Before doing so, the EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through June 30, 2015. Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Section 7004(b) of RCRA gives the EPA broad authority to provide for, encourage, and assist public participation in the development, revision, implementation, and enforcement of any regulation, guideline, information, or program under RCRA. An example of this is at 40 CFR 124.31(a) and (b), facilities applying for an initial part B permit or a part B permit renewal, where the renewal application is proposing a change that would qualify as a Class 3 permit modification under 40 CFR 270.42, are required to hold at least one meeting with the public prior to submitting the part B permit application to the permitting agency. The applicant must submit a summary of the meeting, along with the list of attendees and their addresses, and copies of any written comments or materials submitted at the meeting, to the permitting agency as part of the part B application (§ 124.31(c)). Under 40 CFR 124.31(d), applicants must provide public notice (*i.e.*, newspaper advertisement, visible and accessible sign, and broadcast media announcement) of the pre-

application meeting at least 30 days prior to the meeting. The applicant also must provide a copy of the notice to the permitting agency and to the appropriate units of State and local government.

In addition, the statute specifies certain public notices (*i.e.*, radio, newspaper, and a letter to relevant agencies) that the EPA must provide before issuing any RCRA permit. The statute also establishes a process by which the public can dispute a permit and request a public hearing to discuss it. The EPA carries out much of its RCRA public involvement at 40 CFR parts 124 and 270.
