SUPPLEMENTARY INFORMATION:

Background

On December 2, 2014, the Department of Commerce (“Department”) initiated antidumping duty investigations on melamine from the People’s Republic of China (“PRC”) and Trinidad and Tobago.¹ Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (“the Act”), and 19 CFR 351.205(b)(1) state that the Department will make a preliminary determination no later than 140 days after the date of the initiation. The current deadline for the preliminary determinations of these investigations is no later than April 21, 2015.

Postponement of Preliminary Determination

On February 25, 2015, Cornerstone Chemical Company (“Petitioner”), made timely requests, pursuant to 19 CFR 351.205(e), for postponement of the preliminary determinations, in order to facilitate the Department’s analysis of respondents’ questionnaire responses and interested parties’ surrogate value data submissions, to resolve other outstanding issues, and to issue any necessary supplemental questionnaires. Because there are no compelling reasons to deny the requests, in accordance with section 733(c)(1)(A) of the Act, the Department is postponing the deadline for the preliminary determinations by 50 days.

For the reasons stated above, the Department, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determinations to no later than 190 days after the date on which the Department initiated these investigations. Therefore, the new deadline for the preliminary determinations is June 10, 2015. In accordance with section 735(a)(1) of the Act, the deadline for the final determinations of these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Tetrahydrofurfuryl Alcohol From the People's Republic of China: Final Results of the Second Expedited Sunset Review of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce ("Department") finds that revocation of the antidumping duty order on tetrahydrofurfuryl alcohol ("THFA") from the People's Republic of China ("PRC") would be likely to lead to

continuation or recurrence of dumping. The magnitude of the dumping margins likely to prevail is indicated in the "Final Results of the Sunset Review" section of this notice.

DATES: *Effective Date:* March 12, 2015.

FOR FURTHER INFORMATION CONTACT: Paul Stolz; AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: 202–482–4474.

SUPPLEMENTARY INFORMATION:

Background

On November 3, 2014, the Department initiated a sunset review of the antidumping duty order on THFA from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended ("Act").¹ On November 6, 2014, Penn A Kem LLC ("PAK"), the petitioner in the THFA investigation, timely notified the Department that it intended to participate in the sunset review claiming domestic interested party status under 19 CFR 351.102(b)(29)(v) and section 771(9)(C) of the Act, as a domestic producer of THFA.² The Department then received a complete substantive response filed by PAK on December 2, 2014, within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).³ The Department did not receive any responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), we conducted an expedited (120-day) sunset review of the Order. As a result of this sunset review, the Department finds that revocation of the Order would likely lead to continuation or recurrence of dumping, at the levels indicated in the "Final Results of the Sunset Review" section of this notice, *infra*.

Scope of the Order

The product covered by this order is THFA (C5H10O2). THFA, a primary
