Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy

of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

A Comprehensive Assessment of the National Program to Eliminate Diabetes Related Health Disparities in Vulnerable Populations—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In an effort to reduce diabetes-related disparities, CDC’s Division of Diabetes Translation’s (DDT) aims to concentrate efforts where the greatest impact can be achieved for populations with the greatest burden or risk of diabetes. DDT established the National Program to

Eliminate Diabetes Related Health Disparities in Vulnerable Populations (the “VP Program”) to coordinate and integrate efforts in high risk communities involving CDC, national organizations, and community partners.

Through the VP Program, six national organizations received cooperative agreements to assist a total of 18 communities with planning, implementing, and evaluating community-based diabetes control programs. Each VP awardee is required to use the community change framework to guide their work with three communities. CDC proposes to collect information to learn more about how the community change approach is working in communities that are significantly impacted by factors that influence the disproportionate burden of diabetes in vulnerable populations, such as low income, limited education, limited access to health care, and a physical environment that does not promote health. Semi-structured telephone interviews will be conducted with key personnel associated with each national organization (VP awardee) and

each community site. One project coordinator and one consultant at each of the six VP grantee organizations (n=12) will be asked to participate in an interview of 1.5 hours in length. In addition, an interview of approximately 1.5 hours will be conducted with one community partner or one coalition member at each community site (n=18) and one site coordinator at each community site (n=18) over a two-month period. Data collection, management, and analysis will be conducted by a contractor working on behalf of CDC.

The interviews will allow CDC to explore capacity building and support strategies used by the awardees to facilitate community change, and provide insight into the facilitators and barriers experienced by the program stakeholders in addressing diabetes in their communities.

OMB approval is requested for one year. Participation in the interviews is voluntary and there are no costs to respondents other than their time. The total estimated annualized burden hours are 72.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Grantee (staff designee and consultant)	Grantee Interview Guide	12	1	1.5
Community Partner/Coalition Member	Community Partner/Coalition Member Interview Guide.	18	1	1.5
Site Coordinator	Site Coordinator/Interview Guide	18	1	1.5
