

TABLE 1—LLW PROGRAMMATIC ASSESSMENT: SUMMARY OF TASKS EVALUATED BY NRC STAFF—Continued

Task	Description	Current ranking	Previous ranking	Rationale for change in ranking
13. Examine the need for guidance on defining when radioactive material becomes LLW.	This task will include determining whether a need exists for the NRC to provide guidance to licensees on when radioactive material becomes LLW. Radioactive material that is LLW can be subject to measures, such as storage guidance and/or financial assurance provisions that differ from those for radioactive materials for which this is an intended use.	Low	Low	Not applicable, no change in ranking.
14. Develop and implement the national waste tracking system.	This task will include promulgating a regulation that would identify the data necessary to track the origin, management, and disposition of all LLW. Require the promulgation of a compatible State regulation by all Agreement States with licensees that produce LLW. By these regulations, require that licensees provide necessary information to regulatory authorities on a regular, prescribed basis.	Low	Low	Not applicable, no change in ranking.

IV. Specific Requests for Comments

The NRC is requesting comments on the updated prioritized task list as presented in section III, Table 1 of this document. In particular, the NRC is requesting any views on possible unintended consequences of finalizing the proposed task list and any tasks that commenters feel the NRC did not adequately consider.
