DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; National Compensation Survey

AGENCY: Department of Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is submitting the Bureau of Labor Statistics (BLS) sponsored information collection request (ICR) revision titled, "National Compensation Survey," to the Office of Management and Budget (OMB) for review and approval for use in accordance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501 *et seq.*). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before April 15, 2015.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the RegInfo.gov Web site at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201410-1220-001 (this link will only become active on the day following publication of this notice) or by contacting Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or sending an email to DOL_PRA_PUBLIC@dol.gov.

Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or sending an email to DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the National Compensation Survey information collection. Under the National Compensation Survey (NCS), the BLS conducts ongoing surveys of compensation and job characteristics. Data collected by the NCS are used to produce Employment Cost Trends, including the Employment Cost Index (ECI) and Employer Costs for Employee Compensation (ECEC), employee benefits data, and data used by the President's Pay Agent. This information collection has been classified as a revision, because of the NCS transition to a 3-year collection cycle. Under this cycle design for NCS, most private industry establishments only will be in the sample for 3 years compared to previously being in the survey 5 years. The Federal Employees Pay Comparability Act of 1990, Ethics Reform Act of 1989, and Bureau of Labor Statistics Enabling Statute authorize this collection. See 5 U.S.C. 5304, 5318, and 29 U.S.C. 2b.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0164. The current approval is scheduled to expire on April 30, 2015; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 5, 2014 (79 FR 65706).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of

publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0164. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Enhance the quality, utility, and clarity of the information to be collected; and

Proposed Project

The National Science Foundation Act
of 1950 (Pub. L. 81-507) set forth NSF's
mission and purpose:

"To promote the progress of science;
to advance the national health,
prosperity, and welfare; to secure the
national defense. . . ."

The Act authorized and directed NSF
to initiate and support:

- Basic scientific research and
research fundamental to the engineering
process;
- Programs to strengthen scientific
and engineering research potential;
- Science and engineering education
programs at all levels and in all the
various fields of science and
engineering;
- Programs that provide a source of
information for policy formulation; and
- Other activities to promote these
ends.

Among Federal agencies, NSF is a
leader in providing the academic
community with advanced
instrumentation needed to conduct
state-of-the-art research and to educate
the next generation of scientists,
engineers and technical workers. The
knowledge generated by these tools
sustains U.S. leadership in science and
engineering (S&E) to drive the U.S.
economy and secure the future. NSF's
responsibility is to ensure that the
research and education communities
have access to these resources, and to
provide the support needed to utilize
them optimally, and implement timely
upgrades.

The scale of advanced
instrumentation ranges from small
research instruments to shared
resources or facilities that can be used
by entire communities. The demand for
such instrumentation is very high, and
is growing rapidly, along with the pace
of discovery. For large facilities and
shared infrastructure, the need is
particularly high. This trend is expected
to accelerate in the future as increasing
numbers of researchers and educators
rely on such large facilities,
