ACTION: Notice and request for
comments.

SUMMARY: In compliance with the
Paperwork Reduction Act of 1995, the
Office of Surface Mining Reclamation
and Enforcement (OSMRE) is
announcing its intention to request
renewed approval for the collection of
information regarding the maintenance
of State programs, and procedures for
substituting Federal enforcement of
State programs and withdrawing
approval of State programs.

DATES: Comments on the proposed
information collection activity must be
received by May 18, 2015, to be assured
of consideration.

ADDRESSES: Submit comments to John
Trelease, Office of Surface Mining

Reclamation and Enforcement, 1951

SUPPLEMENTARY INFORMATION: The Office
of Management and Budget (OMB)
regulations at 5 CFR part 1320, which
implement provisions of the Paperwork
Reduction Act of 1995 (Pub. L. 104-13),
require that interested members of the
public and affected agencies have an
opportunity to comment on information
collection and recordkeeping activities
[see 5 CFR 1320.8 (d)]. This notice
identifies an information collection that
OSMRE will be submitting to OMB for
approval. This collection is contained in
30 CFR part 733—Maintenance of State
Programs and Procedures for
Substituting Federal Enforcement of
State Programs and Withdrawing
Approval of State Programs. OSMRE
will request a 3-year term of approval
for each information collection activity.
Responses are required to obtain a
benefit.

Before including your address, phone
number, email address, or other
personal identifying information in your
comment, you should be aware that
your entire comment, including your
personal identifying information, may
be made publicly available at any time.
While you can ask us in your comment
to withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Comments are invited on: (1) The
need for the collection of information
for the performance of the functions of
the agency; (2) the accuracy of the
agency's burden estimates; (3) ways to
enhance the quality, utility and clarity
of the information collection; and (4)
ways to minimize the information
collection burden on respondents, such
as use of automated means of collection
of the information. A summary of the
public comments will accompany
OSMRE's submission of the information
collection request to OMB.

This notice provides the public with
60 days in which to comment on the
following information collection
activity:

National Control and Management Plan for Members of the Snakehead Family (Channidae)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (USFWS), announces the availability of a draft document for public review: *National Control and Management Plan for Members of the Snakehead Family* (Channidae) (Plan). The goal of the Plan is to use the best available science and management practices to prevent the introduction of snakehead into new areas, contain and where possible eradicate newly established and localized populations, and minimize impacts in areas where they are established and eradication is not feasible.

DATES: To ensure consideration, please send your written comments by April 16, 2015.

ADDRESSES: *Obtaining Documents:* The draft document may be obtained online, by mail, or by email:

SUPPLEMENTARY INFORMATION:

Background

Through provisions in title 50, part 16 of the Code of Federal Regulations (CFR), the USFWS regulates the importation and interstate transport of certain aquatic species that have been determined to be injurious (50 CFR 16.13). The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*) established the Aquatic Nuisance Species Task Force (ANSTF), an intergovernmental organization co-chaired by the USFWS and the National Oceanic and Atmospheric Administration and dedicated to prevent and control the spread of aquatic nuisance species.

The 108th Congress requested that the USFWS address concerns about the introduction of northern snakehead. In response, the USFWS assembled a Northern Snakehead Working Group (NSWG) to provide input on the development of a *Northern Snakehead Control and Management Plan*. This Plan to guide the USFWS and other interested parties in managing and controlling existing populations, and preventing the spread and introduction of this species into additional areas of the United States, was completed in 2005 with the input of the NSWG and other northern snakehead experts. In 2011, the Mississippi River Basin Panel on Aquatic Nuisance Species requested that the ANSTF update the 2005 Plan to include additional snakehead species that are, or have the potential to become, invasive in U.S. waters.

Development of the Draft Plan

In 2011 the ANSTF established a committee to revise the *Northern Snakehead Control and Management Plan* to include all snakehead species to correspond with the Lacey Act. The committee was made up of 29 committee members representing Federal and State agencies, nongovernmental organizations, and university experts. The ANSTF was provided an opportunity to review the draft document and comment in November 2013 and March 2014. ANSTF comments were addressed in this new version of the draft Plan.

The goal of the revised Plan is to use the best available science and management practices to prevent the

future introduction of snakehead into new areas; contain and, where possible, eradicate newly established and localized populations; and minimize impacts in areas where they are established and eradication is not feasible. The following is a list of objectives set forth by this plan:

1. Prevent importation into the United States by refining regulations and improving compliance and enforcement.

2. Contain the expansion of snakehead within the United States by assessing the risk of establishment and developing an effective snakehead surveillance program that can detect new introductions at a stage where populations are able to be eradicated.

3. Develop long-term adaptive management options to mitigate potential impacts of Snakehead in U.S. waters where eradication is not possible.

4. Conduct research to better understand the pathways of spread and potential impacts of snakehead on aquatic ecosystems, as well as to develop more effective surveillance, control, and eradication methods.

5. Develop effective outreach materials to help prevent new introductions of snakehead within the United States and control the anthropogenic spread of established populations.

6. Review and assess progress of the Plan.

Request for Public Comments

The draft Plan is available on the ANSTF Web site (see **ADDRESSES**) for public review and comment.

We request review and comment on our Plan from local, State, and Federal agencies and the public. All comments received by the date specified in **DATES** will be considered in preparing final documents. Methods of submitting comments are in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. You can ask the USFWS in your comment to withhold your personal identifying information from public review; however, we cannot guarantee that we will be able to do so.

Responses to individual commenters will not be provided, but we will provide the comments we receive and a summary of how we addressed substantive comments in a document on the ANSTF Web site listed above in
