section 301(a) of the Clean Water Act, 33 U.S.C. 1311(a), to obtain injunctive relief from, and impose civil penalties on, the Defendants for violating the Clean Water Act by discharging dredged or fill material into the waters of the United States near Anchor Point, Alaska, without authorization by the United States Army Corps of Engineers. The proposed Consent Decree resolves the allegations against Ms. Barling.

The Department of Justice will accept written comments relating to this proposed Consent Decree for thirty (30) days from the date of publication of this Notice. Please address comments to Mark A. Nitczynski, Senior Trial Counsel, United States Department of Justice, Environment and Natural Resources Division, Environmental Defense Section, 999 18th Street, South Terrace, Suite 370, Denver, CO 80202 and refer to *United States v. Abeldgaard, et al.*, USAO File No. 2001V0026, EPA Region X, DJ # 90–5–1–16195.

The proposed Consent Decree may be examined at the Clerk's Office, United States District Court for the District of Alaska, United States Courthouse, 222 West Seventh Avenue, Room 229, Anchorage, AK 99513. In addition, the proposed Consent Decree may be examined electronically at <http://>

www.justice.gov/enrd/Consent_Decrees.html.

Cherie L. Rogers,
Assistant Section Chief, Environmental Defense Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

NUCLEAR REGULATORY COMMISSION

[NRC-2015-0048]

Compliance With Phase 2 of Order EA-13-109

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft interim staff guidance; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment its Japan Lessons-Learned Division (JLD) draft interim staff guidance (ISG), "Compliance with Phase 2 of Order EA-13-109, Order Modifying Licenses with Regard to Reliable Hardened Containment Vents Capable of Operation under Severe Accident Conditions," (JLD-ISG-2015-01). This draft JLD-ISG would provide guidance and clarification to assist nuclear power reactor licensees identify measures needed to comply with Phase 2 requirements of the "Order Modifying Licenses with Regard to Reliable Hardened Containment Vents Capable of Operation Under Severe Accident Conditions," (Order EA-13-109) to have either a vent path from the containment drywell or a strategy that makes it unlikely that venting would be needed from the drywell before alternate reliable containment heat removal and pressure control is reestablished.

DATES: Submit comments by April 9, 2015. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: You may submit comment by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0048. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **Mail comments to:** Cindy Bladey, Office of Administration, Mail Stop: OWFN-12-H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Rajender Auluck, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-1025; email: Rajender.Auluck@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2015-0048 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this action by the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0048.
- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may access publicly-available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this notice (if that document is available in ADAMS) is provided the first time that a document is referenced. The draft JLD-ISG-2015-01 is available in ADAMS under Accession No. ML15051A143. The ISG for complying with Phase 1 requirements of the order (JLD-ISG-2013-02) was issued on November 14, 2013 (ADAMS Accession No. ML13304B836).

- **NRC's PDR:** You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.
- **NRC's Interim Staff Guidance Web site:** JLD-ISG documents are also available online under the "Japan Lessons Learned" heading at <http://www.nrc.gov/reading-rm/doc-collections/isg/japan-lessons-learned.html>.

B. Submitting Comments

Please include Docket ID NRC-2015-0048 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Background

The NRC developed draft JLD-ISG-2015-01 to provide guidance and clarification to assist nuclear power reactor licensees with the identification of methods needed to comply with Phase 2 requirements in Order EA-13-109, "Order Modifying Licenses with Regard to Reliable Hardened Containment Vents Capable of Operation under Severe Accident Conditions" (ADAMS Accession No. ML13130A067). The draft ISG would not be a substitute for the requirements in Order EA-13-109, and compliance with the ISG would not be a requirement. This ISG is being issued in draft form for public comment to involve the public in development of the implementing guidance.

The accident at the Fukushima Daiichi nuclear power station reinforced the importance of reliable operation of containment vents for boiling-water reactor (BWR) plants with Mark I and Mark II containments. As part of its response to the lessons learned from the accident, on March 12, 2012, the NRC issued Order EA-12-050 (ADAMS Accession No. ML12056A043) requiring licensees to upgrade or install a reliable hardened containment venting system (HCVS) for Mark I and Mark II containments. The requirements in Order EA-12-050 for licensees with
